

The *Quebec Official Gazette* announces the appointment of P. S. Murphy, Esq., as a Catholic School Commissioner for Montreal.

CARD OF THANKS.—The Sisters of Charity, Kingston, return their grateful thanks to the worthy Pastor and generous people of Brookville and Mallorytown, who on a late occasion responded willingly and munificently to an appeal made in behalf of the poor supported in the House of Providence.

We beg leave to congratulate the Ontario *Tribune* on the appearance of its specimen number, which we have received in due course. The *Tribune* is published by Messrs. Troy & Co., of Toronto, as an Irish Catholic paper, not connected with any political party in the Dominion, but devoted solely to the promoting the interests of the Irish race. We heartily wish the *Tribune* success; and in so far as it is permitted to judge from a first number, and its excellent article on *Mixed Marriages*, we venture to predict for our new contemporary a long and brilliant career.

BLACKWOOD'S EDINBURGH MAGAZINE—June, 1874.—Leonard Scott Publishing Co., New York; Messrs. Dawson Bros., Montreal.

In the current number the serial stories of *Alise Lorraine* and *Valentine* and his Brother are continued, and seem to improve in interest. An article on the *Poets at Play* treats us to some rambling stories about poets and their familiar versification, intended for friends and not for publication. There is an interesting article on Japan, *The Romance of the Japanese Revolution*, treating of the wonderful political and social changes that have taken place in that empire within the last twenty years, changes too sudden, we suspect, to be lasting, and which may again lead to a wholesale massacre of the foreigners to whom they must be attributed. We have an article on education, *Set in Mind and Education*, treating of the intellectual training of boys and girls; then follows a review of Victor Hugo's latest publication, *Ninety-Three*, an historical romance of the days of the Revolution. A political article laudatory of D'Israeli, and as usual somewhat prosy completes the number.

BROWNSON'S QUARTERLY REVIEW—July, 1874.—Last Series.—Our old friend is again before us full of life and vigor as ever. His articles on Gallicanism and Ultramontanism we especially admire; but in his Literary Notices and Criticisms there are in the review of some recent works on Devotion to the Sacred Heart of Jesus some expressions which might be distorted into a bad sense. The following is a list of the contents:—1. Count de Montalembert; 2. Gallicanism and Ultramontanism; 3. Cartesianism; 4. Ontologism, and Psychologism; 5. Constitutional Law: The Executive Power; 6. Conditional Baptism; 7. Early and Recent Apostates; 8. Literary Notices, and Criticism.

THE PIONEER—A Poem, by William Seton, Esq. New York: P. O'Shea, Publisher. Messrs. D. & J. Sadlier, Notre Dame Street, Montreal.

As its name implies this is the tale of the first settlements in what was then spoken of as the *far west*. Putnam is the hero and how he sallied forth from New Hampshire, and laid the foundation of new cities and a new State is the subject of this Yankee epic. It is pleasantly told, and many of the descriptions of scenery are very fine.

LA CREME DE LA CREME—July, 1874.—J. L. Peters, 599 Broadway, New York. Terms: \$4 per annum; single numbers, 50 cents.

This is a collection of Music for advanced players and can be procured for the small sum of fifty cents which, if bought in sheet form, would cost over \$2.

Contents:—The Musical Box: *Liebig's Flower Song*; *Lange*. Marche a la Turque: *Rubinstein*. Ye Merry Birds: *Kuhn*. Always Happy: *Merz*. Sent free by mail on receipt of marked price.

ROSA D'ERINA—Finn's Prima Donna—gave a Sacred Concert in St. Gregory's Church, Picton, on Sunday evening last, to a large audience of persons who had been attracted thither by the world-wide fame of this truly gifted lady. The Prima Donna acquitted herself splendidly, and greatly impressed those present with her wonderful abilities in music and song. On the following evening, Rosa D'Erina gave a grand concert in the Town Hall, when the attendance was considerably increased, showing that great interest was being taken by the people. The programme consisted of a variety of songs of different countries, interspersed with other and more familiar songs, which were all rendered in a manner not easily excelled, if approachable. "The Storm at Sea" and the "Bag-Pipes" were grandly beautiful. Altogether this was perhaps the best musical treat ever given here; and it is but fair to say that a large share of credit justly belongs to the Rev. J. Brennan, Mr. J. Redmond and Mr. E. Curran, for their efforts in inducing the Prima Donna to come to Picton. D. Diagne, Esq., kindly furnished a Holzman Piano—an instrument which Mrs. Rosa D'Erina particularly admired on account of its superior sweetness and brilliancy of tone.—*Picton Gazette*, July 17.

