

Carboline.

THE BALD HEAD'S FRIEND.

WONDERFUL

Discovery.

CARBOLINE!

A Deodorized Extract of Petroleum as now prepared is the only article that will restore hair on bald heads.

And Cures all Diseases of the Scalp.

What the World Has Been Wanting for Centuries.

The greatest discovery of our times, so far as a large portion of humanity is concerned, is CARBOLINE, an article prepared from petroleum, and which effects a complete and radical cure in cases of baldness or where the hair falling out of the scalp, has become thin and tends to fall out. It is also a speedy restorative, and while its use secures a luxuriant growth of hair, it also brings back the natural color to the scalp, and the most complete satisfaction in the using. The falling out of the hair, the accumulations of dandruff, and the premature change of color, are all evidence of a diseased scalp, and the cause of the glands which nourish the hair. To arrest these causes the article used must possess medicinal as well as chemical virtues, and the change must be such as to be gentle to the scalp and having a beneficial effect. Such an article is CARBOLINE, and like many other wonderful discoveries, it is found to consist of elements which are found in nature. Petroleum oil is the article which is made to work extraordinary results, but it is after it has been chemically treated and completely deodorized that it is fit for use. It is the most perfect of all restoratives, and the effect of petroleum upon the hair was first observed, a government officer having noticed that a partial bald-headed man had a habit of wiping his oil-bearded hands in his scanty locks, and the result was in a few months a much finer head of black, glossy hair than he had before. The oil was tried on horses and cattle that had lost their hair from the cattle plague, and the results were as rapid as they were marvelous. The man's and even the tails of horses, which had fallen out, were restored in a few weeks. These experiments were heralded to the world; but the knowledge was practically useless to the prematurely bald and gray, as no one in civilized society would resort to the use of refined petroleum as a dressing for the hair. But the skill of one of our chemists has overcome the difficulty, and by process and elaborate and costly experiments, succeeded in deodorizing petroleum, which renders it susceptible of being handled as delicately as perfume. The oil is now used in the most delicate manner with the deodorized liquid on the human hair, and the results were the most astonishing. A few applications where the hair was thin and falling out, and well calculated to give vigor to the scalp and hair. Every particle of dandruff disappears on the first or second dressing, and the liquid, so searching in its nature, seems to penetrate to the roots of the hair, and set up a radical change from the start. It is well known that the most beautiful colors are made from petroleum, and by some mysterious operation of nature, the color of the hair gradually imparts a beautiful light brown color to the hair, which, by continued use, deepens to a black. The color remains permanent for a long time, and the change is so gradual that the most intimate friends can scarcely detect its progress. In a word, it is the most wonderful discovery of the age, and well calculated to make the prematurely bald and gray rejoice. We advise our readers to give it a trial, feeling satisfied that one application will convince them of its wonderful effects.—Pittsburg Commercial of October 22, 1877.

DEAR SIR:—I take great pleasure in informing you of the most gratifying results of the use of CARBOLINE in my own case. For three years the top of my head has been completely bald and smooth, and I had quite given up any hope of restoring the hair. Four weeks ago I read of the advertisement of CARBOLINE, and on the recommendation of a friend, I concluded to try a bottle without any great hopes of good results; however, I have now used it, and well calculated to give me my most agreeable astonishment, my hair is completely covered with a fine, short, healthy growth of hair, which has every appearance of continuing to grow, and I believe it will restore it as completely as ever it was in my youth.

I take great pleasure in offering you this testimonial, and in giving you my permission to publish the same. Yours truly, CHAS. E. WHITE.

POND'S EXTRACT.

THE GREAT VEGETABLE

PAIN DESTROYER AND SPECIFIC FOR INFLAMMATION AND HEEL-ORRHOAGES.

Rheumatism, Neuralgia.

Neither preparation has cured so many cases of these distressing complaints as the Extract. Our Plaster is invaluable in these cases. A dressing of our Plaster in Back or Side, &c. Our Ointment (30 cents) for use when removal of clothing is inconvenient, is a great help in relieving inflammatory cases.

Hemorrhages. Bleeding from the Lungs, Stomach, Nose, or from any cause is speedily controlled and stopped. Our Nasal Syringe (25 cents) and Inhaler (\$1.00) are great aids in arresting internal hemorrhages.

Diphtheria & Sore Throat.

Use the Extract promptly. It is a sure cure. Delay is dangerous.

Catarh. The Extract is the only specific for this disease. Cold in Head, &c. Our "Catarh Cure," specially prepared to cure all serious cases of this disease, is a great relief. A dressing of our Ointment will aid in healing and prevent scars.

Sores, Ulcers, Wounds, Sprains and Bruises. It is an excellent dressing for all these affections, cooling and cleansing. Use our Ointment in connection with the Extract. It will aid in healing, softening and preventing scars.

Burns and Scalds. For allaying heat and pain in connection with the Extract. It will aid in healing, softening and preventing scars.

Inflamed or Sore Eyes. It can be used without the slightest fear of harm, quickly allaying all inflammation and soreness without pain.

Earache, Toothache and Faceache. When the Extract is used according to directions, its effect is simply wonderful.

