

### To Nursing Mothers!

A leading Ottawa Doctor writes: "During Lactation, when the strength of the mother is deficient, or the secretion of milk scanty, WYETH'S MALT EXTRACT gives most gratifying results." It also improves the quality of the milk.

It is largely prescribed To Assist Digestion, To Improve the Appetite, To Act as a Food for Consumptives, In Nervous Exhaustion, and as a Valuable Tonic.

PRICE, 40 CENTS PER BOTTLE.

THE EXTERNAL REMEDY FOR Rheumatism, Sciatica and Nervous Diseases.

Mention this Paper.

Agents wanted in all small towns. It will pay energetic business men to write FOR TERMS.

REV. ALEX. GILRAY, College Street Presbyterian Church, writes: Dear Sirs,—

It is with much satisfaction that I learn that you have decided to establish a branch office in Toronto, believing as I do, that the more widely your Acetic Acid remedy is made known, the greater will be the gratitude accorded to you for the relief experienced by many sufferers in Canada. We have used your Acid for over eighteen years, and are now prepared to state that it is worthy of a place in every family. We have found it thoroughly safe and effective and have commended it to many,—for which we have been thanked. We wish you success in your new quarters, as we feel sure your success will bring relief here as it has already done to large numbers in the old land and other countries. Much will depend on the patient and persevering use of the Acid as set forth in your little book.

ALEX. GILRAY, 91 Bellevue Avenue, Toronto, 28th Nov., 1893.

The Canada Presbyterian

Till End of Year For One Dollar.

### MISCELLANEOUS.

A scientist states that bees do not begin to gather honey until they are sixteen days old.

Asthma may be relieved by burning a small piece of blotting paper which has been immersed in a strong solution of saltpetre and then dried.

The physicians of the United States now number 118,458; New York leads with 11,171; Pennsylvania has 9,310, and Illinois ranks third with 8,002.

In the United States 276,360 telephones are in use. The largest switch-board in the world is that at the Cortlandt Street Exchange in New York. It has a capacity for 6,000 subscribers is 263 feet long, and is divided into 40 sections. There are 260,000 holes or "jacks" and 780,000 soldered joints.

Ophthalmia, according to an English authority, is especially prevalent in schools in that country. It now appears that the disease is definitely contagious, and there is little doubt that it has been propagated in many instances by means of the school towels. The British Medical Journal therefore advises parents to forbid their children to wash at school.

A new explosive cartridge, invented by Dr. Ocho, formerly with the Messrs. Krupp, is a sealed glass tube or ball containing acidulated water into which two platinum wires are led. For use a current of electricity is sent through the wires, decomposing the water into hydrogen and oxygen. Upon the ignition of the mixed gases an explosive force of 5,800 atmospheres per square inch is developed.

It is said that a German officer has invented a motor in which a fine stream of coal-dust is utilized to drive a piston by explosions in the same manner as the gas in the gas-engine. The Krupps are now making the engine in their works at Essen. It has long been known that finely pulverized coal in suspension in the air is highly explosive, and it has been held responsible for some of the most frightful colliery disasters, but this is the first attempt to utilize it in this way.

"My Optician," of 159 Yonge St., is an old established firm in Toronto, having made optics a specialty, examines eyes correctly, charging only for spectacles.

It is a commonly observed fact that the enslavement of women is invariably associated with a low type of social life, and that, conversely, her elevation towards an equality with man uniformly accompanies progress.—Herbert Spencer.

Place a guard on your lips, but in a penholder place one of Esterbrook's smooth writing pens.

The Colonies and India says: One hears so much of the severe climate of Canada, based, it must be admitted, frequently on erroneous information, that is rather surprising to learn that Canada grows 9 lbs. of grapes for every man, woman, and child in the country! The wine industry is also increasing in importance, and some trial shipments have already been made.

An English Chemist writes: "Brown's BRONCHIAL TROCHES are most useful, and I never know an article so universally well spoken of and gain such rapid notoriety before." Those who are suffering from Coughs, Colds, Hoarseness, Sore Throat, etc., should try them. Price 25 cts. a box.

