Genuine - PURE

Genuine diamonds—pure stones—are valuable. Imitations are worthless. To the average man it is hard to tell the difference. When we buy diamonds the name of a reliable merchant is our guarantee for a genuine—pure—stone.

So with cigarettes. Pure tobacco in the cigarette you are going to make your regular smoke is a valuable asset to health. Cigarettes made of added ingredients are only imitations—naturally pure tobacco cannot be improved upon.

Why experiment with cigarettes any more than you would with diamonds? Smoke CRAVEN "A." This name on a cigarette is your guarantee of purity.

Pure, mild, high grade, selected Virginia leaf. Properly mellowed by age, and correctly blended to bring out all the best qualities of the tobacco in the different grades used.

You cannot buy a finer or purer Virginia cigarette than CRAVEN "A" at any price.