THE CROPS.—The condition of the crops in the county of Lennox is most encouraging, and the harvest of 1874 promises to be the most bountiful for many years. From the townships of Bristol and Thorne, we learn that fall wheat, hay and oats are likely to prove a poor crop.—*Almonte Gazette*.

PASTORAL LETTER OF HIS GRACE THE ARCHBISHOP OF TORONTO.

JOHN JOSEPH LYON, by the Grace of God and the appointment of the Apostolic See, Archbishop of Toronto, Assistant at the Pontifical Throne, Apostolic Administrator of Kingston, etc.

To the Reverend Clergy, religious communities and devoted people of the Diocese of Kingston, grace and benediction in Our Lord.

You are already aware that the Most Rev. Dr. Horan, the venerable Bishop of Kingston, on account of failing health considered it his duty to place at the feet of His Holiness Pope Pius IX. his resignation of the Diocese of Kingston, which he did by a document signed on the first of May last. By letters from his Eminence Cardinal Franchi, P. S. of the Propaganda, we have been informed that it has pleased His Holiness to accept this resignation in an audience given on the 28th of May last; and in the same letter, exhorts us to invite the Bishops of our Ecclesiastical Province to proceed without delay to seek for and to propose a good and proper candidate to the Congregation of Cardinals of the Propaganda, and by them to be proposed to the Holy Father to succeed to the Most Rev. Dr. Horan.

In a matter of such importance, our first duty is to follow the directions of the Ceremonial of Bishops, which prescribes that on the vacancy of a See, "continual prayers are to be offered up to God for the election of a new Bishop, and it is meet that every day, or at least once a week, the Religious of the widowed Diocese should go processional to the Cathedral church, singing the Litanies, and there should offer up pious and devout prayers with the Canons and the Clergy of the same Cathedral Church, that God would mercifully vouchsafe to grant to them speedily another and good pastor, who would be able and willing to govern the Church, and to procure the salvation of souls with all zeal and piety. As soon as certain news will arrive of the election of a new Bishop, the religious orders going to the Cathedral Church should give thanks to God, and devoutly sing the hymn *Te Deum Laudamus*."

So far the ceremonial. In accordance with this wise prescription, and to conform as nearly as possible to the spirit of the decree, we enjoin the following prayers: The Rev. Clergy will add the Collect of the Holy Ghost in all their Masses, and will recite with the people the Litany of the Blessed Virgin, either before or after the sermon of the parish Mass. The religious communities will every day make a solemn visit to their chapel, and before the Most Blessed Sacrament recite the Litany of the Saints. These prayers will be offered to the Sacred Heart of Jesus, through the hands of His Immaculate Mother, that he would be pleased to send a Pastor according to his own heart, for his own glory and the salvation of the people of the Diocese of Kingston. Prayer is good, with alms-deeds and fasting. We expect that the people will give liberally, especially to these works of charity in which the holy and self-sacrificing religious are engaged. There are poor boxes in every church; let them be filled with offerings for the poor and the orphan. Many cannot fast, but they can deny themselves little comforts and pleasures, which will go far to move God to mercy.

This pastoral letter is to be read in all the churches and chapels of the Diocese on the first Sunday after its reception. The grace of Our Lord Jesus Christ be with you.

JOHN JOSEPH, Archbishop of Toronto, &c.

Given at St. Michael's Palace, Toronto, on the octave of the Feast of St. Peter and Paul, 6th July, 1874.

By order of his Grace the Archbishop.
J. P. O'BRYEN, Chancellor.

ST. PATRICK'S TOTAL ABSTINENCE SOCIETY'S PICNIC AT ST. HELEN'S ISLAND.

The annual picnic of this Society was held on Thursday the 16th inst., on St. Helen's Island, and was as successful as could be expected, considering the menacing aspect of the weather. The steamer Montyville was fairly filled on each occasion of its transit. The dancing, promenading and athletic contests were apparently well enjoyed by both participants and spectators. Bishop's Quadrille Band did good service, and among the various amusements dancing seemed "to bear the bell."

