

## TELLS OF RUSSIANS DYING OF FRIGHT

Labor Delegate, Back From Third Internationale

Wife Killed by Hardships, Says Lenin-Trotsky Government Worse Autocracy Than Under the Czar.

On the eve of his departure for Washington, where he said he would confer with members of congress and government officials, M. Schwartz, western labor delegate, who attended the Third International Congress at Moscow and was impressed by the Soviet authorities' related details, not brought out on his arrival here last week, which he said had caused him to change his opinion of the Lenin-Trotsky regime. Josie Mole, a Socialist writer, wife of Schwartz, who accompanied him to Russia, died in Reval in December as the result of imprisonment and a hunger strike she started to gain her release.

"I went to Soviet Russia believing in the Lenin-Trotsky government, but I have returned convinced that it is a worse autocracy than under the Czar and that instead of bettering the condition of the workers it has reduced them to a state of serfdom," he said in an interview at the Hotel Pennsylvania. "There is absolutely no freedom of action or expression, and the worst sort of class distinctions exist."

Mr. Schwartz brought out three cakes of soap which he said illustrated what he meant. "The Com-munists and higher government officials received highly scented, expensive soap, petty officials a cheap yellow make, while the rank and file of the people had to be content with a cake which resembled scouring soap. The distribution of food followed similar lines."

"I found the churches and icons had not been disturbed and I had an idea that Lenin and Trotsky were not interfering with religion," he said. "Investigation brought out that the Soviet authorities while they did not stop any one from attending church, had an edict that a communist could not be a religiousist. Therefore, any one going into church was immediately under suspicion as a possible counter-revolutionist and was subject to constant harassment by the officials and even death."

"As for freedom of action, the masses are subject to the constant beck and call of the authorities. A peasant setting forth the alleged accomplishments of the government, in which 15,000 men and women participated, was held in the open air in Petrograd for the entertainment of the foreign delegates to the Third International. There were about 200,000 in the audience—all applauding frequently and loudly. I wandered about the great crowd and found that the population had been ordered to attend the peasant and applaud. The few who dared stay at home were later punished, I learned."

Mr. Schwartz said his troubles started when he offered the late John Reed, who had risen to power in the affairs of Russia, Reed's strong position he attributed to the stories told by the American that the United States was on the verge of a revolution and that the Communists were gaining converts by the thousands almost daily.

"Trotsky, in the presence of Reed, asked me about America turning 'Red,' and inquired how soon the revolution would take place. I replied that I expected the American workers to be the last to join the Communist cause."

"Reed jumped up and angrily demanded to know why I had made such a statement, and I added that the Communist Party did not exist in America except under cover and not openly as he had told Trotsky. I reminded him that the American workman was being highly paid even now that the war was over."

Schwartz said it was not long after this that he and his wife were arrested for being counter-revolutionists and taken to a hall in Moscow. Before his arrest, he said, he made a careful study of the situation, talking with the people and in their own language. He explained that he was born in Russia.

"They told me sad stories of suffering and oppression on the part of the workers who had promised them a government for the worker," he said. "The people are dying not so much from starvation as from a terrifying fright of what the government will do next. The extraordinary Commission metes out death sentences without trial by the thousands, and no man dare say a word."

Mr. Schwartz said that extensive plans were made at the Third International for spreading the doctrine of communism in America and Canada. It was determined that John Reed should go to Canada and his wife to this country, bringing with them the book of instructions how to bring about the Red terror.

## WAR 'VET' TELLS HIS EXPERIENCE

"I Just Feel Fine All the Time," Says McDougall, After Taking Tanlac.

