

THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, AUGUST 11, 1911

## The Evening Times and Star

ST. JOHN, N. B., AUGUST 11, 1911.

The St. John Evening Times is printed at 27 and 29 Canterbury street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act. Telephone—Private branch exchange connecting all departments, Main 2417. Subscription prices—Delivered by carrier, \$3.00 per year, by mail, \$5.00 per year in advance.

The Times has the largest afternoon circulation in the Maritime Provinces. Special Representatives—Frank R. Northrup, Brunswick Building, New York; Tribune Building, Chicago.

British and European representatives—The Coughlin Publicity Syndicate, Grand Trunk Building, Trafalgar Square, England, where copies of this journal may be seen and to which subscribers intending to visit England may have their mail addressed.

Authorized Agents—The following agents are authorized to canvass and collect for The Evening Times: Wm. Somerville, Elias K. Ganong.

THE EVENING TIMES  
THE DAILY TELEGRAPH

New Brunswick's Independent newspapers.

These papers advocate:  
British connection  
Honesty in public life  
Measures for the material progress and moral advancement of our great Dominion.  
No graft!  
No deals!  
"The Shamrock, Thistle, Rose entwined The Maple Leaf forever."

## THE WINNING TICKET

Last night's Liberal convention left no doubt in the minds of members of the party concerning the success of their candidates in the city and county of St. John. The convention nominated the winning ticket.

Hon. Dr. Pugsley desired to be placed where the fight would be the most keenly contested, and he will stand for the city which was previously held by the Conservatives. Whether his opponents be Dr. Daniel or another, there can be no doubt of the election of the minister of public works, who has done so much to build up the port of St. John, and whose further plans will bring about a far greater development of what he rightly regards and describes as one of the great national ports of Canada. Conservatives as well as Liberals, leaving reciprocity out of the question, recognize Dr. Pugsley's great services, and agree that his defeat at this momentous time in the history of the winter port would be a calamity.

Mr. James Lowell, M. P. P. J. has been unanimously chosen as the Liberal candidate for the city and county of St. John. The news will be received with the greatest satisfaction throughout the constituency. Mr. Lowell has been in the legislature for seven years, and was for years a valued member of the municipal council. In the last provincial election he defeated his highest Conservative opponent in the county by 374 votes. He is a man of honor, with an excellent record in public life. He has a reputation for carrying out his political undertakings, at least so far as hard work and earnest devotion to the welfare of his constituents may enable a man to succeed in his efforts in their behalf. The great reputation given him at last night's convention showed how heartily the Liberals of the city will unite with those of the county in electing him as the colleague of Hon. Dr. Pugsley in the next parliament of Canada.

The Liberal party of St. John entered upon this campaign with more assurance of victory than in any campaign for many years. Its great policy appeals to the people, and its candidates are very strong men, to whose support every member of the party will rally with enthusiasm.

## THE BUILDERS

It is worthy of note that while Dr. Daniel at the Hazen banquet last evening was lauding the obstruction of public business in Ottawa as a sacred duty, Hon. Dr. Pugsley at the Liberal convention was telling the people that three of the greatest British contracting firms had just submitted tenders for the construction of great harbor works at Courtenay Bay. Of these two public men, one represents obstruction, and "let well enough alone," the other represents progress and development.

The announcement that these three tenders have been received, each tender making a deposit of half a million dollars, marks the difference between the St. John of today and the St. John of even three years ago. Then Dr. Pugsley was affirming amid the jeers of the Conservatives that Courtenay Bay must become the scene of great harbor development; now he has at his disposal half a million dollars voted by parliament to be expended at Courtenay Bay, and the contract will soon be awarded for the construction there of a dry dock and ship repair plant, breakwater and wharves.

Dr. Pugsley laughingly observed last night that the Standard did not appear to be able to see anything more than promises as a result of his efforts. Yet there was a wharf and warehouse on the west side; there was the dredging at West St. John and in the harbor channel; there was the drill-hall now being erected, and other indications of promises fulfilled. Though the minister did not say so, it was the Conservatives who always promised and never performed, so far as development at St. John was concerned, and it is only under Liberal rule that St. John has received due recognition as a winter port and one of the great national ports of Canada. The most hardened Tory cannot deny this statement. The development of Courtenay Bay is merely another forward step in the great Liberal policy of building up Canadian trade and Canadian ports.

