Extinguishes Hamilton's Chief of Po-lice—The Kennel Club's Approaching Exhibition—Other Sporting Notes,

At Ayr yesterday a curling match took place between Paris and Ayr, three rinks a side, resulting in favor of Ayr by two wife

shots. Two rinks of the Priceville enriters played two rinks of the Mount Forest curlers at Mount Forest yesterday. Priceville rink, No. 1-G. Tuck, J. Brown, J. Aussell, C. D. McMillan, skip, 10. Mount Forest, No. 1-M. McNiven, J. McKnight, J. Sheppard, G. McCulloch, skip, 30. Price-ville rink, No. 2-T. McConkey, J. Mo-Leod, J. McArthur, F. Wait, skip, 13. Mount Forest, rink No. 2-A. Hamilton, W. Currie, A. Bissell, F. McCulloch, skip, 31. Majority for Mount Forest 38. Fred Plaisted is reported as saving that

31. Majority for Mount Forest 38, Fred Plaisted is reported as saying that if his partner in business, Wallace Ross, fails to romp in ahead of Bubear in their race on March 19, he, Plaisted, will emi-grate to England and show "the blarsted Britishers" what a champion can do. That there are any number of good gas-blowers in England we doubt not, but we will back the windy Yankee to outblow the best of them. Our English cousins must not mind Freddy's utterances. On this side of the Atlantic they go for naught. If the world believed all Plaisted said—but it don't, and that's what galls Freddy.

The beautiful little town of Waterloo, N.Y., was thrown into a state of commo-tion last week by the arrest of Dr. J. W. Day, proprietor of Patchen stock farm, for fast driving while behind Frank Patchen, record 2.30, by Seneca Patchen. The doctor did not tamely submit to this bit of old foggism; h is blood was up and he re-solved to make a test case. He waived an examination, pleaded not guilty and de-manded a trial. The jury was out seven minutes and their verdict of "not guilty" was received with tumultuous applause, the doctor having to submit to congratula-tions and hand-shaking that would have appalled even a man like Gen. Grant. appalled even a man like Gen. Grant. The United States national amateur la

osse association has decided to send a representative American lacrosse team to contend with those of Great Britain and Ireland. Twenty-seven when contend with those of Great Britain and Ireland. Twenty-seven players are at present in training, and before they sail, about May 1, they will play several matches in New York, Boston and Phila-delphia. The team will include represen-tatives from the college lacrosse clubs of Harvard, Yale and Princeton, besides players of the New York, Boston, Batti-more, Louisville and Chicago lacrosse clubs. Concerning the tour of the team the English Pastime of Jan. 30 has this to say: The proposed visit of an American (U. S.) team during the coming summer has naturally not received any assistance from the tours of the Australian and Phila-delphian cricketing teams. For instance, Lord's is so occupied that no date can be given; and with no match at Lord's the visit to London will be shorn of its glory. The Americans are unlucky, as they were prevented from coming last year by reason of the visit of the Canadians.

Catarrh is a muco-purulent discharge caused by the presence and development of the vege-table parasite amoeba in the internal lining embrane of the nose. This parasite is only developed under favorable circumstances, and hese are: Morbid state of the blood, as the blighted corpuscle of tubercle, the germ poison of syphilis, mercury, toxœma, from the retention of the effeted matter of the skin, suppressed perspiration, badly ventilated sleeping rtments, and other poisons that are germinated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces, or back of the throat, causing ulceration of the throat; up the Eustachian tubes, causing deafness; burrowing in the vocal cords, causing hoarseness; usurping the proper structure of the bronchial tubes, ending in pulmonary consumption and death. Many attempts have been made to discover a cure for this distressing disease by the use

of inhalents and other ingenious devices, but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucus tissue. Some time since a well-known physician of forty years' standing, after much experimenting, succeeded in discovering the necessary combination of ingredients which never fails in absolutely and permanently eradicating

this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease should, without delay, communicate with the business managers, Messrs. A. H. DIXON & SON.

What the Rev. E. B. Stevenson, B. A., a Clergyman of the London Conference of the Methodist Church of Canada, has to say in regard to A. H. Dixon & Son's New Treatment for Catarrh.

## MESSRS. A. H. DIXON & SON: Dear Sirs,—Yours of the 13th inst. to hald. It seems almost too good to be true that I am cured of Catarrh, but I know that I am. I have had no return of the disease and never felt better in my life. I have tried so many things for catarrh, suffered so much and for so many years, that it is hard for me to realize that I am really better. I may again and a set and a set and a set and showing implying the three the test and Description the mine was a set bad case. I consider that n am really better. I consider that mine was a very bad case. It was aggravated and chronic, involving the throat as well as the nasal passages, and I thought I would require the three treatments, but feel fully cured by the two sent me, and I am thankful that I was ever induced to send to you. You are at liberty to use this letter, stating that I have been cured at two treatments, and I shall gladly recommend your remedy to some of my friends who are sufferers. Yours with many thanks

#### The Dominion Kennel Club's Toronto Show,

At the regular meeting at the Queen's hotel, held yesterday, with Mr. R. Cassels in the chair, the premium list, as printed in yesterday's World, was finally adopted, and the horticultural society's acceptance of the rental of their pavilion passed. A gratifying list of special prizes was sub-mitted, indicating the interest and en-thusiasm displayed by our leading citizens. Neither pains nor money will be spared to make this equally attractive with the fashionable shows on the other side of the berder; and to judge from the reports of promised exhibits and attendance from the ladies of Toronto the energy and pains of the committee will meet with the heartiest support. The selection of good officers is half the battle; and the canine world are fortunate in having so active and capable a list of men on their committee, while the fortunate in having so active and capable a list of men on their committee, while the mames of the judges and superintendent will prove a guarantee to exhibitors that they will meet with every fairness and the most careful supervision. The signatures to the guarantee fund are steadily increasing, and twenty additional names have been subscribed during the past week. Special terms as heretofore are to be made with the various railways, both in Canada and the States. The raised stage in the gardens pavilion is to be de-voted to rings for judging the various classes, thus affording a capital sight to the spectators in the gallery seats. It is expected the chief horticulturists and flowers in pots around the stage and be-tween the benches, and that the leading gunsmiths and importers of sporting tackle will place cases of their goods in conspicuous positions. The attractions offered should make the show second to conspicuous positions. The attractions can heartily offered should make the show second to from corns.