Piles. Bleeding, or Itching. It is the greatest known remedy for this rapidly curing when other medicines have failed. Pond's Extract Medicated Paper for direct use, and our Extract, are the best. A dressing of our Ointment is of great service where the removal of clothing is inconvenient.

For Broken Breast and Sore Nipples. The Extract is so effective and efficacious that mothers who have children will be without it. Our Ointment is the best emollient that can be applied.

Female Complaints. No physician called in for the majority of female diseases if the Extract is used. Full directions accompany each bottle.

Which I wish to remark—
And my language is plain—
That for ways that are dark
And tricks that are vain,
The heathen Chinese is peculiar:
Which the same I would like to explain.

Ah Sin was his name:
And I shall not deny
In regard to the same
What that name might imply;
But his tricks that are vain,
As I frequent remarked to Bill Nye.

It was August the third,
And quite soft was the skies,
Which it might be inferred
That Ah Sin was likewise:
Yet he played it that day upon William
And me in a way I despise.

Which we had a small game,
And Ah Sin took a hand:
It was no more "The same"
Ere I did not understand:
But he smiled, as he sat by the table,
With the smile that was childlike and bland.

Yet the cards they were stocked
In a way that I grieve,
And my feelings were shocked
By the way that he dealt:
Which was stuffed full of aces and deuces,
And the same with intent to deceive.

But the hands that were played
By that heathen Chinese,
And the points that he made,
Were quite frightful to see—
Till at last he put down a right bowler,
Which the same Nye had dealt unto me.

Then I looked up at Nye,
And he gazed upon me;
And he rose with a sigh,
And said, "Can this be?
We are ruined by Chinese cheap labor!"
And he went for that heathen Chinese.

In the scene that ensued
I did not take a hand,
But the floor it was strewn
Like the leaves on the strand
With the cards that Ah Sin had been hiding
In the game "he did not understand."

In his sleeves, which were long,
And had twenty-four pockets,
Which was counting it strong,
Yet I saw but the facts,
And we found on his nails, which were wet,
What is frequent in tapers—that were

Which is why I remark,
That my language is plain,
That for ways that are dark,
And tricks that are vain,
The heathen Chinese is peculiar:
Which the same I am free to maintain.

"Is there a letter here in a scented envelope for my wife?" he asked the postmaster, while the green fire from his eyes made the office look like a leafy forest. "Yes, sir," answered the postmaster as he handed it out. The jealous man tore it open at once, when lo and behold! it was a milliner's bill for \$50. No succeeding chapters.—Rhinebeck Gazette.

"Primary Consumption arises from a deficiency of vitality in the natural bioplasm or germinal matter, and this deficiency manifests itself, not only in a general wasting or atrophy of the system, but also in a peculiar degeneration, chiefly in the lungs and lymphatic system, of the bioplasm into a stagnant, low-lived, yet proliferating matter, which, instead of being the nutrition and integrant of the tissues which is the natural function of bioplasm, clogs them, and irritates them with a substance which is more or less prone to decay, and to be expelled from the system in its own disintegration and destruction."

To remedy this deficiency by sustaining the vitality of the bioplasm, and thus provide for the general health of the system, the system is the product and design of Robinson's Phos. Horized Emulsion of Food Liver Oil with Lacto-Phosphates of Lemons.

Prepared and Sold by J. B. Robinson, Pharmaceutical Chemist, St. John, N.B., and for sale by Druggists and General Dealers. Price \$1.00 per bottle; six bottles for \$5.00.

THE HEATHEN CHINEE.

FRANCIS BRET HARTE.

Which I wish to remark—
And my language is plain—
That for ways that are dark
And tricks that are vain,
The heathen Chinese is peculiar:
Which the same I would like to explain.

Ah Sin was his name:
And I shall not deny
In regard to the same
What that name might imply;
But his tricks that are vain,
As I frequent remarked to Bill Nye.

It was August the third,
And quite soft was the skies,
Which it might be inferred
That Ah Sin was likewise:
Yet he played it that day upon William
And me in a way I despise.

Which we had a small game,
And Ah Sin took a hand:
It was no more "The same"
Ere I did not understand:
But he smiled, as he sat by the table,
With the smile that was childlike and bland.

Yet the cards they were stocked
In a way that I grieve,
And my feelings were shocked
By the way that he dealt:
Which was stuffed full of aces and deuces,
And the same with intent to deceive.

But the hands that were played
By that heathen Chinese,
And the points that he made,
Were quite frightful to see—
Till at last he put down a right bowler,
Which the same Nye had dealt unto me.

Then I looked up at Nye,
And he gazed upon me;
And he rose with a sigh,
And said, "Can this be?
We are ruined by Chinese cheap labor!"
And he went for that heathen Chinese.

In the scene that ensued
I did not take a hand,
But the floor it was strewn
Like the leaves on the strand
With the cards that Ah Sin had been hiding
In the game "he did not understand."

In his sleeves, which were long,
And had twenty-four pockets,
Which was counting it strong,
Yet I saw but the facts,
And we found on his nails, which were wet,
What is frequent in tapers—that were

Which is why I remark,
That my language is plain,
That for ways that are dark,
And tricks that are vain,
The heathen Chinese is peculiar:
Which the same I am free to maintain.
