## New Glasgow, N. S.

WESTERN OFFICE AND WAREHOUSE, LETHBRIDGE, ALBERTA.

S. A. WILLIAMS, AGENT.

VANCOUVER, B. C.

R. P. WILLIAMS, 43 ALEXANDER ST.

Illustration shows a Jeffrey Overlapping or Pan Type of Conveyor used as a picking table. This style of conveyor is being adopted by many of the leading Coal Companies in order to eliminate the breakage of the coal.

**Increase the MARKET value of your Coal by avoiding excessive Breakage in Handling.**

Jeffrey Coal Cleaning Equipments are designed and built to handle coal with the least possible breakage, and at minimum expense.

Built in styles and sizes to suit existing conditions and to meet every requirement in service and capacities. These conveyors are sometimes provided with adjustable loading booms, which allows the coal to be discharged directly to railroad cars.

Our Bulletins No. 22 and 42 show numerous installations of Coal Cleaning Equipments we have installed. Sent only on request. Write to-day for copy.

**Jeffrey Manufacturing Company,**
