

Wartman's Excelsior Fruit Grader.

Fruit Growers who want to get their fruit in marketable shape for home or foreign markets, would do well to get one of the latest inventions for sizing **Apples, Pears** or **Peaches**. This invention will put fruit of all kinds in a shape that will stand inspection, and meet the demands of the trade.

They are cheap, durable and practicable and will pay for themselves in one days' use. As I have

no agents I offer them to the public less agents' fees of \$3.00 and \$5.00 each, 100 bbl. per day capacity, \$20.00 for \$15.00, and 50 bbl. per day, \$12.00 for \$9.00. This includes rubber stamps and ink pads, F.O.B. Orders solicited by

E. H. WARTMAN, MANUFACTURER and INVENTOR,

KINGSTON, ONTARIO.
