

## DUNDAS PAYS \$5.55 FOR COAL FOR THE SCHOOLS OF THE TOWN, UNDER CONTRACT.

Teachers From Hamilton Must Leave on the 7:15 Car to Be There in Time.

Dundas, June 16.—The June meeting of the Board of Education was held last evening. The members present were J. I. Steele (Chairman), D. W. Nelson, H. J. Smith, Henry Tyson, John Douglas, W. A. Davidson, Thos. Reid, J. Thompson, F. C. McInty, M. J. Sullivan.

The High School report for May showed 97 pupils enrolled, and an average attendance of 93, an increase of eight in attendance over the same month last year. Fees collected, \$88. Supplies were asked for for the entrance examination, which begins on the 24th inst., and were granted. The departmental examinations begin on the 29th inst., and it was asked and granted that the Public Schools be closed on that and the following day. The Cadet Corps was reported to have been inspected on the 11th inst., and pronounced in a high state of efficiency. It was found that the corps was short of a pair of puttees, and that Principal Saunders had taken the liberty of procuring them, at a cost of \$5.57. The action of the Principal was endorsed, and the account ordered to be paid. A grant of \$15 to aid in purchasing ammunition for the Cadets who are shooting, was asked for, and \$10 voted.

The Public School report showed 507 pupils on its registers and an average attendance of 456—six more than the same month last year. Fees collected, \$11. Empire Day was reported as very successful. The accounts for expenses amounted to \$1.50, which was ordered paid. As directed by the Board, the Principal had ascertained that the teachers were all properly qualified and efficient, and he recommended their re-engagement. A motion was passed re-engaging the entire staff, and the matter of adjusting salaries in accordance with the new salary schedule, was left to the Internal Management Committee.

A communication enclosing a marked cheque for \$10 was received from Rev. E. A. Irving, the money to be awarded for the best essay by a public school pupil on the "Climate of Canada." The gift was accepted, Mr. Irving heartily thanked for the same and a committee, composed of Chairman Steele, W. A. Davidson and D. W. Nelson, appointed to conduct the contest and award the prize.

The Property Committee reported that a fire escape had been purchased, at a cost of \$85, and the contract for supplying the coal awarded to Cowper & Co.

The Secretary reported that Mr. McKinnon had refused to sign the usual agreement with the board, objecting to the clause requiring two months' notice to be given in case of a teacher wishing to leave. The chairman was instructed to wait upon Mr. McKinnon, and in case he persisted in his refusal to sign the agreement it was decided to advertise for another teacher at once.

Chairman Steele reported re-employment to the Experimental Farm in which there were obstacles in the way of carrying out the proposal at present, and it was decided to leave the matter over.

Mr. McKinnon's resignation was read, and the secretary instructed to notify the council of the same.

John Douglas was appointed on the Internal Management Committee and Chairman Steele was instructed to convene the committee, owing to the resignation of its chairman.

Miss Watson applied for re-engagement for the ensuing year at a salary of \$650, an advance of \$100. Her application was granted in both respects without a murmur.

Trustee Douglas suggested that the rules requiring teachers to be present fifteen minutes before school opens, be relaxed a trifle in order that teachers living in Hamilton might leave on the 8:15 trolley instead of 7:15, but nothing was done in the matter.

Trustee Reid asked that hereafter the school principals, who have charge of stationery and other supplies, be required to report quarterly as to amounts on hand.

A pretty warm discussion ensued, which ended in the request being negatived by a vote of 6-4.

Another lively breeze arose in passing accounts, over the account of W. Cooper & Co. for coal, \$428.07. It was objected to owing to neither quantity nor price being given. Chairman Smith defended having the account thus rendered, as the committee had been given power to act in the matter, and had given the contract to the lowest tenderer, and that the price paid did not differ from the board or the public. The discussion was ended by a motion by Trustees Davidson and Sullivan, that the account be not paid until quantities and price were given. This carried practically unanimously, after which the price was disclosed, being \$5.55 per ton.

