\$34 per annum invested at 4 per cent compound interest for 25 years yields \$1.475, while the same sum applied to an insurance policy yields, with estimated profit, about \$1,775 in the same time. The gain, therefore, would be \$300, besides the protection given during that period, one premium securing payment of the sum assured, even if death takes place the day the holder receives his policy. Zeligious Mania

Attacks an Entire Family at Long. Sault.

They Were About to Sacrifice One of the Children as a Paschal Lamb.

Bowmanville, Ont., Nov. 17 .- A curfous case of religious mania is report ed from Long Sault. Louis Rice, aged 22. the eldest of a family of fifteen children, went insane and proclaimed above. himself "Prince of the Sandhills." His idea was that he had been appointed

to reform the world. Then his father, Elijah Rice, caught the craze, and soon after it spread through the whole family, and they neglected the farm and spent the whole time singing and praying. Then the father got the notion that there was a devil in his family, and he pounded his wife and three sons into

insensibility. He then decided to have a passover feast, and one of the children was to be sacrificed as the pascal lamb, but one of the boys happened to mention this to a clergyman, who promptly notified the police, who arrested Rice and his son Louis, and had then removed to the Kingston Insane Asylum. doctors think that the rest of the famdly will recover.