Howard McDougall, well-known carpenter and life-long resident of Harcourt, N. B., is still another who has cause to be glad that he was induced to give Tanlac an honest trial. Mr. McDougall is a veteran of the recent world war, having served overseas for more than two years with the famous 28th Battalion, Canadian Expeditionary Force, and participated in a number of the hardest fought engagements. Here is his statement regarding Tanlac:

"Ever since I returned from overseas about two years ago I have been in a mighty bad fix, that is until I got Tanlac recently. I suffered terribly with indigestion all the time, nothing fasted good to me and my appetite was so poor I couldn't eat half a meal. I suffered dreadfully from bloating, would wake up every morning with a severe headache and some days it wouldn't leave me at all. I had such awful pains in my back every morning it felt as if it would break in two when I stooped over, and it would be late in the day before the pain began to ease up. I didn't know what it was to get a good night's sleep and I simply felt miserable."

"One day one of the boys where I was working told me about the good Tanlac had done him, and got me started on the medicine also. Well, sir, it just knocked my troubles sky high and put me in the best of health. I'm eating great now, my stomach never troubles me, and I'm picking up in weight right along. I sleep good and sound every night, never have an ache or a pain and just feel fine all the time. I don't know what it is, but there's something about Tanlac that certainly does the work and I can't speak too highly of it for what it's done in my case."

Tanlac is sold by F. W. Munro, and the Ross Drug Co., L. C. Allingham, Campbellton, N. B.; T. H. Wilson, Fairville, N. B. (Advt.)

## The Trying Days

It has been well said, a school teacher has more influence in shaping the lives of her scholars than their parents.

How necessary, then, is it that she should have a bright, clear brain, and be strong and vigorous in order that she may give them of her best.

The worry and the work, the strain and anxiety of a teacher's life are such as tell severely on the nervous system. Time and again we have heard of teachers giving up good positions on account of a weak heart, run down health and shattered nerves.

To such Milburn's Heart and Nerve Pills come as a boon and a blessing. Their purpose is to make the weak heart strong and the shaky nerves firm, and thus build up the entire system to full strength and vitality.

Miss L. E. Hopkins, Kirkton, Ont., writes:—"I have used Milburn's Heart and Nerve Pills for weak heart. I was so nervous I had to leave school for two years. After I had taken five boxes of the pills I was able to go back to my school again, feeling in good health."

Milburn's Heart and Nerve Pills are 50c. a box at all dealers, or mailed direct on receipt of price by

### BETTER SALES OF KNIT GOODS

Retailers Buying Hosiery but Spring Underwear Too High — Production Improves.

(Toronto Globe)

Woolen and knit goods manufacturers are operating on a somewhat more active schedule than earlier in the year. Domestic trade conditions are picking up gradually. The makers of high-grade suitings are operating on a basis of fair activity. The machinery for production of blanket cloth, flannel, etc., is inactive, and the producers are looking for export business to restore busier conditions. The fact that made-in-Canada suitings and overcoats are being favored by wholesalers and retailers is bringing these goods more prominently before the public and in gaining for them the reputation that is their due. The outlook for fine serges and tweeds is favorable as compared with certain other sections of the woolen industry.

Respond to New Prices.

The position of the knit goods industry improves in degree as the retail trade continues to place orders for fall delivery. Spring underwear is the lagging in the knit goods trade, and there appears no prospect of substantial betterment until price schedules are reduced. Early purchase of raw materials at high prices is the reason for the maintenance of high quotations on spring underwear. Prices on both spring and fall hosiery, as well as fall underwear, vary in comparison with those of last year in degree as material or wages enter most largely into the cost. Where materials are a large factor the reductions are most pronounced and vice versa. The retailers throughout Ontario have to a large degree to be done by the manufacturers' representatives based on the current low prices of raw cotton and yarns, the tendency is to anticipate normal requirements.

Prices Then—And Now.

On one line of men's mercerized hose for spring delivery \$4.25 is being quoted, comparing with \$6.75 last year. A line of women's cotton hose is offered at \$3, comparing with \$4.85 previously, while a good grade of mercerized hosiery is marked at \$6.50, in contrast to the former price of \$9. The above comparative prices are fairly typical of the changed situation in hosiery. Incidentally, a larger proportion of the business appears to be recovered confidence. Where prices are sensitive with the retailers, and in all quarters a satisfactory business is reported.

