The Short Line Route

FROM IRELAND TO NEWFOUNDLAND BY AIRSHIP.

A recent issue of the American Examiner has a story of a project to cross the ocean by airship which has some interest to Newfoundland and should show experiments ever result in working schemes, there can be no doubt that Newfoundland and Ireland will become the stepping stones of the Atlantic Ocean. The American Examiner states that Aviator Leps was in America and has selected a site to drop on in New York. He is working under the order of the German Government in having the airship built at Hamburg. He expects to make his experiment in April from Valentia, Ireland, to St. John's N. F., with eight men in the airship, and by next December, he says, there will be an airship carrying seventy passengers flying across the ocean at an average speed of fifty miles an hour.

"Zeppelin's airship has 300 horse power and Gross's airship has the same amount, but mine has 866 horse power," with eight motors," said he. "The airship will rest easily on the water when necessary, but I expect to make the trip across from Ireland to Newfoundland in April, 1600 miles without a stop."

The airship is an odd looking structure, somewhat like the famous Zeppelin model. It has two enormous long chambers which, in their turn, are filled with smaller balloons. The interior of these containing cylinders is equipped with rope ladders and passage ways that make speedy repairs possible. The small balloons have a capacity of 5,000 cubic feet. Eight motors provide the energy to carry the ship.

In describing his airship Mr. Leps said that it measured 7,800 cubic metres, and the basket where the aviators sat had fifty cubic feet of space for passengers. In his opinion the Atlantic steamships are doomed. What next?

P. F. COLLINS,

The Mail Order Man.

Residing at Krugersdorp

For years past Mr. William Lewis, pilot, of Wood Street, had lost track of his son, William, who located in South Africa and who went through the Boer War. Will is a carpenter and left here for the "Dark Continent" about 12 years ago. Having heard he was at Krugersdorp, His Excellency Governor Williams was appealed to, as he is well acquainted with this part of South Africa. His Excellency lent his services in the task of discovering the young man, and wrote to a friend there who located Mr. Lewis and told him of the anxiety of his friends at home about him. The outcome was that by last mail Mr. and Mrs. Lewis, their daughters, Mrs. J. Moore and Miss G. Lewis, had letters from the son and brother, from whom they had not heard for so long a time. He has had plenty of adventure since leaving home with many narrow escapes from death, but is now settled down, having a young couple of years ago married a young lady, a native of Surrey. He made a deal of money both before and after the war and in unfortunate speculation lost several thousand pounds. Since settling down in Krugersdorp he has secured the position of Inspector of Public Works, for which he receives the excellent salary of 40 pounds sterling per month. Mr. Lewis is in good health and next year with his wife intends coming here to visit his parents.

His Clothing on Fire.

Thos. Hudson, of Fouch Cove, with James Moulton, C. Moulton and C. Knight, went to Small Point Cove Friday night to await the dawn of Saturday to go bird shooting. While asleep near the camp fire Hudson's overcoat and overalls became ignited and he narrowly escaped serious injury. When the fire reached his legs it awoke him, and his friends, whom he aroused, quenched the burning garments with water brought from a stream. The clothing was rendered useless and his legs were seared by the fire.

WEATHER INLAND.—Along the line to-day the wind is S. W., strong, dull, snowing in places west of the Topsails. Temperature 27 to 30

Cleared up £12,000.

To-morrow, 49 years ago, the schr. Alder Davis, owned and commanded by the present Hon. Jas. McLoughlin, arrived here with a full cargo of seals. She left here on the 4th March and her crew made £15 per man. Michael Stratton, now watchman at the Poor Asylum, is the only survivor of her crew. Mr. McLoughlin cleared up, it is said, £12,000 on the venture. That spring Rogerson's had four vessels at the icefields. All were loaded, but instead of selling the fat it was sent to England and bonded. The prices of seals took a slump and the firm lost so heavily that it never properly recovered this financial setback.

At The R. C. Cathedral.

Yesterday being Palm Sunday Rev. Monsignor Roche officiated in Blessing of the Palms and the procession to the church door. His Grace the Archbishop being slightly indisposed was not present. Low Mass was celebrated by Rev. Father Fyde, who read the Gospel of the Passion according to St. Matthew. At Vespers Rev. Fr. Fyde preached an excellent sermon on the sacrifice on Calvary and the sacrifice of the Mass.

BROUGHT FROM SYDNEY.—It is said that the man William Bray, of Harbor Grace, who is down with small pox, contracted the disease at Sydney, from which place he arrived home a week or two ago.

AT THE DOCK.—The S. S. Dundee, S. S. Invermore and the whaler "Hawk" came off dock to-day thoroughly repaired, cleaned and painted. The Stella Maris will be docked to-day for a cleaning up and repairs.

The Alexandra Workers' Annual Tea and Entertainment takes place in the Methodist College Hall on Easter Monday, at 8.30 p.m. A dual programme for children and adults will be presented. Admission, including tea, 20 cents; children half price. Home made candies for sale.

LEGISLATURE CLOSES TO-MORROW.—The Legislature meets to-day to finish up business. To-morrow His Excellency the Governor will close the Second Session of the Twenty-Second General Assembly at three o'clock in the Legislative Council Chamber.

Many in the city believe that the Argentine will be the first arrival from the seal fishery this season. The Florizel reports her with 10,000 seals on board. If the seals are large, which is highly probable, she can at most take only 20,000, and her 100 men of a crew should load her up in say three days time. Another feature is that in clear water she is one of the smartest ships of the wooden fleet, and after once leaving the ice she would make the quickest run home of any of the wooden ships, especially if smooth water with a light N. W. prevails.

