

HARVEST REQUIREMENTS

The chief of which, nowadays, is a light, strong and easily-operated Binder. To make such a machine requires experience in the building of agricultural implements; experience gained from the close observation of their practical work in the field. The No. 3 Binder is the result of over half a century's experience, and can prove its merit.

FROST & WOOD NO. 3 BINDER
Cuts 5 ft., 6 ft., and 7 ft.

Built of the best raw materials that the markets of the world can produce; and built with Canadian capital and by Canadian workmen. Skilled mechanics put the different parts of it together and when it leaves the factory it is ready for immediate use in the field. Every part is carefully inspected, tested and adjusted so that when it is put into a field of grain it will immediately commence cutting, and will not require any further adjustment. Our guarantee covers every machine which leaves our works. Send for illustrated Catalogue "F." It's free. Our line of plows for fall work is included in this catalogue.

The Pandora Reservoir

The Pandora is the only range with a reservoir stamped in one single piece of steel and enamelled. It is the only reservoir without seams, rivets or places to catch dirt. It has no sharp angles. All angles are made with rounding curves, and the whole reservoir is beautifully enamelled.

McClary's are the only range makers in Canada with a plant for making enamelled steel reservoirs, and that is why the Pandora is the only range that has a one-piece reservoir.

THE READY-MADE HOUSE

Is especially adapted to withstand the cold weather in Manitoba and the Northwest. It has an ARTISTIC APPEARANCE, and the price is LOWER than a house built in the ordinary way. The houses are built at our factory in Vancouver, out of the very best selected, kiln dried material, and are shipped in sections, each piece being numbered, and the whole accompanied by complete working instructions and diagrams, so that the houses can be easily put together by anyone of ordinary intelligence.

We have houses for the settlers as well as houses for the towns, and manufacture over 20 different designs. Everywhere these houses have been sold, they have proved eminently satisfactory, and we have many testimonials. We also manufacture SCHOOL HOUSES—just the thing for the country. Write us for particulars.

EVERY FARMER OR DAIRYMAN
Should read this.

Mr. Farmer: Protect your horses and cattle from those abominable flies. The cost is not much, but it will save you hundreds of dollars. I have used FLY-KILLER OIL for 4 years, and would not be without it if it cost me three times the price. Mr. Milkman, if you are supplying infants and typhoid-fever patients with milk, you must protect your cows from flies, where cows are much worried milk is poison. I will send to any address one PATENT SPRAY, to spray up or down, and enough FLY-KILLER OIL for 50 cows, the best disinfectant. Price, \$1.25.
To kill lice on hen roosts. To kill lice on horses. To kill lice on cattle. To kill ticks on sheep. Non-injurious. Sold in one-gallon cans. Sprays \$1.00.

JOHN J. WHITE, Brandon, Man.
