Among local medical men and the public generally there is the keenest interest in the reported discovery by Dr. Friedmann, the German physician, of a successful treatment for consumption. Several local doctors have made arrangements to interview Dr. Friedmann, and it is hoped that possibly he may be induced to visit Toronto. Despite the great publicity which has been given the new "cure," the disposition among Toronto medical men is to look with some suspicion on the high claims that have been made. They will be delighted to find that Dr. Friedmann's cure is as dependable as has been stated but in view of the doubt they think it is unfortunate that so much publicity has been given the matter until all possibility of disappaintment to sufferers had
