The Visible Supplies The visible supply of wheat in Europe this week is 37,872,000 bushels, against of 6,048,000 bushels last week, an increase of 6,048,000 bushels.

LIVERPOOL GRAIN EXCHANGE

LIVERPOOL, Nov. 12.—The market opened with a steady undertone in response to the steady American cables, celpts, and values were higher, and later March advanced. Following the opening there was free realizing on the expected heavy increase in the visible supply here and the improved political outlook with an advance in consols and prices declined. The market at Rosario, Argentina, was weak yesterday with favorable crop at a decline with spot markets easy, especially for Manitoba grades. The market lacked support, and with expectations that large world's shipments will continue, speculators realized.

Corn.—Market opened steady, unchanged to 16 Mo higher in sympathy with America. Later there was a decline of %d to 16 Mo higher in sympathy with America. Later there was a decline of %d to 16 Mo higher in spot and expected larger arrivals of Plate here.

ST. LAWRENCE MARKET.

WET WEATHER DELAYS

Outlook, Hewever, is Favorable-Russian Wheat Grops Damaged by Wintry Weather

Russia.—There are many complaints of early wheat having suffered some damage by the wintry weather. Our agents at Odesas states that the weather yesterday was rainy and the seedings favorable. The outlook in Poland is unfavorable. Held Now

This year on account of scarcity of label now.

able. The outlook in Poland is unfavorable.

Roumania—Rains are hindering seedings, and the movement is lighter, consequently stocks are decreasing.

Italy—The crop outlook is favorable.

There has been free buying of foreign wheat. The weather is seasonable.

Spain—The weather is seasonable.

Argentina.—The weather is fine, with the crop outlook favorable.

Australia—The crop improvement is being mainsained.

India—Rain is still needed, and holders of native wheat are firm.

Asia Minor—There is only a small acrease expected to be sown to—wheat this year on account of scarcity of labor.