Dr. McMahon, ex-M. P., is visiting old friends in town. He is looking particularly well.

The Dundas company of the 77th made a particularly fine appearance this morning when it turned out for camp.

## SCADDING-RAMSAY.

St. Thomas' Church, Toronto, was the scene of a happy event, yesterday, when Miss Margaret Emily Ramsay, third daughter of Mr. A. F. Ramsay, formerly of this city, and for many years President and general manager of the Canada Life Assurance Company, became the bride of Henry Crawford Scadding, M. D., second son of the late H. S. Scadding, Rev. C. E. Sharp, rector of St. Thomas', officiated. The bride has a host of friends in this city who will join in the congratulations.

## CHURCH RE-OPENING.

The reopening of St. Paul's A. M. E. Church, which has been in the hands of decorators for some time, will take place next Sunday, and arrangements have been made for special services. Rev. Abraham Grant, of the Central City, will preach morning and evening. In the afternoon a platform meeting will be held and addresses will be delivered by Rev. Dr. Williamson, Rev. I. Tovey, Rev. J. Couch, Rev. R. Hatchett and the pastor, Rev. T. H. Henderson.

## DORIC'S OFFICERS.

The annual meeting for the election of officers of Doric Lodge, A. F. & A. M., was held last night. R. W. Bro. Dr. H. I. Griffin, D. D. G. M., conducted the election, which resulted as follows:

J. W. Harvey, W. M.  
George Perry, S. W.  
John Moffatt, J. W.  
A. B. Clark, Chaplain.  
R. W. Bro. J. C. Dixon, Chairman.  
R. W. Bro. Dr. C. V. Emory, Secretary.  
W. Tocher, Tyler.  
W. Bro. J. A. Leonard and W. Bro. W. Montague, Auditors.

## LAI'D AT REST.

Funeral of the Late Mr. Harry Gayfer Yesterday.

A large concourse of people paid their last respects to the late Mr. Harry Gayfer yesterday afternoon, the funeral taking place from the family residence, Wellington street south, at 3 o'clock. The clergyman who officiated was Rev. R. J. Treleven, of First; Rev. Dr. I. Tovey, of Wesley; Rev. R. Whiting, of Centenary; and Rev. L. Couch, of Gore. Rev. W. F. Wilson, D. D., of Trinity Church, Toronto, sent a message expressing his regret at being unable to attend. The pallbearers were Messrs. Thomas Clappison, Alex. McLaughlin, George Le Kiche, Alex. McKay, Capt. W. R. Ecclestone and W. G. Moore.

Many beautiful floral tributes were received, among them being a Maltese cross from the officials and a basket of flowers from the ladies of First Methodist Church; gates ajar from the employees of J. Winer & Co.; cross from the Collector and officers of H. M. Customs; wreaths from the T. H. & B. freight department, G. W. Robinson & Co. Gore Street Methodist Church choir and Trinity Methodist Church choir, Toronto.

The funeral of Simon Springstead took place yesterday afternoon at 3 o'clock, from his late residence, 17 Francis street, to Hamilton cemetery. Rev. J. S. Wilkins, of Rev. H. B. Christie conducted the services. The pallbearers were six nephews: Herbert Coombs, Ernest Williams, Frank Jackson, Newton, John and Ethelbert Springstead. The floral tributes were: Wreaths, family, A. Company, 13th Regiment; anchor, J. Pickard; sickle, Women's Mission Society, Simcoe Street Church; sprays, Mrs. Burrows, Mrs. Comer, James Jackson and family, Mrs. Williams, Mrs. Laird, Brantford, Mr. and Mrs. Johnson and Mrs. Quinton.

Christina Becker passed away early this morning, at her home, in Saltfleet, aged 72 years. The funeral will take place on Wednesday at 8:30 o'clock to St. Ann's Church, thence to Holy Sepulchre cemetery for interment.

## LEGLESS MAN DEFENDANT.

(Continued from page 1.)

