Take them regularly—before meals and at bedtime—give the intestinal fruit juices a chance to regulate your system—and you will be cured. 50c. a box, 6 for \$2.50, or trial size, 25c. At all dealers, or from Fruit-A-Tives Limited, Ottawa.

## AMUSEMENTS IN ST. JOHN: WHAT THE PLAYHOUSES OFFER

### OPERA HOUSE.

The return engagement of the Kinema-color pictures at the Opera House last night was greeted by a large and highly appreciative audience, the pictures, which were presented as photographed in natural colors, being the most remarkable of the kind ever presented to a St. John audience. The programme, consisting of ten numbers in all, was interesting and instructive, comprising, very largely, subjects of national interest. The beautiful natural coloring formed, of course, the most striking feature, and whether in landscape, water, architecture, costume, or the human features, was wonderfully true to nature, even in matters of minute detail, adding greatly to the general effect of the pictures, this being particularly true of the hunting scenes at Exmoor, Lord Kitchener's review of the Egyptian troops at Khartoum, the arrival of the Canadian contingent at Liverpool, the investiture of H. R. H. the Prince of Wales at Carnarvon Castle, July 13, 1911. The two last pictures were particularly interesting. Every appearance of royalty was greeted with loud and prolonged applause. The second number, the arrival of the Canadian contingent at Liverpool, was also accorded a most enthusiastic reception. The Kinema-color pictures will be shown at the Opera House all this week.

**THE GEM.**  
"Thanksgiving Day at the Gem Theatre was observed with a special programme, which 'The Three Musketeers,' 'The Famous Story of French Court Life,' was one of many interesting features. The story was told in two reels of film cleverly acted by the Edison Company. The pictures gave much satisfaction and enjoyment to the patrons at every show. It is to be regretted today with the two new pictures, 'The Many Beggars,' and 'The Many Beggars,' which created so many hearty laughs yesterday, Miss Butler will be heard again in 'The Game of the Thorns and Roses,' in which she made a good impression yesterday, and the company will have some new pieces.

**CROWDED ALL DAY.**  
The Nickelodeon capacity business yesterday. Morning, afternoon and evening there were great crowds of people at a large waiting list. The 'Thanksgiving Day' show was a good one. A feature was Miss Break's singing of 'The Song of the Soul.'

## A MARVEL OF HEALING

Salt Rheum of Ten Years' Standing Healed as if by Magic—Hands Cracked, so Could Not Work—Cures Effected by Dr. Chase's Ointment

It does not take long for Dr. Chase's Ointment to prove its magic healing power. A single night is often sufficient to produce the most startling results. Internal treatment for skin diseases is nearly always disappointing. By applying Dr. Chase's Ointment to the diseased parts relief is obtained almost immediately, and gradually the sores heal up and disappear. Here are the letters which will interest you:  
Mrs. Chas. Gilbert, Haystack, Placentia Bay, Nfld., writes: "I was suffering from Salt Rheum for ten years. I had almost despaired of ever being cured, so many treatments had failed. Reading of the wonderful cure effected by Dr. Chase's Ointment, I commenced using it, and was entirely cured by eight ointments. I want to express my gratitude to Dr. Chase's Ointment, and to recommend it to all sufferers from skin diseases."  
Mr. Stanley Merrill, Delaware, Ont., writes: "For years I was troubled with my hands cracking, often becoming so sore that I could hardly do any work. I got some of Dr. Chase's Ointment and happily find that one or two applications of same to the affected parts make them well. I have had no trouble since using the ointment for some time."  
Dr. Chase's Ointment, 60c. a box, at all dealers, or Edmanston, Bates & Co., Limited, Toronto.

## Don't Persecute your Bowels

Get relief at once from Constipation, Indigestion, Biliousness, Headache, Nervousness, and all Bowel Disorders. **CARTER'S LITTLE LIVER PILLS.** Purely vegetable, gently on the bowels, and will cure all Bowel Disorders. Small Pill, Small Dose, Small Price. Genuine must bear Signature.

Registered without which none are genuine. No lady should be without them. Sold by all Chemists & Druggists. **APOL'S LITTLE PILLS.**

## APPLE SHOW GOOD EXHIBIT

Opening in St. Andrew's Rink Last Evening With Addresses By Hon. Dr. Landry, Hon. Mr. Maxwell and Prof. Blair

The opening of the second annual apple show of the New Brunswick Fruit Growers' Association in St. Andrew's rink last evening was attended by a very large and interested crowd who were delighted with the excellent display. In the absence of Hon. J. K. Flemming, the premier, the exhibition was declared formally open by Hon. D. V. Landry, minister of agriculture, and addresses were also given by Hon. Robert Maxwell and Prof. W. Sackby Blair, of Macdonald College, one of the judges at the show.

