## GERMAN ATTACKS ON BRITISH CEASE

"We Hold Entire Crest of Hill," Says Official Eye-Witness.

### AIR RAID ON GHENT

British Airman Carried Out Successful Attack Without Assistance.

LONDON, April 23.—There was given out in London this morning the regular semi-weekly report on conditions at the front. It is dated April 22, and reads as follows: "The German attacks on Hill No. 60 which had stopped at the time of issuing the report of last Monday, have been renewed several times. These attacks all failed, and for the time being they have ceased. We hold the entire crest of the hill, and so deny its use to the enemy, who have attached great importance to it. There is not and there never has been, any truth in the German official communication that the enemy had recaptured this position. During the course of the operations around Hill No. 60 the enemy fired shells seventeen inches in diameter into the Town of Ypres.

**Exploded Two Mines.**—On April 21, in the neighborhood of La Bassee, the enemy exploded two mines opposite our right. They failed to damage our trenches. We discovered German mining operations in the neighborhood of La Touquet, near Armentieres, we forestalled their effort to explode a mine which we had prepared there. "On April 19 one of our airmen carried out a very bold and successful single-handed attack on an airship shed near Ghent. He had to run a gauntlet of fire from the ground, directed by a captive balloon, in order to attack his objective, in spite of this he came down to within 200 feet of the ground and effected his object, causing a serious explosion in the shed."

## JURY WILL SETTLE SANITY OF THAW

**Trial Granted by Supreme Court Justice Hendrick of New York.**

NEW YORK, April 23.—Harry K. Thaw, slayer of Stanford White, after many efforts, has finally succeeded in bringing the question of his sanity before a jury. The application for a jury trial made by his attorneys in a writ of habeas corpus was granted today by Supreme Court Justice Hendrick, who upon consultation with his colleagues, who upon consultation with Hendrick made it clear that the jury was called in to aid the court, in their advice, and that the finding of the jury would not be binding if the court was satisfied that it was not in accord with the evidence and with justice. The court, he said, could disregard the jury's verdict and render his own decision.

Thaw was radiant when he heard the verdict. Many of his friends were in the crowded court-room, and they and his counsel were quick to congratulate him on this successful step in the fight for liberty. His mother, Mary Copley Thaw, who has been by his side in all of his years of fighting for freedom, was not present today, but Thaw's first thought in speaking to his friends and newspaper men was of her. "This will be very good news for my mother," he said. "My only regret is that the hearing will not take place earlier than May 17."

## SIR PERCY GIROUARD GREAT DISCOVERY

One of Men for Whom Lloyd George Has Been Looking.

### DID GREAT SERVICE

Attracted Notice of Government by Work at Armstrong-Whitworths.

LONDON, April 23.—One of the men with push and go for whom Lloyd George, chancellor of the exchequer, has been looking has admittedly been found in the person of Sir Percy Girouard. Until the beginning of the week Sir Percy was still director of the Armstrong-Whitworths, and in that capacity he rendered immense service to the government by organizing the output of munitions by his firm. Under his direction enormous additions were made to the personal staff and plant of the firm, which it is stated is ready to employ 10,000 men at once. By his promotion to the rank of temporary major-general and his resignation, for the time being, from the board of directors, the government hopes to avail itself more directly of his influence and organizing ability. Sir Percy, speaking in the House of Commons, said that arrangements have been made by which men are allowed to go from engineering works to armament firms and to remain there during a few weeks and acquire knowledge, experience and skill, so that they shall come back, say, at the end of six weeks, and be able to assist in converting an old shop into a full armament shop, and for that arrangement we owe a considerable debt of gratitude to Sir Percy Girouard, who has taken a considerable part in organizing it.

## A GOOD MEDICINE FOR THE SPRING

Do Not Use Harsh Purgatives—A Tonic is All You Need. Not exactly sick—but not feeling quite well. That is the way most people feel in the spring. Easily tired, sometimes headaches, a feeling of depression, pimples or eruptions may appear on the skin, or there may be twinges of rheumatism or neuralgia. Any of these indicate that the blood is out of order—the indoor life of winter has left its mark upon you and may easily develop into more serious trouble. Do not do so. You need a purgative, as so many people do, in the spring, but you can put your blood system and weaken it instead of giving strength. Any doctor will tell you this is the way to health. Dr. Williams' Pink Pills is the only medicine that does this speedily, safely and surely. Every dose of this medicine makes every drop of blood in the system, strengthens the appetite and children bright, active and strong. Mrs. E. E. Stephens, Ponoka, Alberta, "I suffered severely from indigestion, and was badly run down in health. I had tried several remedies until I was advised to take Dr. Williams' Pink Pills, and these fully restored my health, and I am now well and strong."

Dr. Williams' Pink Pills, 60c a box or six boxes for \$3.00. The Dr. Williams' Medicine Co., Brockville, Ont.

## CORPORAL HACKING PLAYED HERO'S PART

Aid Given Major Gault in Rescuing Wounded Under Heavy Fire.

HAMILTON, April 23.—Corporal S. Hacking, of the Princess Patricia's, a veteran of the South African war, in a letter to his wife encloses a card from Major-General Snow, of the 27th Division, which informs Hacking that his distinguished conduct on the field has been called to the attention of higher authorities. Hacking was with Major Gault when he was wounded and gives a graphic description of the thrilling time they had in rescuing wounded while under heavy fire. Major Gault, he said, cried out, "Come on boys, we must rescue these fellows." They followed Gault across a shot-swept field and picked up a number of wounded. When Gault was hit in the wrist himself, Hacking stopped to help him, but the Princess Patricia's officer insisted on his men's proceeding to a point of safety with the other wounded men.