The following is the programme of the games with the number of entries for each, and the names of the successful competitors: 1. Members' race (half mile), in heats, best 2 in 3, silver medal, presented by E. Murphy, Esq., 4 entries—1st, Michael Kelly; 2. Hop step and leap, 1st \$2, 2nd \$1, 4 entries—1st, S. McCoy; 2nd, T. MacMahon; 3. Boys' race (100 yards), 1st \$2, 2nd \$1, 4 entries—1st, J. Welsh; 2nd, F. Traynor; 4. Race (half-mile), in heats, best 2 in 3 open only to bona-fide members of 12 months standing of St. Patrick's, St. Ann's and St. Bridget's Temperance Societies, to be competed for and won two years in succession; silver cup, presented by M. P. Ryan, Esq., M.P.; 4 entries—1st, Sinclair McCoy; 5. Race (quarter-mile), heats, for Fire Police, silver medal, 4 entries—Fireman Benoit, No. 4 Station; 6. Race (half-mile), in heats, best 2 in 3, open to members of all the Temperance Societies in the city of 12 months' standing, to be competed for and won 2 years in succession (certificate of membership required); silver cup, presented by T. F. O'Brien, Esq.; 2 entries—(Not competed for, in consequence of the number of entries not being sufficient); 7. Running long leap, 1st \$2, 2nd \$1, 4 entries—1st, S. McCoy; 2nd, Jno. Thompson; 8. Race (200 yards), in heats, 1st \$2, 2nd \$1; 7 entries—1st, J. Driscoll. Numbers 8 and 10 were omitted in consequence of the lateness of the hour. The silver cup was won by Mich. Kelly last year, and if, on examination, it be found that McCoy has not completed a full year's membership, it reverts to Kelly. During the whole day the utmost order and good feeling prevailed, the only drawback to full enjoyment being the uncertainty of the weather.

Sir Robt. Hodgson, Administrator of Prince Edward Island, is appointed Lieut.-Governor.

The Government have ordered the construction of fourteen hundred ballot boxes in the Dominion workshops for use under the new system of voting.

Mr. Vankoughnet has been appointed Deputy Head of the Indian branch in the place of the late Mr. Spragge.

ACCIDENT.—A labouring man named James McKeown, had his right leg broken on Saturday evening by a piece of timber falling on it. He was removed to the General Hospital.

SCHOOL OF FINE ARTS.—On Saturday afternoon the examination of the pupils of the School of Fine Arts was held at their rooms in St. James street. Hon. Mr. Oulmet, Minister of Public Instruction, occupied the chair. Among those present were J. Abbe Chabert, Principal of the School, and Messrs. Cherrier, Sheriff Leblanc, Mousseu, M. P., and the Revs. Barbarin and Desmarreux. After an introductory address by L'Abbe Chabert, in which he spoke of the origin and success of the school, and also of the excellent work done by the pupils, Hon. Mr. Oulmet spoke of the great interest taken in the school by the Quebec Government, and promised that as much assistance as it was in their power should be given to the Institution. Mr. Cherrier afterwards said a few words, in which he referred to the great success attained by so new a school, which already numbers 300 pupils. The prizes were then distributed.

TO SHUT DOWN.—An arrangement is being made among the Ottawa Mill owners to shut down the whole of the Ottawa saw mills simultaneously some time during the present month to prevent over production.

THE ISLAND PARK.—The soundings for the new wharf at St. Helen's Island have been completed. The wharf will run out to the west, north of Mail Rock. It is to be 150 feet long, supported on three cribs, and will be wide enough at the end for the steamboat to land passengers from both gangways. Two sets of plans are being prepared in the Road Department, for sheds, &c.

SHORTEST ROUTE TO EUROPE.—During the last two sessions of the Dominion Parliament a select committee has been considering the subject of the shortest practicable route to Europe. Col. Farjano, Hydrographic Engineer, who had been instructed to inquire into the matter, reported that after examining the coast he had come to the conclusion that Passepebino Bay, in the Baie de Chaleurs, was open all the winter, and that its other conditions made it the best, if not the only harbor which we possessed in the Gulf of St. Lawrence, suited for an ocean port, was the nearest and most accessible to Europe, and was at the same time open all winter. We notice now that in view of the qualification of this port the Hon. Dr. Robitaille has formed a company to build the required line of railway to connect Passepebino harbor with the Intercolonial Railway at or near Metapedia. The railway will open up and develop an excellent district, well suited for settlement. The line will proceed for some distance along the edge of the Baie. Its length will not be very considerable, and as we learn the gradients are exceedingly easy. An engineer has gone to align the road.—*Montreal Herald*.

