

FACTS FOR FARMERS.

The Selection of Mares in Breeding Roadsters.

How a New Yorker Makes Tip-Top Butter.

Harvesting Corn—Strawberries—Tomato Culture—Half the Horse—Sew Mill—Carrots—Ducks for Profit.

[Correspondence from practical farmers, horsemen and others directly interested in dairying or agriculture in any of its branches is respectfully solicited for this department of the Advertiser. Subjects should be of general interest to the farming community. Write briefly, to the point, and on one side of the paper.]

Horse Breeding. In view of the great importance of the subject the ADVERTISER need offer no apology for continuing the discussion begun some time ago in these columns regarding the breeding of horses. The American Culti-vator, of Boston, which devotes special attention to this question, says thinking men are getting apprehensive that in the United States the business may be over-taken, because in every direction men are turning their attention

to the raising of horses of other breeds than the American Standard-bred. They are doing so for a variety of reasons. Some are doing so to supply the demand for a certain class of horses. Others are doing so to improve the breed. Still others are doing so to make a business of it. The latter class is the most numerous. They are the ones who are most likely to be over-taken by the foreign breeders.

A number of the men who are doing so are of the opinion that the American Standard-bred is not good enough for the purpose. They are of the opinion that the foreign breeds are better. They are of the opinion that the American Standard-bred is not good enough for the purpose. They are of the opinion that the foreign breeds are better. They are of the opinion that the American Standard-bred is not good enough for the purpose. They are of the opinion that the foreign breeds are better.

A pleasant event on other day was the marriage of Miss Minnie McManis to Mr. Wm. T. Thompson. The young couple were united in matrimony at the residence of the bride's father, Mr. J. H. Thompson. The ceremony was performed by Rev. Canon Smith, of the Methodist Church. The bride was accompanied by her father and mother. The groom was accompanied by his father and mother. The wedding was a very quiet affair.

A grand picnic was held on Thursday of last week on the grounds of the St. Thomas Hotel. The picnic was attended by a large number of people. The day was very pleasant. The food was excellent. The entertainment was very enjoyable. The picnic was a great success.

On Thursday of last week a young man named John McKenzie, of the city of St. Thomas, was charged by Richard T. Galt with the murder of a woman named Mrs. M. J. McKenzie. The charge was based on the fact that McKenzie was found with the body of the woman in a room at the St. Thomas Hotel. McKenzie denied the charge. He claimed that he had never seen the woman.

A grand picnic was held on Thursday of last week on the grounds of the St. Thomas Hotel. The picnic was attended by a large number of people. The day was very pleasant. The food was excellent. The entertainment was very enjoyable. The picnic was a great success.

A Peculiar Death. Mr. Wm. Tait, farmer, 8th concession of Beverly, met with a very slight accident by which a portion of the skin on one of his legs was rubbed off. The injury was not serious, but the wound did not even bleed. A few days afterwards, however, he complained of his leg becoming sore, and on Tuesday night he became very ill and delirious, and never regained consciousness, death resulting from erysipelas.

A Villainous Assault. On Saturday night Miss Annie McPhail, 18 years of age, who works in St. Thomas, was walking out on her track to the residence of her step-father, the M. C. B. residence, when she was assaulted by a man named Frank Dorr. The man was dressed in a dark suit and a hat. He was armed with a revolver. He fired a shot at Miss McPhail, which wounded her in the leg. She was taken to the hospital, where she is now recovering.

On the night of June 25 some second-hand furniture was found in a barn at Paris, owned by a man named Mr. J. H. Shaw, of St. Thomas. The furniture was found in a room which had been locked for some time. The furniture included a bed, a table, and a chair. The furniture was in good condition. It was found in a room which had been locked for some time.

THE WESTERN ADVERTISER, FRIDAY, JULY 25

AMONG THE MARKETS.

Fluctuations in Merchandise and Commercial Circles.

British Live Stock Trade. Epsom, June 23.—John Swan & Sons' weekly report says: The number of fat cattle on offer this week has been rather under an average. With a large attendance of buyers, trade has been satisfactory and prices rather higher than last week. Trade for sheep and lambs has been decidedly worse. Sheep falling 1s to 2s and lambs 2s to 4s in price. The exceedingly hot weather accounts in a great measure for this. Fat calves have been a good show and nearly the same prices realized, while pigs have met a rather better trade. About 1,000 Canadian cattle were shown in Glasgow, a large proportion of which have been taken for short keep at full prices. About 800 States cattle have been sold at Yorkhill, which also met a good trade at advanced prices. Owing to the exceedingly dry weather, trade for store cattle has been decidedly quieter, and to effect sales, lower prices had to be taken, a part being left unsold. Store sheep are still in demand at full prices. There was a good show of milk cows, which met an active demand, and prices recovered last week's figures. Top beef, 8s 3d, to 7s 6d; inferior, 7s 6d per stone. Best mutton, 9d to 9 1/2d; secondary, 8d to 8 1/2d; inferior, 6d to 7d per pound. Lambs 9d to 10 1/2d per pound.

British Grain Trade. Liverpool, July 3.—The quotations for the past three markets are as follows:

Table with columns for date (June 23, July 2, July 3) and various grain types (Wheat, Barley, Oats, etc.) with their respective prices.

Provisions. The market for provisions is generally quiet. There is a steady demand for various types of meat and poultry. Prices are stable, with some fluctuations due to local supply and demand.

Wool. The wool market is active, with a steady demand for various types of wool. Prices are generally higher than last week, reflecting the quality of the wool and the current market conditions.

Oil. The oil market is quiet, with prices remaining stable. There is no significant change in the market for various types of oil.

Flour. The flour market is active, with a steady demand for various types of flour. Prices are stable, with some fluctuations due to local supply and demand.

Beans. The bean market is quiet, with prices remaining stable. There is no significant change in the market for various types of beans.

Peas. The pea market is quiet, with prices remaining stable. There is no significant change in the market for various types of peas.

Other Grains. The market for other grains, including corn and barley, is generally quiet. Prices are stable, with some fluctuations due to local supply and demand.