McLaren struck him first. As it was shown McLaren was excited and using bad language at the time, the Magistrate dismissed the action, with \$1 costs against McLaren. "We intend to appeal this," said Col. Logie. "Your Worship takes a very severe view of the matter in affixing the costs on the complainant."

"Go ahead and appeal," said the Magistrate. "You can't scare me into dropping the costs like that."

"I'm sure nothing would scare your Worship," said Mr. Logie.

"Well, all right, but don't take up the time of the court like that," was the reply he got.

Eddie Burke's little spree on Saturday last, when a bottle of gin got into his pocket in a mysterious manner, cost him three months' liberty. He was found guilty of receiving the gin, knowing it to have been stolen, and Eddie smiled his thanks as he sat down.

Richard Gracey, 164 Charlton avenue east, was plainly and undeniably drunk and disorderly when Constable R. Dunlop arrested him, and he admitted it. He was compelled to admit that he did \$5 worth of damage to the "furniture" in the cells also. He was fined \$5 on each charge.

Nelson Lillis, Hess and Peter streets, and George McCuaig, 61 Murray street, were arrested last night by Constable Lillis, charged with being disorderly. Lillis did not appear and \$10 bail he put up to regain his liberty was collected and a warrant issued for his arrest. McCuaig appeared, and admitted he was swearing and making himself obnoxious to passersby and was fined \$5 and \$1 costs.

Joe Leslie, 226 York street, was arrested yesterday by Detective Coulter on a charge of stealing \$13 from his employer, W. Waters. The case was laid over till Saturday at the request of A. M. Lewis, his counsel.

Isaac Burnett, Buffalo, an ex-jockey, was charged with being drunk and disorderly at the race track. He was remanded till Monday. This will keep him in the coop till after the races here, and that is what the police want. Burnett's chief worry was whether or not two bets he had made yesterday had been won by his choices, and he obtained a paper from one of the policemen, and found they had. After this he did not care how long he was in the coop, so long as he got his money.

Morris Bartlett, charged with keeping a ferocious dog, walked into the Police Court with a little fox terrier which wandered around wagging its tail and making friends with all in court. It was proven that this poor mite had bitten Hattie Walls, a four-year-old girl, and Magistrate Jells ordered the dog to be taken into the country if its owner did not want it shot.

"The foreman is a wild Irishman, and would not pay the man, but we save money," said E. A. Fowler, when his concern was sued by Alex. Green, a teamster, for \$10 wages. The case was dropped.

J. Wilson versus Mrs. Foote, a suit for \$3 wages, was settled out of court.

## M'DONALD-FRASER.

Early Marriage In St. Patrick's Church This Morning.

In St. Patrick's Church this morning Miss Margaret Fraser, King street east, granddaughter of the celebrated explorer, after whom Fraser River is named, and Mr. Thos. McDonald, of Cornwall, were married by Rev. Father Walsh. Although the ceremony took place at an early hour, there was a large gathering of friends of the bride present, and she was showered with rice as she left the church. Mr. J. Boyes was the best man, and Miss Catherine Fraser was the bridesmaid.

Immediately after the wedding breakfast the happy couple left for a short honeymoon trip, after which they will take up residence at Cornwall.

## 350 DROWNED.

Tokio, June 16.—Fifty fishing boats have been wrecked in a great storm off the coast of Kagoshima, and three hundred and fifty of the crews have been drowned. The governor of the province has requested assistance from the government navy yard at Sasebo.

## OPENING OF THE CONVENTION.

(Continued from page 1.)

mense eagle, with twelve feet spread of wings, surmounts a mass of flags. There is light from windows and skylights, and should sessions extend at length the daylight great clusters of arc lights assure sufficient illumination.

Every precaution for quick egress in case of emergency has been provided, and for those to whom the occasion is one of hard work and quick communication the facing of the hall is accordingly. Practical men planned the arrangement of assembly halls, for pages, sergeants at arms, doorkeepers, messengers and ushers; there are rows of telephones and large spaces set aside for the army of telegraphers of the Postal and Western Union Telegraph Companies.

