AYER'S PILLS

FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

There has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been a desideratum for many years, and an extensive trial of its virtues has conclusively shown that success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should be taken judiciously. Many directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Langour and Loss of Appetite, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Lungs, for, in truth, all these are but the consequence of deranged action in the liver, and the patient hitherto that almost every purgative medicine is resorted to in the hope of obtaining relief. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously.