## BRING THE PEOPLE BACK

One point which Hon. Dr. Pugsley dwelt upon last evening, and to which this paper has several times referred, was that of relative growth east and west. Canada as a whole enjoys great prosperity, which is shared in a measure by these provinces; but they have not increased in population as they should have done, nor has real estate shown any such activity as the west reveals. There are several reasons for this state of affairs. One, and the chief cause of comparative dulness in the maritime provinces, is the lack of a larger free market for the farmers, lumbermen and fishermen. Give them that boon, and there will be a great revival of enterprise in these provinces, similar to that which followed the adoption of the old reciprocity treaty.

Because Dr. Pugsley directed attention to conditions which everybody knows to exist, the Standard describes him as a "knocker," but he who points out what is needed and how to get it is the most practical kind of a booster. Reciprocity will result in larger production in all the great natural industries; it will cause real estate to advance steadily in value; it will give a new impulse to enterprise of every sort, and will bring many an absent one back to the old home. That is why the people so heartily approve of the agreement.

## REV. DR. PHILLIPS

The news of the death of Rev. Dr. Phillips will bring to very many people a sense of personal loss. There have been few kinder men than this gentle minister whose sympathy went out to every sufferer without regard to creed. Dr. Phillips often said that had he not entered the ministry he would have loved to be a member of the journalistic profession. Had he done so, those who knew and appreciated his kindly humor, his bright fancy, his intense hatred of what is low and mean in human life, and his ability to give clear expression to his thoughts, do not doubt that he might have left a literary memorial of permanent value. He lives, however, in the memory of many who loved him for his fine personal qualities, and for the fine Christian spirit he ever manifested in his ministry and in his daily contact with his fellowmen.

The dark days of the Conservative party hereabouts are sometimes illumined with feast and merry jest.

There are at least thirty counties in Quebec where the farmer is going to have his turn or know why—Montreal Herald.

Hon. H. R. Emmerson is nominated for the Liberal walk-over in Westmorland. He will probably have one of the largest majorities registered in the province in this campaign.

"Wait till you see what the Acadians will do with reciprocity," said Hon. Dr. Landry at the Hazen banquet last evening. But that is nothing to what they will do with Dr. Landry when the opportunity offers.

The Standard credits Mr. W. H. Thorne with expressing the hope last night that "the Hazen government" will continue until we can look forward with confidence to their successors." Most people are already looking forward in just that way, and also with a considerable degree of eagerness for the change.

Mr. H. J. Logan has accepted the Liberal nomination in Cumberland. That means a battle royal in a county of historic struggles in Nova Scotia politics. Mr. Rhodes must look to his laurels. Mr. Logan is the man to redeem Cumberland.

The Conservatives in Vancouver are having trouble. Mr. G. H. Cowan will not run again. Sir C. H. Tupper and Mr. C. E. Tisdell represent rival factions, and an effort is being made to compromise on Mr. H. H. Watson. The latter, however, is understood to be reluctant on account of his personal friendship with Mr. J. H. Senkler, the Liberal nominee.

The appointment of Mr. A. P. Barnhill as a member of the International Waterways Commission will be heartily approved by all who know his fine qualities of mind, his legal ability and those personal qualities which command respect and confidence. Mr. Barnhill has had valuable experience as a member of the St. John river commission, and will enter upon his new duties well equipped for their faithful and intelligent performance.

That the grower of Canadian fruits will get more for his produce if the reciprocity bill goes through is the opinion of Dr. W. H. Gidder, president of the Central Okanagan Land Co. of British Columbia. He says that fruit growers in Canada would get more for their fancy stock (apples being mentioned in particular) in the New England states, and that the producer would find a good market for the staple winter varieties in the cities of New York and Chicago.

Canada's total trade with all countries last year was valued at \$759,094,389. More than half of it, or \$404,137,940 was in trade with the United States. Does that fact lessen our loyalty to the Empire?

## "WELD US IN ONE"

When the crown is yet to set upon the purpose of thy power,  
And the mightiest page is yet to turn of all thy golden pages!  
O, lift thy towers to heaven, for thy work is not yet done!  
Nations, not shiver, this day,  
Bring thee their worlds and say,  
Keep thou thine ancient way,  
Weld us in one!

With tumult of multitudes, with trample of cavalry,  
With clangour of trumpets and brilliance of steel,  
Surging like an ocean thro' the channels of the City,  
Flows the single splendour of a world-wide Commonwealth,  
Rolls the single thunder of the royal flag of England  
Shaken to a thousand winds beneath the Eternal sun.

