"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."

With the sailing from Montreal yesterday of the steamer Lake Nepigon with about 800 head of cattle, 60 of which were loaded by a Toronto

all of which goes to show that this will not be a very favorable year for shippers.

The decline of le to 1½c all round in the British markets recorded yesterday was due largely to the enormous receipts of American cattle. The prospects are against a speedy removal of the depressing infinence, so that with the arrival of the large shipments to go forward from Montreal to fill space already engaged the effect on the market promises to be the reverse of favorable. Taken all in all, therefore, the opening of the season is decidedly unfavorable. Quotations in Britain now stand: Prime beeves 11½c, good to choice 11c, poor to medium 10c, and inferior and bulls 8½c to 10c.