Although St. John people who attended the apple show of last year were somewhat prepared for the revelation of the possibilities of the province as a fruit growing factor, those who visited the rink last evening were unanimous in saying that the present exhibition far eclipsed last year's display, thus showing a growing interest and improved methods by the members of the association and the farmers generally. The exhibits, occupying the entire floor of the rink, have been arranged in an attractive manner. Long tables in the middle of the room contain the displays from ten counties including plate collections and preserved fruits. Specimens of fruit grown on the government demonstration orchards and photographs and diagrams, illustrating the work are shown in the centre. A spraying exhibit where demonstrations will be given and a display of nursery stock are shown to the right of the entrance, and along the right-hand side is a splendid collection from Carleton County, and one from Albert is also shown. The far end of the rink contains a display of 700 boxes shown by the department of agriculture and on the left side are the private exhibits in boxes. An information booth and a consolidated school exhibit complete the show.

President Blair took the chair to call the gathering to order soon after 8 o'clock last evening and called on Hon. Dr. Landry for the opening address. The commissioner for agriculture expressed his pleasure at being present and spoke of the growth of the association which now has 119 members, as compared with 29 three years ago. He read extracts from the admirable comment of experts on the opportunity for successful fruit growing, and paid a tribute to Mr. Turner for the activity which he had displayed.

There were now twenty-one orchards in the province and one of them had proved such a success that the yield this year was about 2500 barrels. Some of the best exhibits from the show would be sent to Toronto, and hoped to arouse interest among Ontario fruit growers in the New Brunswick land.

At the close of the show, Hon. Dr. Landry declared the show open, and Hon. Robert Maxwell spoke briefly, telling of the surprise of the people of St. John, who attended the first big show last year.

W. Sackby Blair, of Macdonald College, and formerly N. S., said the Brunswick had dated from the formation of the association, which was organized last year with considerable opposition, but the step had been fully justified by the results. Mr. Blair said the northern climate of New Brunswick produced the men and the land required for raising the best quality of apples.

## TRACKED BY BLOOD HOUNDS

Chas. Baker, Accused of Murder, Stands Off Pursuers But is Wounded and Captured

Gloversville, N. Y., Oct. 30.—Tracked by bloodhounds to Mountain Lake, a few miles north of here, Charles Edward Baker, alleged murderer of Norman Briggs, was shot down by members of a sheriff's posse composed of National Guardsmen, police and civilians, and lies on a cot in a local hospital. After an all night search in which the desperado seriously wounded one of the pursuing party, Baker was surrounded on the Washburn farm and, despite a desperate resistance, was brought down by a well directed volley.

When cornered he effected that same desperate-like pose which he has maintained throughout the chase, but it availed him nothing. Eight men, all sworn deputies, exchanged shots with him and one of the number wounded him in the right leg. He fell and was taken to the hospital on an improvised stretcher. Feeling is high in this section against the man, owing to his previous bad record and his recent defiance of law and order which culminated in the serious wounding of Policeman Follock and the injury to Under Sheriff Stoddard at Meadows.

True to his spectacular tactics of the past the fugitive made a very strong resistance when the guardsmen and deputies had him surrounded. One half hour before he was shot Baker was observed to cross the road at a point half way up the hill, going through the yard of Samuel Tabor. The police promptly followed. At the Washburn farm they encircled him and he made for the clearing, turning and firing as he ran.

Baker acted like a wild creature at bay more than a human being. His last stand was made near a small birch tree about one mile west of the Washburn farm. At this point he hesitated in his flight and with a coohee, either affected or natural, halted. Quickly he aimed and fired until the guns of his pursuers belched forth and he fell to the ground. The shooting then ceased and he was picked up. He retained his consciousness throughout. His first remark was "Have you any whiskey?" He was later asked by Chief Manion of Johnsons regarding the slaying of Norman Briggs and he answered calmly: "We were both drunk and quarrelled, and I shot my man, that's all there is to it."

Iron rust stains yield to the following treatment: Soak the stain in lemon juice, sprinkle with salt and bleach several hours in the sun.

## THE SITUATION IN TURKEY

The Father of the Faithful, Mahmud Fifth.—This picture, drawn by F. Marzani, is the London Sketch, from the most recent photographs of the Sultan of Turkey, is characteristic of the present situation. The latest actual studio portraits of Turkey's ruler are at least fifteen years old. This has been drawn from more recent street sketches and news shots. It is a difficult position in which the Sultan finds himself. He is nominally in command of a large and brave army, but it is held in leash because there is no navy to back it up.

## DENIES THAT SEMBRICH HAS LOST FORTUNE

Husband Says Untrue That She Must Return to Operatic Stage of Necessity

Berlin, Oct. 31.—A rumor has reached this city from New York that Mme. Marcella Sembrich, the celebrated coloratura singer, who, for many years, was one of the leading members of the New York Metropolitan Opera House Company, had been compelled to seek engagements on the stage once more. It is said that this is due to the fact that Mme. Sembrich has lost a large fortune during the last two years speculating in Wall Street, and on the Bourse.

Mme. Sembrich retired from her operatic career three years ago in New York. Her farewell reception given in New York's leading opera house was the greatest triumph ever paid to a singer. That Mme. Sembrich and her husband, Prof. Guillaume Sembrich, have been interested in the stock market to a great extent is an open secret, but the report that they have lost a fortune, and therefore, Mme. Sembrich has been compelled to go back to opera, came as a great surprise.

