May Day Finds Armies of Allies and Cent-AMERICAN ral Powers in Deadly Combat, But Attention of World is Centred on Internal Crisis in German Empire

By Courier Leased Wire

May Day has dawned with the armed hosts of Britain, France and Germany still locked fast in the most strenuous struggle of the whole tremendous war. But INCREASES INTEREST Still locked last in the most strendous struggle of the whole tremendous war. the eyes of the world are fixed for the moment on the stage behind the battle line BOTH A REVELATION Demand is Made For More where, inside the closely guarded frontiers of the Central Powers the bursting of the long brewing storm of discontent is awaited with a mingling of fear and hope.

Extraordinary measures have been taken by the rulers of the Central Empires to prevent the outside world from knowing what is transpiring within their borders. No German newspaper is allowed to pass into a neutral country and for the London, May 1.—The passage by Press and Public of England and of the admiralty, concerning past ten days all persons have been forbidden to leave Germany. The same veil which has been drawn over events in Germany and Austria obscures the situation in Sweden, where a great nation-wide demonstration by the work- matter of surprise and gratification ers was also planned for to-day. Since the outbreak of a couple of weeks ago when rioting took place in Stockholm, the only news received as to conditions in Sweden has been the bare announcement that a general strike had been ordered for May Day, coupled with a warning to the government against undue interference.

On the fighting front in France little change has tkaen place for some days.