There is also an emergency hospital, fully equipped, with two wards, four beds, an operating table, invalid chairs, two women and four men nurses, and a staff of 48 physicians. Most of the physicians are merely honorary members of the hospital staff, but they are all subject to call in case of need. By means of an electric light signal above the speaker's stand, a physician may be called at any time from the floor of the convention to the hospital even though the noise of the moment might prevent the announcer making himself heard. Today's programme was to be essentially preliminary, but when Chairman Harry S. New, of the National Committee dropped his gavel at midday it was to initiate plans as nearly perfect as possible at the outset of a national convention.

## Only One Woman.

Chicago, June 16.—The only woman who will have a seat on the floor of the republican convention as a regular delegate came to Chicago yesterday. She is Mrs. Lucy A. Clarke, of Brighton City, Utah, and it is declared that she also will be the only woman who ever had a vote in a Republican convention.

Mrs. Clarke came to the city merely as an alternate delegate. Three hours after her arrival, however, the Utah delegates went into caucus. Then it was found that one of the regular delegates, C. E. Loebe, of Provo City, would not come to the position. Thereupon the vacant position was allotted to Mrs. Clarke as a regular delegate.

Mrs. Clarke is the daughter of one of the early Mormon pioneers, and is an ardent woman suffrage advocate.

Crowd Gathering.  
Convention Hall, Chicago, July 16.—11:30 a. m.—Delegates and the public are slowly assembling. Senator Dilliver has telegraphed Chairman Perkins of the Iowa delegation, advising that Perkins for the vice-presidential nomination, and if he is not available some strong man from New York or the Pacific coast.

## GOVERNMENT OWNERSHIP.

(Continued from page 1.)

the part of any one connected with the department." Witness said the Government were now advertising for tenders for diaphones and plant. He could not say why diaphones should be advertised for, in view of the fact that this firm held the patent. Any firm could supply the plant. Col. Anderson, he added, has told him he thought the price was high, and that a profit of 25 per cent. on patented apparatus should be enough.

Capt. Demers, chief examiner of masters and mates, was briefly examined with respect to the work of his branch. He stated that he knew of no act of dishonesty on the part of any official in the department. His own branch had been improved under his direction by having the examiners paid regular salaries instead of being paid by fees. He had found that some of the examiners were accepting gratuities, and they had been promptly dismissed.

Commander Spray, medical commissioner, was the next witness called. He said he had been an official of the department since 1892, and knew of no friction between the heads of the various branches.

Mr. Watson questioned him in considerable detail in connection with travelling expenses before the close of the session. There is great irritation in the Government ranks over the systematic obstruction practised by the Opposition this session, which has prevented the business being carried forward with reasonable expedition. There is a general sentiment favoring a change of the business of the House, to make it possible for the Government or Speaker to put an end to debates which have passed the bounds of business and discussion, and have become pure obstruction. Most of the Liberal members are ready to face their constituencies and defer such a change in the House.

They say they can make it clear to the electors that the Opposition had abused its privileges this election and made it itself absurd, and reflected that absurdity on the whole of Parliament. There was no announcement as to closure, and it is a step which will not be made without further consideration.

The revision of the Manitoba lists is now going on under the direction of the Roblin Government, and it is reported that while Mr. Roblin has yielded to the arguments of Mr. Borden and has allowed the revising Judges to adjourn from day to day and continue hearings, there are a great many complaints of unfairness in regard to nationalization, and the great distances which have to be traversed to reach the points of revision.

Blobs.—There is only one thing a woman loves better than to be told a secret. Blobs.—What is that? Blobs.—To find out for herself.

By a judgment of Mr. Justice Riddell the title given to the Cobalt Lake Mining Company is upheld.

Mr. Harry Collins withdrew from the contest for Supreme Chief Ranger of the Independent Order of Foresters. Bowmarville has been left a large legacy by the late James H. McGill, of Washington, a native of the town.

