

11—The general development of all the varied resources of Canada, and their conservation and utilization to the best advantage of the people, with the co-operation and assistance of the State in every reasonable way for that purpose.

12—Adequate consideration of the needs of the industrial population; the maintenance of good relations between employers and employed, and such conditions of employment as will ensure suitable standards of living among the labouring classes.

The policy of the Government will also aim at a truer understanding and comprehension between the various communities, both East and West, and the development of a national spirit of united effort among our people as the trustees of a great heritage.

For the purpose of effectively carrying out these policies the following methods have been determined:—

1. A new portfolio, that of Immigration and Colonization, has been established.

2. For the effective prosecution of the war a permanent committee of the Cabinet will be established.

3. For the purpose of considering and carrying out the other lines of policy above mentioned, another permanent committee of the Cabinet will also be constituted.

The Orders in Council establishing these committees have been prepared, and as soon as they are approved by His Excellency the Governor General, they will be given to the press for publication. The personnel of each committee will be announced at the same time.
