The first butterfly of the season made its appearance in the suburbs of the Sentinel, only this week. The April snowstorm proved too much for its delicate constitution, however, and it meekly folded its yellow wings and met its fate.

THE FUNERAL OF ROBBIE YOUNG.
The funeral of Robbie Hastings Young was held from his father's residence on Wednesday afternoon and was largely attended, in fact the house would not contain all the people assembled, many of whom remained outside during the service. The funeral was conducted by Rev. A. S. Lewis, who spoke impressively though briefly from the words of the text, "Let not your heart be troubled." Rev. A. J. McDonald read a portion of the scriptures. Rev. Dr. Jost followed with prayer, and Rev. G. Johnson gave a brief address dwelling upon the estimable qualities and sterling character of the young lad. The music by the choir of the Baptist church was of a high order, and consisted of a duet with chorus, "My Father Knows," a male quartette, "Nearer My God to Thee" and the singing of Robbie's favorite hymn, "The Sweet Bye and Bye." Flowers in profusion covered the casket. A beautiful wreath of carnations and lilies of the valley was contributed by his classmates of the eleventh grade. From the 8th 9th and 10th grades there was a large bunch of exquisite cream roses, and many other beautiful tributes were received from his companions and other friends of the family.
The undertakers were Lemmie Rugles, Frank Johnson, Arthur Dodge and Louis Young. The high-school pupils walked in procession to the grave as did a large number of citizens.

We understand that Mr. Miller will appeal to the Supreme Court of Canada.

THIRTY TENEMENT DWELLERS.
Congressman Jacob Ruppert of New York represents one of the most congested districts in the metropolis. Thinking the people who live in tenements might want to plant seeds in boxes in the window sills and fire escapes, he sent an assortment of his quota of garden seeds to the inhabitants of a model tenement just built by a friend of his.
Later he received a letter reading:—
My dear Ruppert—Please send no more seeds to the people who live in my model tenement.
I went there today, and I find they are all raising cabbages, cucumbers and tomatoes in the bathtub.

It is not wise to take any notice of fault-finders, who are found in every community. According to them nobody does right. The trouble is in themselves. They live in an under-spirit of gloom and doom, and as a result, come to think there is no such thing as sunshine, hope, goodness or prosperity. It is an awful state of mind. Get to work, stop your fault-finding, stop your grumbling, read whole some literature and be a benefit, instead of a hindrance to the community.

Indigestion
Stomach trouble is both a symptom of, and not a cure for, indigestion. We think of dyspepsia, flatulence, and indigestion as if they were symptoms only of a certain specific disease. It was this fact that first correctly led Dr. Shoop to the discovery of his Restorative. Going direct to the stomach nerves, above the stomach, and favoring Dr. Shoop and his Restorative. With out that original and simple principle, no such lasting accomplishments were ever to be had. For stomach distress, bloating, biliousness, bad breath and yellow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and distribute everywhere.

The bride was the recipient of many very appropriate presents. On the eve of Miss Hamm's departure from the academy, the school board presented her with a flattering address. A WRINKLE FOR CAKE-MAKERS.
If you are your own cake baker—surely you are—you perhaps have noted the difference there is in flour. There are two principal constituents in flour—starch and gluten. All wheats contain both, but in varying quantities. Ontario flour is rich in starch, while Manitoba spring wheat contains a large per cent of gluten. The combining the two kinds of wheat scientifically a flour is made that gives slightly better results for cakes, pastry or bread.
Millers are now blending these two kinds of wheat in such a way that the rich delicacy of the first is combined with the strength of the second—making an ideal flour.
Expert cooks have given Blended Flour exhaustive tests, and they are in the opinion that no other flour can make such white, light, wholesome cake, pastry and bread.
Housekeepers will find Blended Flour without equal, both for making biscuits and for making cakes. They will find Blended Flour on all commercial, too.

A Sad Story of Consumption in a Canadian Town
The Local Hospital Unable to Care for the Patient, and the query is What to Do?
In a little booklet issued by the National Sanitarium Association, whose auspices has been established the Muskoka Free Hospital for Consumptives, we have the story told of a sad case of consumption.
A young woman, apparently friendless, came in on a train reaching Fort William, and immediately procured work as a domestic. A doctor was called in to examine her case, as she appeared to be a consumptive, and she was at once pronounced a bad case of tuberculosis.
She was placed in the small local hospital of the town, and everything possible for the moment is being done to help the patient.
But writing to the Secretary of the National Sanitarium Association, the Secretary of the Board of Health asks: "Is it possible to make room for this patient in the Muskoka Free Hospital for Consumptives? The local hospital is crowded for room, and there is really no place for this poor girl."
Consulting the Fort William official adds "I may say that as far as being able to pay is concerned, as far as we can learn, has no friends who can afford to pay for her in an institution."
It is to meet just such cases as these that the Muskoka Free Hospital for Consumptives has been opened.
The official reports of the past year show that more than half the patients who entered the institution were absolutely free—their maintenance not costing them a single farthing. The others only paid a nominal sum ranging from \$1.50 to \$6.00 a week, only a few paying the larger amount. The average of such patients was less than 50 cents a day. The actual cost of maintenance to the institution is over \$8.00 a week so that our readers can readily see how strong a case is made out by the Trustees in their appeal to make provision for just such a patient as that from Fort William—only one of scores who are constantly seeking admission.
Contributions on behalf of this work may be sent to: Sir Wm. R. Meredith, Kt., Vice-President, Osprey Hall, W. J. Gage, Esq., 81 Spadina Avenue, J. S. Robertson, Secretary-Treasurer, National Sanitarium Association, 347 King Street W., Toronto, Ont. No. 4