The half-yearly examination of the R. C. S. School was held in their School House, on Monday, July 13th, in the presence of the Rev. J. Brennan, the Trustees, and a number of parents of the pupils. The examination passed off very pleasantly; the pupils answers to all questions, particularly in the higher classes being very satisfactory; reflecting great credit on the care and attention bestowed on them by the Teacher, Miss Moran. After examination the Rev. Mr. Brennan distributed the prizes, and complimented the teacher and pupils on the progress they had made during the half year.—*Picton Gazette*.

IMMIGRATION.—The *Free Press* gives a detailed account of the immigration to the Ottawa Valley for the six months ending 30th June last. The immigrants comprise all classes, varying from the "gentleman" who has learned no business to the laborer. The nationality of those actually arriving at the Ottawa agency is English, 294; Irish, 210; Scotch, 60; Germans, 110; French, 45; Swedes, 14. These immigrants have all been provided with suitable employment, and being of a superior class, are all doing well.

QUARRIES, July 18.—Instructions have been recently sent by the consent of the Crown Lands to Col. Farjano, a well-known civil engineer, to define in the field the line of the projected Baie de Chaleurs Railway and to complete certain explorations connected with the same project commenced last year under the auspices of the Hon. T. Robitaille. The line in question will traverse that part of the County of Bonaventure extending from the confluence of the Metapedia and Restigouche rivers at some point on the Intercolonial Railway to the town of New Carlisle, a distance of about 87 miles, and will run through a very fine agricultural district bordering on the Baie des Chaleurs, already well settled.

It is calculated that about 350,000 feet of timber is stuck on the Colonge this season; it has been abandoned by the men who were driving it. The water has fallen rapidly.

The watchmakers and jewellers of Hamilton have decided to close their place of business every Friday, (Saturday being a busy day in the trade) at one o'clock, to allow their employees to enjoy a holiday.

TORONTO, July 18.—A Yorkville constable yesterday arrested fifty-one bushwackers male and female who were sentenced to six months hard labor by the Magistrate.

ONILLIA, July 17.—Yesterday Henry Lovering's shingle-mills, near Cold Water, were burned. All the shingles were saved through the efforts of the men. Probable loss about \$2,000; no insurance.

THORNHILL, July 17.—The farm buildings of David Smillie about three miles from here, were totally destroyed by fire yesterday afternoon. Supposed loss, \$3,000; partially covered by insurance.

YAMASKA, Que., July 19.—The lightning struck the house of Mr. Louis Proulx, in this place, today setting the house on fire and injuring Mrs. Proulx seriously. The house was burned to the ground.

GREEN PRAS.—The guests at Mr. Lyon's Hotel were, on Wednesday, 5th inst., treated to green peas the first of the season, grown by the enterprising proprietor on his own farm. Which of rural agriculturalists can beat this?—*Arnprior Review*.

CHEESE FACTORY IN FITZROY.—The Cheese Factory of Messrs. Blanchard & Royce is now in full operation, and turns out about 6 cwt. a day, with a prospect of a considerable increase. The cheese appears to be of first quality; and all parties interested appear to be well satisfied.—*Almonte Gazette*.

EXPORTATIONS.—Among the industries for which Almonte is becoming known throughout the Dominion, we observe the new one of the manufacture of brick is engaged in to a much larger extent this summer than during past years. Large quantities are being shipped to Ottawa; while the home consumption is rapidly increasing.—*Almonte Gazette*.

HAMILTON, July 20.—The Great Western Railway intend running special excursion trains every Saturday to some place on their line during the summer season, making the fare sufficiently low to be within the reach of every body. The citizens look upon this as a step in the right direction, as it will give them a good opportunity to spend two or three days out of the city in the week, and will doubtless become very popular.

The body of a newly born male infant was found sewed up in a carpet bag floating in the harbor last evening. An inquest was held. Suspicious circumstances point that the child was first probably strangled, as a strip of calico was found tied tightly round the neck and eyes, and the tongue protruded. A verdict of found drowned was returned.—*Toronto Cor. of the Gazette*.