Prof. Sembrich laughed at the report, then said: "Why, the exact contrary is the case. So far from having lost a fortune in speculation in Wall Street or elsewhere, my wife is on the point of purchasing a new estate in Switzerland, where we are making our home since we have left Dresden, where we resided for a very long time. 'I cannot conceive how such a report got about, for there is not a word of truth in it. My wife will spend most of the winter in Russia, where we have arranged a series of concerts. Then we will rest a while in our home in Switzerland before going to America, where my wife has engaged to give more than thirty concerts next season. No, indeed, my wife has no idea of returning to the operatic stage. There is absolutely no reason for it.'"

## MORNING NEWS OVER THE WIRES

As Horace Mitten, who lives near Salisbury, was returning home on Saturday night, he was set upon on the covered bridge by a stranger, evidently for the purpose of robbery. He was struck with a heavy weapon, but got the upper hand of the man in the tussle that followed and checked him into submission. As there was no house in the vicinity he left the man and proceeded on his way.

L. H. Lier, Lake Umbagog, stranded in the St. Lawrence for three days, was pulled off yesterday. It required ten days and her own steam. There will be an inquiry into the cause of grounding. Charlottetown, P. E. I., Oct. 30.—Two bodies came ashore in a gasoline launch at Guernsey Cove this afternoon. The supposition is that they left New Glasgow (N. S.) on Sunday morning and that something went wrong with the engine and they perished. Nothing further can be learned.

## MR. COCHRANE'S PROMISES

North Bay, Ont., Oct. 31.—(Canadian Press)—Hon. Frank Cochrane, minister of railways and canals, said at a convention at North Bay, that it would be his endeavor to see carried out the pre-election promise of the Borden administration that the same immigration policy heretofore applied to western Canada, would be given to Northern Ontario.

He also promised that a subsidy to the Temiskaming & Northern Ontario railway would be considered. His opinion was that the provincial railway was entitled to the same consideration as a private company from the federal government.

## Not a Flake Broken

THAT'S one beauty of Tillson's Oats. Every flake is whole.

That's why porridge made from Tillson's Oats doesn't come to the table a sticky, jellied mass; but instead, as inviting to the eye as it is tasty to the palate and nourishing to the body.

Every flake is as thin as it can be rolled without breaking it.

That's why Tillson's Oats are cooked thoroughly in 15 minutes—no more. No all-night cooking, as it used to be with the old-fashioned oatmeal. No half raw porridge due to imperfectly rolled oats.

If you ever found porridge hard to digest it was because you made it from rolled oats containing coarse and fine particles, some of which were not cooked through.

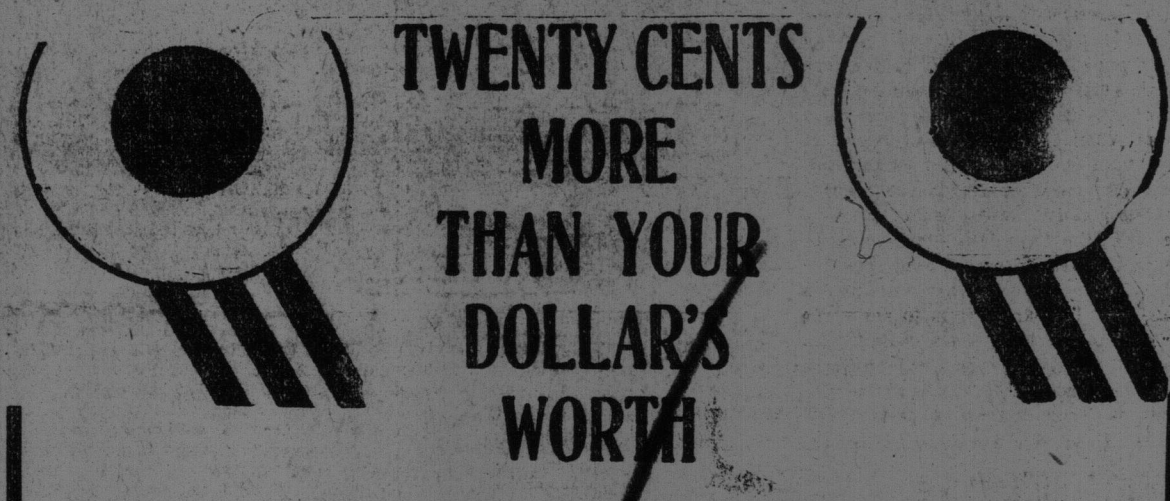

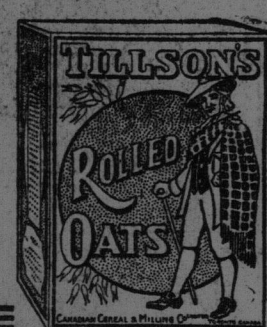

Compare Tillson's Oats with any others that you have been in the habit of using, and you will see and taste the difference.

Try them tomorrow.

## Tillson's Oats

Your grocer has Tillson's. Two sizes—10c and 25c. Each 25c package contains a handsome piece of English Porcelain Tableware.

CANADIAN CEREAL & MILLING CO., Ltd. Toronto, Ont.
