

Hockey Kingston 6 : Baseball Club Owners : Ice Racing First Day At Montreal

Note and Comment

President McCaffery of the Toronto Hockey League proposes to not only save the money his club wasted on the spring training trip to the States, but also to pick up exhibition games in such good baseball centres as London, Hamilton and Windsor, all within easy distance of the camp at Chatham. On Good Friday the regulars will likely meet the Toronto professionals, who are going to the States on one of the local displays, probably at Varsity, while it is the intention to send the Yankinians to one of the three places mentioned above.

Catcher Bemis, who used to do some of the backstopping for the Leafs at the Island in the days of Buck Freeman, Dan McGinn and Wally Taylor, is sick unto death with pneumonia. Bemis has caught for Cleveland since he left the diamond across the bay.

Two weeks more and the O.H.A. will, in all probability, announce its champions for 1908. Kingston looks again to have the title in the senior, while in the intermediate the junior finals of two years ago had fair to be enacted over again with Stratford and Lindsay in the finals. Of course Stratford have that to dispose of in addition to the O.H.A. title, but five goals looks too big a margin for the club to overhaul. Then there are the winners of the Rogers-Milton game, also Niagara Falls or St. Catharines v. Beamsville. The play-off will likely see Windsor v. Stratford, or Stratford v. St. Catharines, and Niagara Falls v. St. Catharines and Beamsville.

Nine teams are still left in the Junior B series, but these will be reduced by two to-night, when Eureka put away Orangeville for good and Midland, tomorrow, Berlin should extinguish Mount Forest's light, thus leaving Stratford, Windsor, St. Catharines, and Pictou v. winner Eureka-Orangeville, and when the curtain hangs down you will likely see Stratford carrying home the silverware for the third year in succession.

Many a job handed out in the heat of a game often has had results, the case this time being Desmond, the sterling point player of the Simcoes, who last night was taken to the hospital, suffering from paralysis on his right side. The injury is put down to a crack over the head by an opponent in the last Eureka-Simcoe match.

Jim Jeffries now admits that he weighs 240 pounds. He says he has taken off nearly 20 pounds since he began his boxing exhibitions. He says he will keep on working until he can weigh 220. Those who have looked the fellow over on the coast will likely be reduced in their estimate of his physique. Jeffries has succeeded in removing much of the superfluous flesh about his chest, back and thighs. Jeffries does not believe, it is said, that Johnson will be ready to fight him until some time next year. He declares, of course, that the big negro is not defeated by Langford on so-called a technicality, but that he has been beaten by the referee. In that case he expects to pick up a fortune which he will be pretty sure for him whether he fights again or not.

NEW BASEBALL LAWS ONE CLUB 25 PLAYERS

Three Leagues in Class AA by Themselves—Trades Announced.

CHICAGO, Feb. 17.—President Harry Pullin of the National League made it plain to-day between sessions of the club owners' meeting in the organization of which he is the official head, that he was willing to forego the glory and salary attached to his position in order to avoid himself of worry. He is ready to step out.

Contrary to expectation, the reported attempt at bribing Umpires Klein and Johnson during the Chicago National and New York National series at the Polo Grounds was not referred to by any all probability the matter will not be brought up.

President John I. Taylor of the Boston American League Club secured Louis Wolter, the left-handed pitcher and outfielder.

The proposed amendment to the Class AA leagues was discussed, and it is probable that the American Association and Eastern League and Pacific Coast League will be played in a class by themselves, according to their desire. In the National League session it was decided to amend Rule 6, so that the umpires would not have the power to fine players or non-players on the coaching lines.

Managers of home grounds will not be permitted to voice any sentiment regarding rule changes, in case the visiting team enters a protest against existing conditions. The umpires will be the sole judge. In the major league clubs, it was decided by the rules committee, on and after May 1st, and thirty-five days before the season opens, which precedes the warmer contests of the clubs striving for pennant.

It was decided to stop the shifting of pitchers during the course of games in order to give teams an advantage when the batters on the opposing teams were showing too great strength at the plate. When one pitcher is taken out of his position, the manager must remain in the box until he has retired at least one man.

The third Eastern Conference of the New York American Club was to-day sold to the Washington team and Ed Smith of the Washington team was to-day sold to the Atlanta Club of the Southern League. President Chicksey of the Chicago American League announced that he had secured pitcher Jerry Donohue of the Detroit team and President John I. King Allen In Straight Heats Beats King Bryson at Montreal

Small Crowd on Opening of Second Winter Meeting—Merry Widow Also Takes Straights.

MONTREAL, Feb. 17.—(Special).—The opening of the Montreal Driving Club's second winter meeting this year took place to-day at Delorimier Park, when two races were on the program. The events decided were the 219 trot, with ten starters, and the 212 pace, with four starters. In the first named, in spite of the fact that the Toronto trotter King Bryson appeared on the track showing unmistakable signs of lameness, he was made favorite at \$10 to \$5 over the field, which contained the good gelding King Allen, that had been the winner of the last meeting, and several other fair trotters. Samuel McBride, the owner of King Bryson, came down to see his trotter, but was disappointed in the result, as the New York trotter King Allen won the race in straight heats, while King Bryson it must be said that he was not only perceptibly lame before the race, but he was also the worst kind of racing luck, as a slight collision in the opening heat destroyed a tire on his sulky and the heavy condition of the track, Mr. McBride, who weighs upwards of two hundred pounds, did not drive King Bryson, but secured Jack Lombough, the driver of Merry Widow, to do the teaming, but fate was against him, as the sulky broke down in the final heat, and King Bryson was unable to start.

FAST TIME FOR HARVESTER

Geers Predicts Great Year for 4-Year-Old Trotter in His Charge.

MEMPHIS, Tenn., Feb. 17.—Sensational time is likely predicted by all trainers and railbirds at the two-minute track here for The Harvester, the four-year-old trotter in charge of Ed. Geers, the noted driver. The horse has wintered in brand health and fact in fact, created a record to date by the remarkable showing with veterinarians, none of whom have ever been called on to attend The Harvester for ache or pain since his early career as a weanling.

Already credited with a mile in 2:04, the three-year-old has been regarded as the candidate that could lower these figures if pushed. The Harvester will start the coming campaign with more than \$50,000 worth of stake engagements for his owner, August Uhlman, the Milwaukee brewer, who has instructed Geers to nominate The Harvester in all events for his class.

The Harvester has never lost a heat, he met and conquered the best on the Grand Circuit last year and wound up his brilliant winter campaign by winning the winter home here where he has enjoyed uninterrupted health and prosperity since the start of the Silent Man's string of nearly 40 trotters or pacers.

No speed has been attempted yet by the Harvester, but he is believed to be in the manner in which he has responded to the mild work administered has impressed the trainers, except that he is grander looking new.

In addition to never having lost a race or a heat The Harvester has never made a break in private or public, and the bright prospects in store for him are believed to have been responsible for his owner refusing a recent offer of \$40,000 for The Harvester, who is now being bred before being placed in real training.

Several horse owners have been favored, and the Harvester has been bred before being placed in real training.