God of all power and might,  
Bless Thou our crown tonight,  
Make it our beacon-light,  
Weld us in one!

—From the Scripture with the Dove, by Alfred Noyes.

## IN LIGHTER VEIN

## FOX...

Mr. Pecked—(to himself)—I'll keep on smashing plates until my wife stops ordering me to wash up!  
Bang! Crash! Bang!  
Mrs. Pecked—(to herself)—I hope he will go on smashing the plates. I need a new dinner service so much!

## CORRECT IMITATION.

Swagger—There, that's something like a cigar—Yes, what is it?

## RAPID TRANSIT.

Stout Man—What is the quickest way I can get to the railway station?  
Boy—I should think the best plan would be to lie down and roll over about three times.

## A NARROW ESCAPE.

Actor—The people in this town don't understand acting. I'll be hanged, I'll never act here again!  
Stage Manager—You will, my boy. It was all I could do to keep the audience from lynching you tonight.

## HOUSE FLY FECUNDITY.

A female house fly which has hibernated in a dwelling house, or elsewhere, may produce in the spring, at the lowest estimate, one hundred and twenty eggs. Assuming that one half of these hatch as females, and allowing that the breeding goes on without check for four months, we have as the descendants of a single hibernating individual 214,567,844,320,000,000,000 flies. Now, a house fly measures exactly one fourth of an inch in length; the distance around the earth at the equator is said to be 24,860 miles. It would take, therefore, 3,688,312,000 flies placed end to end to go around the world once. Using this number as a denominator, and the number of flies produced in four months from one mother as a numerator, we find she will give rise, in the course of a summer, to enough flies to encircle the globe at the equator five thousand times, and have plenty of progeny to spare!—Popular Science Monthly.

## GENUINE BALATA BELTING

IS ALWAYS GOOD AND--

The Best Balata Belt Made

Although well known for its high quality, yet the price is in many cases little or no more than the best grades of Rubber or Leather Belting.

## INTO THE FRAY

(Montreal Herald)  
The white plume will not go forward without company, it seems. A sign of the devotion Sir Wilfrid is able to inspire comes from Nova Scotia, where Mr. A. K. McLean has come forward against Mr. Borden and where Mr. Hance Logan has undertaken to redeem Cumberland. Mr. Logan was the first to win the riding which Sir Charles Tupper once held as his chosen stamping ground. A great, handsome, manly fellow, with plenty of brains in his big head, Hance Logan was unbeatable until illness forced him to try a whirl at the simple life. After three years of it he feels fit again and has answered to the call Sir Wilfrid sent up when he came home.

Mr. McLean is another good one. He made a reputation at Ottawa for calm judgment and serene temper. He could run a committee till it worked like a well oiled machine. Not long ago he was called back to Nova Scotia to be Attorney-General in the Cabinet of Mr. Murray. He did his full share in the provincial election recently held, and then joined the Quebec bar, letting it be understood he meant to abandon Nova Scotia politics and practice law in Montreal, where so many Bluenose lawyers are doing well for themselves.

## THE BRITISH PRESSMEN

Charles Duncan Lucas, representative of Tit-Bits, who will visit St. John with the British pressmen on the 18th inst., is a native of the City of London, whose career as a journalist has been distinguished and varied. He is the only son of S. Bright Lucas of Glenbrook, County Cork, and a great nephew of John Bright and cousin of Lord Abercromby. His excursions in the field of journalism began when at the age of eighteen years, he was engaged to write a series of syndicate articles for publication. Since that time he has held many important posts in the journalistic world. The scope of his labors has embraced editorial work for C. Arthur Pearson, and in a like capacity he has contributed to the Tribune and the publications of Messrs. Cassell & Company. He was part proprietor and editor of the Near East and has earned distinction for his valuable services in connection with the Ottoman Empire. While Mr. Lucas has won recognition in the broad field of letters, his chief fame has been attained as a successful interviewer of notables. He has travelled extensively, and in his capacity has met and interviewed for publication many of the celebrities of the present day. Tit-Bits, with which he is now connected, is a publication the popularity and fame of which is not confined to any nation or continent. Tit-Bits has developed a vast region of its own. It was the first of its kind and the combination of pithiness and joyousness combined with sound reasoning, which pervades its columns, has created a new atmosphere and established it in the affections of thousands in all lands where the English journalist has still time for devotion to the social and recreative sides of life. He is a member of many sporting associations and clubs of London.
