

NEW ECONOMIC SYSTEM NEEDED, SAYS SPEAKER

F. S. Ross, Toronto, Predicts Vaster Dollar, Not Vaster Empire

TORONTO, Oct. 22.—Increased value of the dollar would be the result of an economic system which is called "equilibrium" according to F. S. Ross, K.C., who addressed the Empire Club here yesterday.

Mr. Ross prophesied not a vaster empire, but a vaster dollar.

"It is not new men or new leaders, that we want," he said, "it is new economic system. I wonder indeed that our public men do as well as they do under our faulty system. What we lack is a knowledge of the laws of human association. We could all be rich with a fraction of the world's present wealth."

"This plan," Mr. Ross said, referring to "equilibrium," "demands pure money, that is, money that is free from tribute and has purchasing power but not command power. If you allow individuals to own natural resources and charge a tribute for their use, equilibrium can not come into existence."

HUMAN WORK BASIS

The basis of the new dollar would be not a bushel of wheat, but one hour of adult human work. "That word 'work,'" said Mr. Ross, "seems to terrify many people, but I mean by it nothing but pleasant useful service. The object of trade and business is to exchange services. If all the cheques on the continent were brought together they would cancel one another. But this system of exchange is cluttered up with goods. A commodity basis for the dollar is what is driving the world over the abyss. We have a result unit instead of a work unit, which means work for work, service for service."

HUSBAND: "Don't bring me any bills. I can't face them."
His wife: "You needn't, darling. I only want you to foot them."

Premier King Is Lunch Guest Of Connaught

LONDON, Oct. 21.—Premier Mackenzie King had lunch with H. R. H. the Duke of Connaught at Clarence House today. The Duchess of Argyll, Lady Patricia Ramsay ("Princess Pat") and her husband, Captain the Hon. Alexander Ramsay were also present.

Wrinkles Disappear In Fifteen Minutes!

If you want to see wrinkles disappear from your face in less than 15 minutes, mix a spoonful of powdered tartar with a spoonful of lemon juice. Apply this soothing mixture to your face. Before your very eyes, while you watch in the mirror, the ugly marks of age will disappear like magic. It is most startling. Behold, now, what you looked like when you were young. Watch the "wrinkles" correct themselves. Enjoy the strange, delicious sensation of stimulation, support and plump, smooth firmness!

When you wash off the application, your face looks years younger. The effect is far better than that of a face massage. Tartar is so harmless you could get it. From your druggist you can obtain a package containing enough to bring the cost of each treatment down below three cents.

SAINT JOHN GIRL WEDS IN NEW YORK

Miss Gertrude M. Goode Becomes Bride of Edmund Charles Keating

Many friends of Miss Gertrude M. Goode of New York, formerly of this city, daughter of Wm. F. Goode of Worcester, Mass., will be very pleased to learn of her marriage to Edmund Charles Keating, of the brokerage firm of Keating & Roberts, New York City. The wedding took place at 3:40 p. m. on Oct. 16, at the church of St. John de Baptiste, Lexington avenue, and 76th street, New York city, the ceremony being performed by the Rev. G. J. G'Muir.

The bride was charmingly attired in her wedding gown of white satin and georgette, embroidered in sequins. Her train, which fell from her shoulders, was of Parisienne net. Her veil, which was edged with Chantilly lace, was arranged in cap effect with a bandeau of pearls. She carried a bouquet of Sweetheart roses and lilies of the valley.

The bride was attended by Miss

BRITISH MEDICAL ASSOCIATION CONDEMNES CERTAIN FOODS

The British Medical Association in 1924 unanimously condemned white flour and "refined" fancy cereals as a danger to civilization, for the reason that such foods increase bodily acidity and thus act as causes of tuberculosis, cancer, goitre, appendicitis and other terrifying diseases, unknown to savages who live on natural foods.

Sir Arbuthnot Lane, a world-renowned surgeon, and other British physicians, have formed a nation-wide association aiming to restore to Britain "old-fashioned" foods; whole grain flour and cereals, milk, fruit, vegetables, with less meat, white flour, fancy "port" cereals and sweets, to check the progress of disease.

Dr. Jackson has been teaching this truth for years. He invented Roman Meal to ensure to the people a whole grain cereal. Once a wreck, Dr. Jackson restored his own health by living on natural foods, nuts, fruits, vegetables, Roman Meal, milk, so that he has not had even a cold since 1912. He is dietetic editor, "Archives of Therapeutics," and advisor to "Defensive Diet League." Send for his free leaflet, "How to Keep Well," to Robert G. Jackson, M. RADIO SENDS 200 WORDS PER MINUTE

Editors in Montreal and London Exchange First Messages

Canadian Press Despatch.

MONTREAL, Oct. 21.—"It is a new giraffe put around the world for closer understanding between all men of good will." In these words Lord Burnham, chairman of the Imperial Press Union, greeted the inauguration today of the fastest wireless service in the world, the Beam system, between Montreal and London. Messages were exchanged at a rate of 200 words a minute and reception here was perfect. The inaugurating messages were exchanged between representative journalists of the two countries.

"In the course of years it seems the Atlantic will be entirely abolished and we shall be asking if the work of Columbus was really necessary," wireless the editor of the London Daily Telegraph, while other London newspapers sent greetings in similar vein in reply to those from this side.

The first message was from Lord Atholstan, Montreal, to Lord Burnham, congratulating the latter on the completion of this new link of Empire and paying tribute to the invention of Senatore Marconi and the engineers who had made the latest accomplishment possible. Lord Atholstan referred to the efforts Lord Burnham had made "to increase the efficiency of inter-Dominion communication within the Empire."

Lord Burnham's reply read in part: "It is the opening of a new era in the rapid transmission of news and the instantaneous communication of ideas. Its direct influence upon journalism and politics will be incalculable."