The Rev. G. Henslow, of the Linnean Society, London, has attempted to show the existence of a power in living vegetable protoplasm of responding to purely mechanical external forces by enveloping supportive tissues, by means of which the plant is enabled to resist the effect of gravity, tension, pressure, etc. He thinks that the peculiar structure of climbers are all the outcome of a response to external mechanical forces acting directly upon the stems, without the aid of natural selection.

MR. JOHN HENDERSON, 335 Bathurst street, Toronto, was cured many years ago of a complication of diseases at the Saltcoats Sanitarium, Ayrshire, Scotland, where our remedy is largely used. At home his people were never without it.

Mr. Edison has perfected his kinetoscope for the photography of objects in motion, and has exhibited it at a small party. The main principle of the invention consists in taking a great number of impressions by means of a camera in a very limited space of time, thus obtaining a continuous photograph of the entire motion of the object or person selected. The photographs follow each other in such rapid succession that no lapse of time can be detected between the impressions recorded, and the series of pictures becomes, in effect, but one picture. The subject chosen for the first photograph by the new process was the well-known strong man, Sandow.

It is not what its proprietors say, but what Hood's Sarsaparilla does, that tells the story of its merit. Hood's Sarsaparilla Cures.

Minard's Liniment relieves Neuralgia.

### A Bright Lad,

Ten years of age, but who declines to give his name to the public, makes this authorized, confidential statement to us:

"When I was one year old, my mamma died of consumption. The doctor said that I, too, would soon die, and all our neighbors thought that even if I did not die, I would never be able to walk, because I was so weak and puny. A gathering formed and broke under my arm. I hurt my finger and it gathered and threw out pieces of bone. If I hurt myself so as to break the skin, it was sure to become a running sore. I had to take lots of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. It has made me well and strong."—T. D. M., Norcutt, Kans.

AYER'S Sarsaparilla Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Cures others, will cure you

### DEAFNESS

and Head Noises overcome by WILSON'S COMMON SENSE EAR DRUMS.

The greatest invention of the age. Simple, comfortable, safe and invisible. No wire or string attachment. Write for circulars (SENT FREE) to C. B. MILLER, Room 39 Freehold Loan Building, Toronto.

**PISO'S CURE FOR CONSUMPTION**

CURES WHERE ALL ELSE FAILS. Best Cough Syrup. Tastes Good. Use in time. Sold by druggists.

The essential difference between a good and a bad education is this, that the former draws on the child to learn by making it sweet to him; the latter drives the child to learn by making it sour for him if he does not.—Charles Buxton.

JAMES E. LESLIE, Richmond street, Toronto, writes:—"It affords me great pleasure to attest to the benefit I derived from your Guaranteed Acetic Acid in a case of Pleurisy. It was decidedly effectual; nothing more need be said. I have also recommended the Acid Cure system of treatment to many of my friends, and in no case has it failed. You are at liberty to give this certificate publication."

A new composition for hardening steel named "Duro" has been tried for two years or so in German manufactories, and is said to have given satisfaction to such firms as Krupp, Mannesmanns, and others. Drills hardened by it cut through the hardest steel without the aid of any lubricant, and last much longer than usual. The drill or other object is brought to only a dark-red heat, then dipped in "Duro" for ten to twenty seconds, then heated slowly until cherry-red, and cooled directly in tepid water.

### THREE WANTS.

"Reason's whole pleasure, all the joys of sense, Live in three words, health, peace, and competence."

So says the poet. Competence counts for little when one is sick, and peace is disturbed when health is upset, so that the poet rightly places health first. To have good health you must have pure blood. From the blood the system receives all its material of growth and repair. The best blood-purifier is Dr. Pierce's Golden Medical Discovery, which is world-famed and sold everywhere. It is a sovereign remedy for all diseases due to impoverished or impure blood, as consumption, bronchitis, weak lungs, scrofula, old sores, skin diseases, and kindred ailments.

Delicate diseases of either sex, however induced, promptly, thoroughly and permanently cured. Send 10 cents in stamps for large illustrated treatise, sent securely sealed in plain envelope. Address, World's Dispensary Medical Association, 663 Main Street, Buffalo, N. Y.

A good conscience fears no witnesses, but a guilty conscience is solicitous even in solitude. If we do nothing but what is honest, let all the world know it; but, if otherwise, what does it signify to have nobody else know it, so long as I know it myself? Misérable is he who slight that witness.—Seneca.
