people who understand these things were sent there. The sultan himself received them. "I have heard and read that there are machines you put into the houses by means of which you can talk to people at great distances without seeing them," he said to his secretary. The sultan, of course, meant telephones, which he never had seen in his life and which were generally forbidden in Constantinople under the old regime. So several telephones are being set up in the palace. Besides those in connection with the town, one will enable the sultan to communicate with his harem with-

apartments. Hitherto the palace has ussian deputies to England, a party lighted by oil lamps and candles. His ouma coming here in 1906, when electric light and goes into the variraced members with revolutionary about the way the installation is done.

The executive further recommends that the complete international report be presented to the various governments, accompanied by a letter from the International Council of Wofrom the International Council of Women, drawing attention to the need for PROVES NERVILINE CURES the betterment of many of these laws, and the desirability of women taking part in the deliberations on such laws.

WESTERN INDIANS ARE ON INCREASE

Prince Albert, Sask., June 21. - At the synod of the Diocese of Saskatchewan, Ven. Archdeacon McKay, in charge of the Indian work in the diocese, said he wished to correct the impression that the Indians were dying out. In reality they were increasing. He quoted Government statistics for the past ten years, showing an increase of left side. I became almost a cripple, and

The only decrease in evidence was among the prairie bands that had to change from the open air, in good leather tents and from fresh buffalo meat. to cheap cotton tents on a reserve, where insufficient rations were doled out to them. In due time the Indians would disappear, he said, but they would disappear as did the Saxons, Danes and Normans in England. Onethird of the Indians in the west belonged to the Anglican Church, due to the fact that the church opened its first misison on the prairies as early

Professor Dolbeare, of Tufts Colege has found that at 60 degrees Fahenhelt the rate of the chirp of crickets is 80 a minute; at 70 degrees Fahrenheit the rate is 120 a minute, a change of four chirps a minute for each change of one degree.
