In the recent test of Bicycles made by the

Engineer for the supply of the Royal Canadian

Artillery at Quebec, THE COMET was selected against all competition, being the only

one which stood every test required, namely:

4. The crank and sprocket attachments, 5. The impossibility of binding in any part,

and other qualities possessed by no other

for all these bicycles as being the best when

compared with every other make of tire on trial.

THE NORTHWESTERN.

At the meeting of the Northwestern District at Grand Valley it was decided to dake part in a tennis campaign in England. He sailed on the Germanic last Wednesday. He has been troubled for some time past by an ascess on his fact, but has thoroughly recovered now. He has been practising with Richard Stevens on the St. George Cricket Club courts at Hoboken. Larned made his first appearance in the Irish champlonships in Dublin last May.

The plan is to get four of America's best players, probably Hovey, Wrenn, Chace and Hobart, to meet the visitors in a round robin contest. The Southern District was to have met at Ingersoil. It is composed of Brantford, Paris, Simcoe, Tilsonburg and Ingersoil. Brantford has foined the ranks of the seniors, and Paris, Simcoe and Tilsonburg have not as yet organized for the season. Consequently there was no meeting of the Southern District. Ingersoil stands ready to play, having better material than for some time, but there is nothing to conquer. Ingersoil is splendidly isolated, being too far from the Huron District on one side and the Western on the other. An effort is being made to induce Paris and Tilsonburg to join ingersoil in the formation of a discrete.