Underwear for fall delivery is also selling quite well, and the manufacturers are assured of having a fair degree of activity for the coming months.

### USED GASOLINE TO CLEAN FURNITURE

Introduced Lighted Match and Result Necessitated Call for Firemen.

(The Montreal Gazette)

As a result of carelessness with twenty-five cents worth of gasoline, purchased to clean the furniture with, the home of William Gorman, 87 St. Benoit street, was visited by a painful experience at 3:17 p. m. on February 23rd. As stated to the Free Commission yesterday, Mr. Gorman had cautioned his brother-in-law who was about to help him in polishing up the furniture, to be careful with the gasoline, but notwithstanding this reminder his brother-in-law had thoughtlessly brought a lighted match in contact with the explosive, the result being burns which necessitated his going to the hospital and a fire which rearranged the residence to the extent of \$400, before the firemen could be got there to subdue it. A particularly unfortunate feature of the accident was that Mr. Gorman was just getting a home together in newly married life and had no insurance on his effects.

The list yesterday included another of the "wardrobe" fires which figure not infrequently in the commission records. In this instance the mystery occurred in the residence of Alfred Ceral, 100 Mount Royal Ave., at 1:40 p. m. on February 24th, it being shown that the family were going out for the afternoon and that there were visits to the wardrobe in consequence. Mr. Ceral not being sure whether he was smoking when he went there or not. The fire was discovered by a passerby and they were managed to contain the damage to \$500.

Another small fire in the residence of M. Cechelin, 67A DeGaspere street, 9 p. m. on February 24th, was shown to have occurred from an overheated stove pipe, and another in the cleaning and pressing establishment of Jake Zellmer, 197 Demontigny street, at 8:40 p. m. February 23rd, was traced to an electric iron which burned a hole through a table after the proprietor left the place, about seven o'clock.

### A Message to Skin Sufferers

For years perhaps you have had to endure a result of carelessness, humilation, or even daily torture and sleepless nights, because of some skin disease. Times without number you have followed some hopeful advice and each time you have met only disappointment and despair.

"Who knows?" you ask, "Whose advice may I follow?"

Here is a frank and honest answer:

Reputable physicians admit they can only guess at the true cause of skin disease. Some say it is a blood disease—to be treated through the blood. Others say it is a skin disease—to be treated through the skin. But they are not sure and we would be foolish to try to follow what even science does not know.

We can tell you, however, about a doctor's prescription for skin disease that has been successfully used for 25 years, and we have used it to read letters from those who have used it.

A Doctor's Prescription

D.D.D. is the prescription of a physician, Dr. D.D.D. has no first prescription to his neighborhood patients 25 years ago. Today it is as effective as then. It is not a compound of well known healing and soothing ingredients, such as thymol, oil of wintergreen, etc. We make no extravagant claims. We say only this: That for 25 years, day after day, letters have simply poured in—without our suggestion or solicitation—telling us of gratifying restored health and happiness.