## OFF FOR CAMP.

Halton Regiment Had Sail Down on the furbina.

The 4th Field Battery and the Army Medical Corps left this morning for Niagara camp, where they will spend the next two weeks. The Army Medical Corps paraded in full strength this morning at headquarters at 8:30 and at 9:45 marched to the T. H. & B. station, where they were entrained for Niagara. Capt. Parry was in command in the absence of Col. Rennie, who has been attached to headquarters staff.

The Battery boys were on the job early this morning, but did not get away on the train until 10:45 via G. T. R. The Battery was up to full strength, and the men expect to have a glorious time. Col. Hendrie and Major Tidswell were among the officers of the Battery who went down. The Twentieth Halton Rifles paraded at Burlington and proceeded to the piers where they shipped on board the Turbina early this afternoon and left for camp.

The Corps of Guides struck the trail for Niagara camp at noon today and will arrive there in about a week in time for the big sham fight, which will be a feature of the programme. Last night the officers of the local brigade gathered around the camp at Freeman Place and a very pleasant time was spent. The guests included Major Caldwell, of Ottawa, and Major Vannstrand, of Toronto, senior officers of the Corps of Guides.

## AUTO RACE.

Netherlands, Asiatic Russia, June 16.—The American motor car in the New York to Paris automobile race passed through here at 9 o'clock this morning. The German car left at half past nine.

## ATE FOUR MEN.

Madrid, June 16.—Further reports have been received from the west coast of Africa concerning the sinking by a tornado on the upper Congo river of the steamboat Ville de Bruges, last May. Of the six Europeans who lost their lives, four were caught by cannibalistic natives while attempting to reach the shore by swimming, and later killed and devoured. A total of seventy negroes were drowned.

## BAD MAN SKIPPED.

Sarnia, Ont., June 16.—Niel Casey was sentenced Saturday afternoon to five years in Kingston penitentiary, for assaulting an 11-year-old child. After the sentence Casey was allowed to go into one of the jury rooms for a talk with relatives, and made his escape. The man has made Port Huron his home for several years, travelling about the surrounding country mending umbrellas. Search is being made for him.

## BIG MAJORITY.

Windsor, Ont., June 16.—Hon. J. O. Reame's majority over Arch. McNeen in the recent Provincial election in North Essex is spelled 1,280 by the official count made by G. J. Leggett, returning officer for the riding.

## BLUE'S BLUE LOOK OUT.

Detroit, Mich., June 16.—George Blue, giving his home as Toronto, Ont., is under arrest on a warrant charging him with larceny by conversion. The warrant was sworn out by a former sweetheart of Blue's. She alleges that he borrowed a ring from her and failed to return it.

## JEROME-RYMAL.

A very quiet event took place on Wednesday, June 10, when Edna, oldest daughter of Mr. Albert Rymal, Winona, was united in holy bonds of matrimony to Mr. Samuel Jerome, of Glanville, Rev. R. J. Treleven, of First Methodist, performed the ceremony, after which the young couple left on the 3:45 o'clock train on a honeymoon trip for points west. Mr. and Mrs. Jerome will reside at Glanville on their return.

## World's Deepest Bore Hole.

The deepest bore hole in existence, as are told by Prof. Louis, of London, is at Paruschovit, in Upper Silesia, and is 6,573 feet deep; it began with a diameter of 12.6 inches and finished at 2.7 inches. It is easy to imagine the difficulty of boring so small a hole to the depth of one and a quarter miles. The engineers could not get on without using Mannesmann weldless steel tubes for boring rods, which shows the dependence of mining upon the allied arts. The writer goes on to say that such tubes are now always made by means of the well known diamond drill, which brings up a core of the rocks passed through, and thus affords positive information respecting them. Unfortunately, the only kind of diamonds suitable for this purpose, the dark opaque stones, showing no distinct cleavage, known in the trade as "carbons," are scarce and proportionately dear, so that diamond drilling is now a costly operation. If we have, however, good grounds for saying that we are within measurable distance of securing such "carbons" at any rate "bores" produced artificially. For rocks of moderate hardness these diamonds have of late years been replaced to some extent by shot made of specially hard chilled iron, but these are of little use in the harder rocks. One of our greatest needs at the present moment is a metal that shall be strong, tough, and considerably harder than quartz; the production of such a material would conduce more to the technical advancement of several branches of mining than almost any other discovery that could be made.

