Emerson puts the point graphically. "If a man can write a better book, preach a better sermon or make a better mousetrap than his neighbor, though he build his house in the woods, the world will make a beaten track to his door."

CHATHAM MAN SAID TO HAVE LEFT TOWN

Chatham, N. B., July 14.—(Special)—The creditors C. A. Cole, who conducted a clothes pressing and dyeing business here for some months, are anxious about his disappearance from town a few days ago, and it is thought he is away to the States. Lately he has gone into the Starr steam laundry business with S. A. Gould, and has left the books in a bad state, collecting a lot of debts and failing to pay the employees of the laundry. Mr. Cole was in town Saturday and is known to have collected considerable money. A telephone message from his wife, who lives in Newcastle, stated he was sick in bed there. If Cole has absconded, much sympathy will be felt for Mr. Gould, who has worked hard to build up a laundry business and has been defrauded by partners on three separate occasions.

FOR OUTDOOR GYMNASTICS

Every Day Club Will Have Teacher and Equipment—A Drill Instructor Wanted.

Through the kindness of one of its members, the Every Day Club will be in a position to give outdoor gymnastic training to boys on its grounds on certain afternoons in the week during the holiday season. Some of this can be done without any equipment, and Anthony Graves, who has had experience with similar work in the Y. M. C. A. in Baltimore, would like to have any number of boys from 10 to 15 years of age on the grounds next Monday afternoon at 3 o'clock to begin the training. The club will at once construct trap-ze, parallel bars and other equipment for more general gymnasium work under Mr. Graves' supervision.

The club would also like to secure the voluntary aid of some men familiar with marching movements and military drill, as it is believed a great many boys could be interested in this kind of physical exercise. Subscriptions to the playground fund are coming in so slowly as to indicate a lack of interest, which it is hoped is not the case.

"INDIANS" TO TAKE TO WOODS SATURDAY

War Whoops Are Expected to Resound Over Boar's Head When These Tribes Get Together.

The "business boys" of the Y. M. C. A. will enjoy a very pleasant outing to Boar's Head next Saturday and Sunday if the weather is suitable. Some of the other preparations were made for the formation of a number of the lads into Indian tribes but on account of the majority of those expected to take part having to go out of town for their holiday action was deferred until a sufficient number could be assembled to take a working interest in the matter. The only boys available and who are able to participate in the outings planned on, are those who do not attend school but who belong to the "laboring class" and are consequently in town most of their time. When the activities were first outlined it was expected that enough boys could be got together to form five tribes of twenty-five each, with their big chief, medicine men, runners, messengers, messengers, messengers, messengers, messengers and other tribal dignitaries, but owing to the reasons stated only three are expected to take their tomahawks in hand and rampage on the war-path.

So far only two officers have been elected, viz: E. Bayard Trueman, big chief, and Herman Lordly, medicine man, and it is for the purpose of organizing and electing the other officers essential to the welfare of an Indian tribe that the boys will meet on Saturday evening. Accompanied by C. C. Robinson, physical director, the young fellows will leave about eight o'clock Saturday evening for the woods for that night and Sunday in a spacious log cabin situated in a picturesque spot in the wilderness surrounding the "Boar's Head" and will there conduct their meeting, arrange their plans for the summer outings and frame a constitution.

Preparations are well under way for the annual boys' camp to be held at Robinson's Point, August 4th to 19th and although a good number have signified their intention of taking part in the outing which is expected to excel in every way that of any other year, more extensive arrangements have been made for it than heretofore.

A PERRY'S POINT CASE OF HAZEN'S ECONOMY

Perry's Point, Kings Co., July 12th.

To the Editor of the Times:— If you will allow me space in your valuable paper I would like to draw the electors' attention to a little piece of "Hazen's economy" which is being practiced in this district. At one time at this point there was a bridge, but kind Providence, who watched so carefully over the old government, somehow forgot his friend Hazen last winter and allowed the ice to destroy this structure. This spring they established a free ferry. At first a small boat was sufficient to handle the traffic, but some of Hazen's pets having some awdust to rub through, he has had to put upon the "Big Boss" of this district to have a scow ferry started, which was done. Now this scow is just an ordinary sail scow, which any boy could handle, but in this case it takes two men, namely "Capt." Saunders, with Quartermaster Thompson second in command, one receiving \$2.00 and the other \$1.50 per day. Now that the water is getting low, it is almost impossible to land on the east side on account of the flats, and on the west side it is blocked with logs, so if a team wants to ferry and save time they simply do, as they always do, from Kings Point and ferry with Capt. Pitt. This government ferry is for the accommodation of the "Big Boss" and the accommodation of the "Big Boss" is \$4.00 a m. and by the time a team gets on and ferried it would be after dinner before it could get into St. John. The traffic is very light and these two men do nothing over half their time but smoke, and the old scow bumps merrily against the public wharf. They never bother their heads about fixing an approach, but just wait for their pay and orders from the "Big Boss" in this district. As long as you stand for consolidated schools you are a friend of the "Big Boss," and he and his lieutenant can get you anything you want in the line of government snags. There are quite a few things in this line around this district that I could refer to and comment upon, but space will not allow me, but if the electors of St. John county have no evidence of Hazen's weakness, just let them come to Kings county and we will show them all kinds of job juggling and political graft. Thanking you, Mr. Editor, for your kindness, I remain, AN OBSERVER. o-t. Mrs. eiba(Cso space(oths S J
