********* MARKET REPORTS ************

CHICAGO, Sept. 26.—Sharp reductions of prices at Liverpool caused a decided setback today in the wheat market here despite general belief that to obtain war supplies to advantage the British Government had arbitrarily fixed the Liverpool quotations and otherwise interfered with conditions likely to affect trade. The close in Chicago was steady by 1¼0 to 1%c under last night. Other net losses were corn, %c to %c, and oats ¼0 to %c to %c to ½c. Provisions finished the same as last night to a shade lower.

MONTREAL Sept. 26.—Export business in grain continues restricted by the many uncertainties of the shipping situation, and a week of little more than nominal business in the export trade closed quietly on Saturday. Fluctuations in the Winnipeg market at the moment can exert little influence one way or the other in the matter of new business until exporters are in a position to know whether the tonnage necessary to carry out forward engagements will be available.

out forward engagements will be available.

Receipts of cheese at Montreal for the week ending Sept. 26 showed an impropenent of about 2000 boxes over the previous week, but again the question of freights is limiting the amount of business that can be done. For the season to date receipts at Montreal are 116,000 boxes behind receipts for the same period a year ago. In butter the shortage as compared with last year amounts to about 63,000 packages. No important changes in prices have taken place in the last day or two.