The telephone service of Switzerland is operated by the Government.

## You have never tasted real Corn Flakes if you never ate

# KORN-KINKS

The food that is all food. Made of the choicest white corn. Steam cooked, malted, flaked and toasted.

Supplies the energy needed to begin the day's work. Crisp and delicious with milk or cream. Your grocer sells it. Ask him.

## The only Malted Corn Flakes.

## A SAD CASE.

Woman Attempts to Commit Suicide In London.

Also Gives Poison to Her Baby Which May Recover.

(Special Despatch to the Times.)

London, Ont., June 16.—Alleged to have been cruelly betrayed by a Thamesford man, who had promised to marry her, Miss Ada Baker, a young woman of about 20, this morning attempted to take her own life and that of her two-year-old baby boy by laudanum and gas at the C. P. R. Hotel here. When discovered by a passing hotel porter, who tried to arouse her for breakfast, the woman was almost dead, while the child was unconscious. Both were taken to St. Joseph's Hospital, where it was stated that the child would live, but that the woman would probably die. On a table in the room where the woman and child were discovered were several letters addressed to prominent London people, including Dr. McWilliams, a letter to the woman's parents, well-to-do people in Thamesford, and a letter signed by Hiram Yake, of Thamesford. The latter letter stated that the writer could not see his way clear to marry Miss Baker, and advised the girl to go back and live with her people. The letter to the parents contained directions as to the burial and the disposition of her effects. It has been learned that Miss Baker attempted suicide at the Iroquois Hotel here on June 9th, but failed, the matter is being kept secret.

## A New Empire.

(Chicago Sunday Tribune.)

The new world of the twentieth century is Canada's fertile northland on the Arctic slope. The Canadian prairie Provinces of Manitoba, Saskatchewan and Alberta have nearly reached the 100,000,000 bushel mark of annual wheat production, and there is also being produced nearly a million bushels of other grains annually. The tract of country from which this enormous yield of grain is being produced is practically confined to what has been known in past years as the fertile belt. The limit of production in this area is far from being reached. In the country north of this is a great day belt estimated to contain at least 10,000 square miles, where all the ordinary vegetables and harder grains can be grown. There are other sources of wealth here. About eleven years ago there was bored on the Athabasca, 170 miles north of Edmonton, a prospect hole looking for natural gas. The gas came in such force as to stop the operations, and this gas well, the largest known in the world, has been burning continuously ever since. Up and down the Athabasca, above and below this point, are remarkable deposits of tar (asphalts), which, if utilized, would furnish paving material in abundance. Moreover, there is indisputable evidence of enormous wealth in petroleum, which is oozing out as it has done through centuries has caused these strange deposits. In the vicinity of the tar sands, along the Athabasca, also are extensive deposits of salt, where it can be taken from the surface in great masses, pure white. Along the banks of the lower Mackenzie for many miles are great areas of burning coal. When the discoverer of this river, Sir Alexander Mackenzie, passed down about 1789 the same coal was burning, and it never has stopped since. The country is so large and so little known that no one could say what hidden sources of wealth there may be. In view of the development of Cobalt, which is not far from the Ottawa Valley, from an unmarked spot in the wilderness seven years ago to the greatest silver mining district in the world, it is difficult to predict the possibilities of the great unexplored country north of the Saskatchewan. Last winter in Ottawa the statement was made before a committee of the Senate that in the land north of Edmonton, extending down the Peace River as far as wheat production is possible, there are as great a country fit for settlement as great as that now settled west of Winnipeg.