BETHANY, July 17.—About nine o'clock this morning, Silas Dickson, while trying to jump on a passing train at this place, fell, and had one leg badly smashed by the wheels of the conductor's van. Drs. Turner and Hamilton, from Millbrook, over six miles distant were with him in less than an hour from the time the accident occurred, and hope to save the leg, but the man will be a cripple for life.

The Ottawa *Free Press* says, the statement of the American Consul, of the amount of goods exported in the quarter ending 30th June, 1873 and 1874, respectively, shows that the total exports from this port to the United States during the past year have been less by \$213,434.03 than for the year before, the respective amounts being 1872-3, \$704,416.43, 1873-4 \$490,982.30. This falling off is entirely in the lumber trade, and is due to the financial depression and scarcity of money and consequently dull markets on the other side. The lumber exports in 1872-3 amounted to \$684,774.85, and in 1873-4 it was only \$453,673.90, a decrease of \$2,311.95. The exports of other articles of produce, however, show a rapid increase, the amount being about double for the past year, that of the previous year. The general exports, manufactures and produce, other than timber, in 1872-3 was \$19,640.48; and in 1873-4, \$39,238.40, being an increase of \$17,611.92. The hotel keepers of Truro, N.S., have refused to accommodate travellers because of the enforcement of a new law prohibiting the sale of liquors.

ATTEMPTED SUICIDE.—On Saturday night Cornelius Scanlon, keeper of the Bee-hive Hotel, on the corner of Richmond and Victoria streets, attempted to commit suicide by taking a large dose of laudanum in a glass of whiskey. The act was discovered by a member of the household immediately after its commission, and three of the nearest medical men were instantly summoned. On their arrival Scanlon was well under the influence of the poison, but an immediate application of the stomach-pump, and subsequently of strong antidotes, had the effect of bringing him to partial consciousness. In that state he was removed to the General Hospital, and at latest accounts yesterday was still alive, though in a very precarious condition. The motive for the deed is unknown.—*Toronto Globe*, 20 inst.

HARVEST PROSPECTS.—It is not often that there have been such good prospects of an abundant harvest throughout Ontario as at the present moment. The spring time was late and somewhat inclement but, as very frequently takes place after such a spring, the weather subsequently has been all that could be desired. Sunshine and shower have so alternated that it would be very difficult indeed to think of an arrangement which would have given even the most fastidious farmer greater satisfaction. From the wheat having been frequently in many localities left during the winter and spring uncovered by snow, and consequently exposed to severe frosts, the general fear was that it would be a total failure. In not a few cases it has actually suffered very severely, but where it has not been entirely killed it has "stood out" wonderfully, and is spoken of in some counties as likely to be a fair crop. The spring crops, however, are almost without exception splendid; nay, are generally represented as superior to anything that has been seen for a good many years past. In some districts the hay crop is said to be light; but these cases are exceptional, and the general opinion is that there will in this very necessary article be an unusually abundant supply. So far as things have yet gone, the green crops are not an exception to the general promise of abundance. No doubt the bug is said to be bad on the potatoes in some localities, but from the complaints on this subject being comparatively limited, we may naturally conclude that things in this respect are not so discouraging as they have often been. The fruit prospects are of the very finest. From all quarters of the Province the same intelligence comes, and that in brief is, that the orchards never promised a more bountiful yield of all kinds of fruit.—*Globe*.

THE POTATO BUG.—The potato bug has made its appearance in Smith's Falls and threatens to do considerable damage to this valuable crop. It first makes its appearance as a beetle with wings. This beetle first deposits the eggs on the under side of the leaf, and shortly after the soft loathsome potato bugs are seen, greedily devouring all before them. As the potato crop is now pretty well advanced growers flatter themselves that the damage will not be so great as might be anticipated.—*Picton Courier*.

CROPS.—A gentleman from Fitzroy brings the good news that the crops present a most encouraging appearance in that district. Farmers expect, and are preparing for an unusually large harvest.—*Pembroke Observer*.

The frequent showers and succeeding heat is bringing on the grain crops wonderfully fast; there is a very rapid growth here at the present time.—*Pontiac Advance*.

A shark twelve feet long was caught in the harbor of St. John, N. B., recently.
