

addition controls the violent movements accompanying the cough. To administer these tablets in the above conditions, place one tablet in the mouth, allowing it to dissolve slowly, swallowing the saliva. Exhibited in the grinding pains which precede and follow labor; in the uterine contractions which often lead to abortion; in the various neuralgias, and in all neuroses due to irregularities of menstruation, this combination affords immediate relief. In these last conditions, always instruct that tablets be crushed before taking.

WITH their March, 1907, pamphlet Battle & Co. commence the issue of a series of eighteen illustrations of dislocations, the first being bilateral dislocation of the jaw. These illustrations will complement their illustrations of long bone fractures, and the two series will make a valuable collection of the busy practitioner. Physicians who are not on their mailing list can get them free by application to Battle & Co., St. Louis.

PHYSICIANS in search of a field for practice may not know that they can find out from the Canadian Medical Exchange, conducted by Dr. Hamill, 75 Yonge St., Toronto, practically every medical practice for sale in the Dominion, as well as many places where there is no doctor and the community need one. This information is given prospective medical buyers free of any charge whatever, the only condition being that buyers must agree to hold sacredly confidential, and for their own use only, all information received from the above office. Medical vendors and vendees can secure the goal desired by having their names registered with Dr. Hamill better than by all other methods combined that they might adopt, as practically everything in the market, having merit, is in his office. It is a great convenience to buyers and sellers to thus have one central depot to supply their needs.
