No Relief From the Pain Until
She Took "Fruit-a-tives"

Campbellville, Ont., May 5th, 1913.
"I cannot speak too highly of 'Fruit-
a-tives.' For over thirty years I have
suffered from chronic Neuralgia and
Constipation, experiencing untold agony.
The Neuralgia settled in my lungs and
I took bottles of medicine without relief.
The doctor told me I would not get bet-
ter, but 'Fruit-a-tives' proved that the
doctor was wrong by giving me quick
relief and finally and completely curing
me."

"I would not have my present health
if it were not for 'Fruit-a-tives' and I
am glad of this opportunity of giving
you this letter about such a splendid
remedy as 'Fruit-a-tives.'"

M. P., for Picton, who passed through
the city last evening.

Sir Wilfrid will be accompanied on
his western trip by F. B. Carvell, M. P.
Hon. MacKenzie King and Hugh Guth-
rie, M. P. While in the maritime provin-
ces he probably will address two meet-
ings in New Brunswick and two in Nova
Scotia.

A WOMAN'S BARGAIN TIME.
The annual summer clearance sale at
F. W. Daniel & Company's, begins
Thursday morning, July 23. Prices and
even costs will be sacrificed where a
clearance of summer goods is necessary.
Every department has orders to
clear decks and make room for goods
coming in. Do not forget the sale begins
on Thursday. See advertisement, page 5.

SUMMER ADVERTISING PAYS.
Too many business men have allowed
the quitting habit to interfere with sum-
mer advertising. There never was a ses-
son for it. If a cold cure—Laxative
Bromo Quinine—can be successfully ad-
vertised in summer, surely your goods
should be featured all the time. The
Laxative Bromo Quinine people quadru-
ple the space used in summer, and as a
result increased their sales to seven mil-
lion boxes, requiring ten tons of quinine
alone—one-third of all the quinine
produced. Dull seasons come because you
quit and invite dullness. Quadruple your
space, advertise regularly and escape the
dull season.

The schooner Jennie A. Pickles on the
rocks at Chance Harbor has been visited
by looters and puncheons of molasses

were emptied while the empty casks
were taken, probably to be used for
packing fish. The cabin was ransacked
and the captain's trunk which had been
placed in a small building on shore, was
broken into and all that had been saved
from the wreck was stolen.

made just like new.

THE GURNEY-OXFORD
is the friend of
the family

THE Gurney-Oxford nears
perfection this year.

It has many splendid
points, of which these are the
most important—

The Gurney-Oxford Econo-
mizer (not to be had on any
other stove) is such a
convenient method of regulating
the fire and saving fuel that
it certainly should be on the
stove you buy.

The fire is supported on grates
that supply lots of air; coal
doesn't smoulder, it burns,
leaving clean, clear ashes—
not clinkers. Clinkers mean
waste.

The heat goes directly to the
oven where it should—over
and under and around the oven,
heating it evenly in every
corner. It can't get up the
chimney; it must do its work.
These, briefly, are the devices
that make the Gurney-Oxford
the most perfect piece of stove
mechanism ever devised.

THE Leading STYLES

We've a reputation to sustain.
The clothes we sell must be
right—must measure right up
to our set standard—before
they leave the house.

They'll stand critical inspec-
tion just for this reason. Fur-
thermore, we won't handle
clothes that are not known—
that are not advertised.

If clothes are advertised year
after year and the sales keep
on growing—just put it down
that they're all right—that
they will stand the test.

If you want good, reliable
clothes—come to us. We
won't sell any other kind.

Your Chance to Become a Partner In FUR PRODUCERS LIMITED

Biggest Fox Ranch in The World

The biggest Company in the world with the best foxes and the lowest ranching cost. Fur Producers Limited has an expert rancher, competent assistants, a qualified veterinary and a modern equipped ranch.

What is more, the Company will be the most influential of its kind, with world-wide connections. You will have better chances to secure a good average dividend in a Company with one hundred foxes, as a better average can be secured.

Then, again, administration expenses will be proportionately less in a Company the size of FUR PRODUCERS LIMITED. And any person will appreciate the fact that the stronger the organization the better the protection, and the greater are the possibilities for profits.

The greatest feature of all is the fact that the Fur Farmers' Bureau and Exchange, Ltd. (with its organization of nearly one hundred men, located in Canada, Europe and the United States) stands back of this proposition, and have given it their seal and sanction.

The Fur Farmers' Bureau has never in its history handled anything but strictly "Class A" propositions of the highest type—pure Prince Edward Island Silver Black Foxes.

The Fur Farmers' Bureau employs a board of experts to investigate every proposition they become identified with it, and this certainly protects the investor.

The Fur Farmers' Bureau also markets the product of the different ranches they are connected with, and this means protection—safeguard—dividends.

THE BIGGEST COMPANY

WITH THE SMALLEST EXPENSES

Can you conceive of a stronger combination than the biggest company in the world with the smallest expenses. One means the other, and both mean the same thing—business economy.

Any one and everyone will admit that the expenses in a company with one hundred foxes will be proportionately less than a smaller one; inasmuch as only one night watchman will be necessary in FUR PRODUCERS LIMITED in place of ten night watchmen in ten five-pair companies. R. F. also saves the cost of buildings to house the watchmen and caretakers. One man can just as well look after twenty-five pair of foxes as five pair, and the cost of food in large quantities will be proportionately less to the shareholders of FUR PRODUCERS LIMITED.
