Betting on League Race
A tour of four places in New York where big bets are made on baseball disclosed the fact that the Giants are 6 to 5 favorites for winning the National League pennant, and ardent followers of the club are showing signs of worry. Never in diamond history has a lower priced favorite carried off the honors. There is a belief that such a responsibility is too much for a team to carry, and Giant fans are anxious. Thousands of dollars have been wagered in Pittsburg at that price.
Most of the big betting in baseball is done at Pittsburg and New York, and it might be of interest to note the prices paid against other clubs. You can get 3 to 1 against any other team in the National League. For teams like the Reds, the Pirates and the Cardinals you can practically write your own ticket. The Dodgers are 2 to 1 and the Braves can be had at the same price.
In the American League there is no favorite. Yanks, Red Sox, White Sox and Tigers are all 2 to 1, and you can have your pick. The gambling element believes none of these four clubs has a chance.

Red Sox Want Wally Schang
Manager Barry Anxious to Make a Trade With Connie Mack
New York, April 14.—Among the Red Sox a story is in circulation tonight that Manager Jack Barry is ready to make a trade of some kind with Connie Mack for Wally Schang, the Athletics' star catcher. Barry and Schang are old friends. Schang recently had some trouble over a new contract and is said to be anxious to play in Boston.
Barry, if he can swing the deal, is prepared to part with a catcher, a pitcher, an infielder, and an out-fielder for Mack's noted backstop, so the story goes. There may be nothing in it, in as much as Mack considers Schang the best catcher in baseball not excepting Schalk, of the White Sox.

Had Severe Cold
PAIN IN CHEST
SPASMODIC COUGHING
Many people when they contract a cold do not pay any attention to it, thinking perhaps it will pass away in a day or two. This is a mistake for before they know it, it has settled on the lungs. Too much stress cannot be laid on the fact that on the first sign of a cough or lumps, cold it must be gotten rid of immediately, otherwise it may cause years of suffering from some serious lung trouble.
Mr. A. George, 30 Blevin's Place, Toronto, Ont., writes: "Having greatly benefited from your remedy, Dr. Wood's Norway Pine Syrup, I take the liberty to write you a few words about the effect of that wonderful syrup. Two years ago I caught a severe cold followed by a spasmodic cough and pain in my chest. I was treated by many doctors but without any benefit, and also took many proprietary medicines which all failed to cure it. One of my friends recommended Dr. Wood's Norway Pine Syrup, and after using three bottles I was cured. I recommend it to anyone as a God-sent remedy."
"Dr. Wood's" is put up in a yellow wrapper, three pine trees the trade mark price 25c and 50c.

Sportsmen in New York Endeavoring to Form a Sportsmen's Battalion
New York, April 13.—Following the lead of Canada's athletes, the sportsmen of New York are bending their efforts in the formation of a sportsmen's battalion, under the leadership of Bob Edgren, sporting editor of the New York World. Already, Mr. Edgren says a sufficient number of athletes have applied for enlistment to make up a full battalion.
Among the applicants are a galaxy of ring stars whose names are known internationally. This list includes such champions and near champions as Benny Leonard, Leach Cross, Irish Paddy Cline, Jimmy Duffy, Stanley Ygakuin, Soldier Barfield, and Eddie Wallace. Dan Morgan, the energetic publicistic impresario, wired today from Hot Springs, placing himself and his entire stable of fighters at the disposal of Uncle Sam and other managers and promoters have announced their intention of following.

H. O. Bonk, who has been physical director at the St. John Y. M. C. A. for the past three years, has resigned his resignation to become effective July 30. Although the resignation was received at the board of directors, it was not made public until last night, when Mr. Bonk, in a brief address announced to the boys of the Bible study groups at their annual banquet, that he would go to new fields, August 1.

Jacobson to Join the Toronto Club
Former St. John Player Has Been Let Out By Chicago—Lacks Experience
Toronto, April 12.—Two new out-fielders will join the Leafs tomorrow. The Toronto Baseball club will leave nothing undone to have its team well balanced and strong enough to make a fight for the pennant from the day the season opens.
President McCaffery announced last night that outfielders Jacobson and Lynch had been secured from the Chicago Nationals yesterday. Jacobson was discovered in the Texas League, that home of good ball players, by "Sinister Dick" Kinella, the New York National League scout. McGraw took him up and turned him over to Rochester last spring. When McGraw got "Heinie" Zimmerman from the Cubs, Jacobson was one of the players who went to Chicago in the deal. Jacobson is a youngster who can field and run bases quite well enough for international purposes, but who lacks the experience necessary for the big show.
At least two capable pitchers are needed by the Leafs to round out a formidable team. President McCaffery is now in Detroit, where the Tigers and Cleveland are playing a series. The much needed fingers will be landed, one, from Detroit or the Indians, from some other club.
Note—Jacobson is well known in this city, having played with the St. Croix club in the New Brunswick and Maine League and later with the Marathons.

LABOR AND BUILDING SHIPS
To the Editor of The Times:
Sir—In the Times of April 12 is some information on the above subject, that perhaps we can do something to. About the time of the Marco Polo's construction at the Marsh bridge yards a person who iron-kneed that vessel, said at the time to be the first ship to be so strengthened. When launched she ran that her stern had formed a wedge-like shape on the outside stern, thus giving the ship as free an entry on leaving the water as the bow form had for leaving the water.
The iron knees without breaking took the strain where wooden knees would have broken, and in this sharp form behind she became the fastest vessel of her period.
The builder of the iron knees at the time or thereafter had imparted to us that the trouble then brewing—a ship-laborers' strike—was likely to drive the trade from the city, as there had been two or three strikes in quick succession, and on the last effort did effect what the iron-knee worker feared, as all the hullers concluded to give up the business together, and thus the ship-building workers scattered away from St. John and entered other occupations or found work in the States or Nova Scotia where I have noticed in later years

ONCE UPON A TIME
A little girl ran away from an orphanage. She ran as far and fast as she could, until she reached what she thought was the very end of the world. Then she stopped, not because it was the end, but because there was a man standing in her way. And she liked the man! This is the charming love story that forms a background to the exciting incidents of WM. FOX'S winsome story of a waif's adventures.

LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW
You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison, are now told by a Cincinnati authority to use a drug called frezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the fingers.
It is a sticky ether compound which dries the moment it is applied and simply shrivels the corn without inflaming the skin. It is claimed that a quarter of an ounce of frezone will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus.
You are further warned that lotting at a corn is a suicidal habit.
J. S. CLIMO.
Refuses to Surrender.
An officer, writing in Flying, pays high tribute to the bravery of enemy airmen, who, he says, have a chivalry of their own in their combats over the lines. "As for bravery, I saw a German plane winged, and falling slowly, but inevitably, into our lines. The occupants were two young officers who refused to surrender. Firing a machine gun among our infantry who were waiting, rifle in hand, as the aeroplane came within 150 feet of the ground. We were reluctant to kill men so brave, but they insisted on fighting to the end, and both were instantly riddled with bullets. It was a sublime tragedy of valor, and powerfully impressed all who witnessed it. Men have never died more finely than those two German officers."