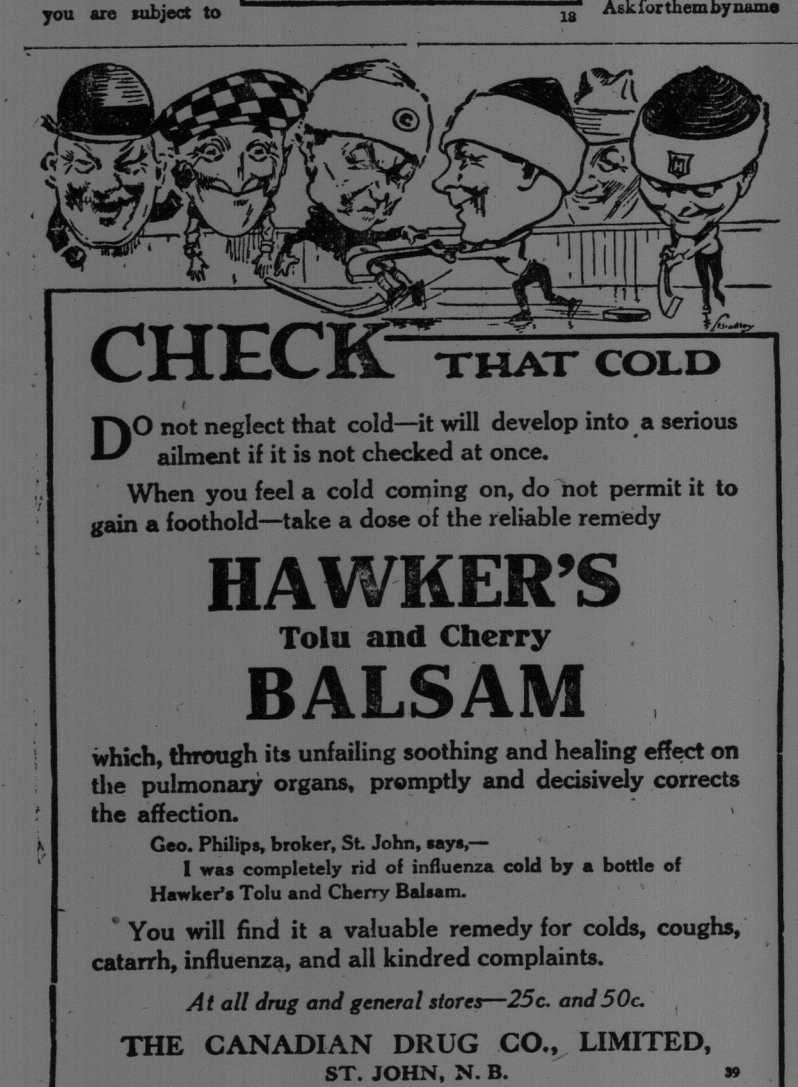

D.D.D. Prescription will be found effective in cases of Eczema, Psoriasis, Ringworm, Itch, Hives, Rash, Acne, Dandruff. Rub the ointment on the affected parts, in all cases, D.D.D. gives relief from itching upon the first application.

### Are you subject to racking headaches or attacks of Neuralgia?

Do you have them regularly, every week or so? Ordinary headache remedies, that merely dull the pain, do no permanent good. ## WOULD SAFEGUARD ALL MARRIAGES

Dr. Forbes Godfrey Introduces Bill in Ontario Legislature.

(Toronto Globe.)  
Dr. Forbes Godfrey's bill providing for compulsory medical examination of all persons contemplating marriage in Ontario met vigorous discussion yesterday in the legislature, and finally was laid over for possible reference to a select committee of the house.

The member for West York made a strong plea for sympathetic consideration by the government of his advanced measure, and in his advocacy won the support of Liberals and Conservatives alike.

Premier Drury, while expressing himself as thoroughly in favor of the principles of the bill, took the ground that the time had not arrived for the enactment of such legislation.

Lead to Illegitimacy.

The object of the bill, said the Premier, was admirable.

"But, to my mind, compulsion would be unthinkable," he proceeded. "There would be two effects; it would be a great wrong to the feelings of many an innocent person, and it would drive those suffering from these conditions into illicit relations. I would expect to see following this measure, an outbreak of illegitimacy as a direct result of it."

The only practicable solution of the problem, Premier Drury thought, would be to conduct a campaign of education that would open the eyes of the people. He suggested that the bill be laid over until next session.

"I am not going to withdraw this bill," responded Dr. Godfrey. "I am going to ask for years and years."

Goes to Select Committee.

Hon. G. Howard Ferguson, compiler of the member for West York, on the splendid missionary work he had performed along the lines indicated in the bill. Hon. Ferguson suggested sending the bill to a select committee, a proposal agreed in by the premier and the opposition.

C. F. Swayze, Labor member for Niagara Falls, said he was glad to see a medical man who was brave enough to introduce a bill of the nature of Dr. Godfrey's. Something, he said, would have to be done to correct existing evil. Mr. Swayze, however, feared such a bill would be impracticable, in that it would be enforceable on the borders of a joining states and provinces.