## Worth Knowing.

Even when the oven is quite right and the pastry has been made moderately rich, a woman will feel dissatisfied at the appearance of a pie, because she misses the rich brown glaze that she has seen on pastry made by practical cooks. To obtain this glaze she needs a wrinkle. It is produced by egg wash. An egg is beaten up with a little sugar and a small quantity of milk is added. With this wash the pie is brushed over after the pastry has been finished.

One often hears complaints that the boiler rusts and iron molds the clothes. To prevent this, as soon as the boiler is emptied rub well over with soap. This helps to make suds for the next boiling.

To keep mice away from pantries and cupboards sprinkle cayenne pepper on the shelves. In boxes and wardrobes put lumps of camphor among the clothes, for mice dislike the smell of it. The camphor must be renewed every now and then, for it evaporates in the air.

For easy boot cleaning brush the boots free from dust, then with a bit of rag rub a little glycerine well into the leather. Let nearly dry, then rub with a soft brush. If rubbed after wearing with a velvet covered pad or duster they will retain their polish for days and the glycerine helps to keep the leather a good color and to make it soft and comfortable to wear.

Mr. David Boyle, curator of the Provincial Museum, Toronto, is dangerously ill.

There is a time in every young man's life when he either makes a fool of himself, or allows some girl to do it for him.

## STANLEY MILLS & CO., Limited

TUESDAY, JUNE 16th, 1908

## Everything for the Summer Traveller

A specially large stock of Travelling Goods for the vacation season.

If you want a Suit Case to carry in your hand during the summer tour, choose one of our Japanese Suit Cases. Built just like the leather ones, with strong frames, and leather corners; some with straps. Good strong locks on all of them. Ideal for a woman to carry. Light and stylish, too. Prices light, accordingly, \$4.00, \$4.25, \$4.50.

If you want a handy Satchel to carry when you come up from the Beach to do a day's shopping, or for a day's outing, choose one of our Japanese Woven Canvas Suit Cases or Club Bags. The cases are in suit case or satchel styles, with one or two handles; some with straps and leather corners. Prices \$5.00 to \$8.50. The Club Bags are very light in weight, and vary in size from the tiny lunch basket size to one large enough to carry all the things you require for a week-end trip. Priced accordingly, 20c to \$1.25.

If you want a Suit Case that will last a lifetime, choose leather, of course. Elegant styles here in rich brown leather, strengthened with leather corners; reliable brass plate locks and side catches; steel frame; lined with fancy cloth. Prices \$5.00, \$5.50, and \$5.75.

Brown Leather Club Bags, heavy Paris grain leather, round end style, japanned frames, brass plated trimmings. Prices \$1.25 to \$3.50.

Flat Top, Metal Covered Trunks, Marbled Iron \$2.25 to \$3.50

Canvas Covered, Iron Bound Waterproof Trunks. \$3.50 to \$4.50

Canvas Covered Trunks, brass trimmed, two straps and rollers. \$4.00 to \$6.00

Steamer Trunks with or without straps, waterproof canvas \$4.25 to \$9.00

## Summer Stockings On Sale at 25c Pair

To show the splendid resources of this store's Hosiery Section, we enumerate to-night the various lines bearing a 25c price ticket. These Stockings are in every way up to the Stanley Mills' standard in quality and finish, and are but an emphatic demonstration of this store's ability to sell the best Hosiery at the lowest prices ALWAYS.

Women's Plain Black Cotton Hose, fashioned throughout and shapely. Best Maco cotton, fast black 25c Pair and Hermsdorf dye. Very special at only 25c Pair

## In Fancy Cotton

Women's fancy Cotton Hose, lace pattern in boot length, all the leading shades, white, tan, sky, red, pink and black, at all one price. 25c pair

## In Polka Dots

Women's fancy Polka Dot Stockings, white with black spots, and black with white spots, stylish and pretty for summer wear, excellent value at only 25c pair
