PUNDITA RAMABAI.

The school established by Pundita Ramabai at Poona, India, for Hindu widows, and supported by friends both in England, United States and Canada, is fulfilling its promise. Latest accounts give the number of girls at 56; 38 of these are widows. Mrs. Andrews one of the Central Committee at Boston returned from a visit last September to the school, where she had remained six months, well satisfied that Ramabai was faithfully carrying on the work. The majority of the girls are very intelligent, studious, and ambitious. Two young widows who have been studying in the school since 1889 have now nearly completed their course, and have become pupil teachers. India is in great need of native female teachers and nurses. In this Ramabai sees an opening for her girls when they go out from the Sharada Sadana, and she is preparing them to fill worthily these positions. Of the interest felt in the school outside, Mrs. Andrews writes: "Many gentlemen from other cities, gentlemen interested in education, have been to see the workings of the kindergarten system. Scarcely a day passes without several visitors to the school." We are looking forward for further news of the school at the annual meeting of the Ramabai Association which will be held in Boston next month.

NAPANER.—The annual congregational meeting of the church here was held lately. The business of the evening was transacted with more than usual spirit and enthusiasm. Reports of the various departments of church work and associated societies were read and generally proved to be more than usually interesting and encouraging. Steady growth and development all along the line seem to have been the characteristic feature of the year reported. The feature of the evening was the presentation to the meeting of the redeemed bonds of the congregation's long-standing liabilities on the church property. Many hearts were gladdened by the fact that the church was, for the first time since it was built—31 years ago—free from debt.

A CURE FOR DEAFNESS.

Those afflicted with deafness, the result of catarrh, will be gratified to learn that many marvelous cures of this affliction are being effected by the use of a new scientific invention which medicates with perfect safety the cavities of the external ear. Persons who have been deaf for many years are reported to have had their hearing restored within a few minutes and the cures are permanent. The treatment is being introduced by Dr. J. H. Moore, a competent and reliable physician of Cincinnati, O., who is for a short time sending medicines for three months treatment free to a limited number, in order to establish the wonderful power of the treatment.