The Tariff Trouble Between Canada and America.

Special to Evening Telegram.

ALBANY, N. Y., March 20. President Taft and Mr. Fielding were in conference on the Tariff today for several hours. No conclusion was reached but the situation remains the same. Eleven days remains for friendly negotiations before the maximum rates of Payne Tariff Law is arbitrary as duly discriminatory against the United States. The law is arbitrary as to its application but the President is given judicial powers in reaching a conclusion as to what constitutes undue discrimination. Up to this time Canada has been regarded by the President's Tariff advisers as unduly discriminatory and unless concessions are granted by the Dominion Government to place the United States on an equal footing with France and thirteen other countries who have been given preferential rates under the Canadian Tariff it seems inevitable that Canada will be the one important country in the world, against which the twenty-five per cent of the maximum American rates will be applied. It was not expected that a definite conclusion would be reached at the conference between the President and Minister Fielding to-day. The fact, however, that President Taft, to-night summoned James MacDonald, of Toronto, to the Governor's mansion and thanked him for his part in helping to bring about to-day's meeting indicates that progress was made and that the outlook is not quite so dark as it appeared to be a few days ago. In his speech last night at which Earl Grey, Governor General of Canada and Mr. Fielding were present, Mr. Taft referred to the fact that he had invited Mr. Fielding to meet him to see if some means might not be devised to avert the creation of a tariff wall between the two countries. With three thousand miles of border between us he said we must study to prevent conflict of trade or otherwise, and we must be as good friends as possible for the mutual benefit of both. It is to our great advantage to be just to Canada, and it is to Canada's great advantage to be just to us. In view of the fact that so short a term remains for the adjustment of the Tariff differences with Canada, President Taft before leaving Washington consulted with his advisers as to whether or not after the maximum rates had automatically been applied, it would be within the power of the executive by proclamation subsequently to grant a reduction. Secretary of State Knox, without definitely committing himself said the United States Executive might warrant the President in reducing the maximum Tariff and he believed that the discretionary power vested in him by the law gave ample authority for such action.

When Hayward Pays the Men.

'Tis good when on the breezes borne
The scaler's horn we hear,
To watch the faces of the boys
And join them in a cheer
As outward bound the steamers go,
And from the highest crag
We watch, while in the offing dips
The barrel, smoke and flag.

'Tis good to hear it on the street,
'Twelve steamers in the fat!
And every one a likely load
Rail under, boys, at that."
'Tis good to hear the cheer that rings
From hillside, pier and ship,
When slowly up the harbour comes
The first full bumper trip.

'Tis good a berth to capture, when
You thought all chance was gone,
'Tis good to hold the winner
In the biggest sweepstake on,
'Tis good to know your captain is
The bravest "jowler" out,
'Tis good to hear the barrel-man
A-down the rigging shout—
'The seals are thick and plenty
To the windward, Nor-Nor'd East,
There's not another ship in sight—
An hour's sail at least
Will bring us slap amongst 'em, boys,
Make ready for the fray,
And Thirty Thousand harps shall fall
Before your bats to-day.

Small Pox at St. John's.

Michael, the little son of Sir E. P. Morris, has been ill since Saturday, and yesterday his physician, Dr. Fraser, diagnosed his ailment, as small pox of the usual light type now prevalent in different parts of the country. The residence of Sir Edward has been quarantined in the usual way. The patient is not very ill and we hope that he will have a speedy recovery. Dr. Brehm arrived from Harbor Grace by to-day's train. Speaking to the Telegram he said that a man named Wm. Bray, aged 21 years, is suffering from the disease in that town. It is not true as reported that Rev. Canon Noel has the disease, though his residence is quarantined. This is because a servant in the house and a relative of Bray's had visited the stricken man's house, and the clergyman's house was quarantined as a matter of precaution.

POLICE COURT NEWS.

To-day a vagrant was sent down for 10 days.

A drunk and disorderly, who broke five panes of glass in Mrs. McVey's shop Saturday night and one in Mr. H. Simms' store was fined \$2 or seven days, for the former offence, and \$10 or 30 days for each of the other offences, or on aggregate penalty of \$22 or 67 days.

HIGHLANDERS "AT HOME"—The Warrant and N. C. O.'s of the Newfoundland Highlanders are holding their second annual "At Home" in the British Hall, on Friday April 1st. The officers in charge of the arrangements are working overtime to make this their second "At Home" the success of the season. A jolly good time is in store for all those who will be fortunate enough to be present.

His Gun Burst.

While Robert Gillet was out "birding" with Abe Williams of Pouch Cove Saturday the gun he used burst at the breech and a piece of the stock struck him square between the eyes. He was knocked down in the boat and rendered unconscious for a time. The wound inflicted was painful, though not dangerous, and was dressed by Mrs. Diamond when the man arrived home. Gillet had five fingers of powder in the gun and the wonder is he escaped without greater injury.

AT ST. PATRICK'S.—Rev. Father McDermott preached at St. Patrick's Church last night at evening prayers. The subject was "The Passion and Death of our Lord." Father McDermott's sermon was one of the most impressive heard in the church for a long time.

The Sealing Liar.

The sealing liar has started to go in some of his best work, and to-day there were all kinds of rumors along Water Street. One report had it that a schooner had arrived at Channel reporting the Southern Cross loaded. Another rumor was that a message had been received in the city saying that two ships were coming out of the Gulf looking deep. Another report had it that the Diana, Erik, Neptune and Aurora had been reported by the Florizel looking very well fished. Needless to say there was no truth in any of these stories.
