THE RAILWAY .- It is said the Board bave had to THE RAILWAY.—It is said the Board bave had to employ Jackson's riebrics. It is true, a party of these provious came over from N. B. about a fortulable agreement tools a job to lay the Road from Day 1 to the Nine Mile House. They returned back and have now arrived with their plant, and are engaged to finish their job early in May. They commence to-day, and a set of well looking fellows they are, and the Board we think show their wisdom, in a engaging them on our works. Every them. encouraging thom on our works. Every thing, we understand, is progressing with satisfactority. A track almost an air liminas now been discovered to Wind-or—bes 41 miles! in length, and the whole distance, from the Basin to Windsor it is supposed, will be ready for contract by July. This will be gratifying information to thousands and thousands of our people. A thousand and the standard over the standard of the standard of the standard over the their way from England, and two thousand more are purchased at 16 10s. per ton! chairs, spikes, 80. at corresponding low rates—Chronicle.

Barrish Recadition is New York.—The De-ten Evening Traveller, of 22nd inst, states that the New York Staats Zeitung of the day previous, says that the British theyapment, finding it impressible that the British Government, finding it impossible to raise recruits in Germany, has established agencies at Halifax, N.S. and St. John N.B. for recruits ing toreign troops, and a number of other subordinate agencies in the various cities of the United States.
There is one, it says, in Chatham Street. New York,
designed especially for the recrulting of Germans.

"If any one has a mind to serve as a private seddier he gets thirty dollars in hand, from which, how-

uter no gots three or five dollars are deducted for the passage to Hallfax, and half a dollar for cortain commissions. Add to this other expenses, and some twenty dollars will still remain. As far as we can learn this gratuity is paid at the depot in Halifax or St. John, N. B.

"The recruit receives his victuals, clothing and equipments, besides eight dollars per month. binds himself to serve three or five years as a British Soldier —If he has been an officer or a sub-officer

in any other service, he is promised a place of the same grade in the British Army."

The Zeitung thinks that all things considered, there terms are not particularly favorable, and that England will find oven harder work to procure German materials in the Heiter States they checked in man recruits in the United States than she did in Germany.

Holloway's Ointment and Pills the best Remedies for the Care of Fertale Complaints—The extraordinary effect these Pills have upon all complaints peculiarly incidental to fsmales, would appear incredible, if it were not confirmed delly by the wonderful cures they effect in Canada. It is an unquestionable fact, that there is not any remedy to equal them throughout the World, for exterminating suffering from the softer sex, than these admirable Pills, therefore all requested to give them a trial, which will insure their recommendation.

Married.

At Rossway Church, by the Rev. J. H. Clerc. 20th Herch. Mr. John Weslert, of Weymouth, to Miss Eleka Jane Hatfield, of Dirdy Neck.
