THE LEGISLATURE.

IT IS OPENED BY THE LIEUTENANT GOVERNOR TO-DAY.

The Government's Bill of Fare For the Session.

The following is the speech with which the Lieutenant Governor opened the Legislature to-day.

"*Mr. President, and Honorable Gentlemen of the Legislative Council,*
"*Mr. Speaker, and Gentlemen of the House of Assembly,*

"I have much pleasure in meeting you in the Legislature convened for the despatch of public business.

"It affords me great satisfaction to be able to congratulate you upon the continued prosperous condition of business generally throughout the Province. The leading pursuits in which our people are engaged, I am happy to say, have been carried on profitably during the past year and even in the great lumber industry, notwithstanding prices have again declined in Europe, there has been, during the present season, more than usual activity in lumbering operations.

"I have some reason to hope that His Excellency the Governor General will be able to make a visit to the Maritime Provinces during the present year, and thereby become personally acquainted with this important portion of the Dominion. Should my expectations in this regard be realized, I am well assured that, as the representative of our Gracious Sovereign, as well as on account of His Excellency's many estimable personal qualities, he will receive a loyal and hearty welcome from the people of the Province.

"The subject of the rate of Stumpage imposed on the Licensees of the Crown operating on its Lumber Lands has been much discussed between my Government and the Licensees, and frequent attempts have been made by negotiation during the past year to arrive at an understanding which would afford some relief to this important industry, and at the same time would not necessitate a reduction in the usual grants for necessary public services. You will be fully informed of the nature of these negotiations, and I shall ask you to consider the propriety of appointing a Special Commission to investigate and report upon the whole question of Stumpage dues upon the Timber Lands of the Crown.

"I regret to have to inform you that during the recess the controversy over the right of property of the Provincial Government in the Fisheries in non-navigable waters upon ungranted Crown Lands has been re-opened by the General Government. Communications between my Government and that of the Dominion have taken place upon this subject, and I have given directions that the same shall be laid before you.

"The claim of the Province upon the Liquidators of the Maritime Bank to be paid in preference to other simple contract creditors, by virture of the Prerogative of the Crown, has been decided by the Supreme Court of Canada substantially in accordance with the contention of my Government, and, unless the case is carried by the Bank on appeal to the Privy Council, I have reason to believe the claim will be paid at an early day.

"The important Act passed at the last Session of the Legislature, in amendment of the Electoral law, having gone into operation, the experience of its working during the recent elections has suggested some minor changes, to which I shall invite your favourable consideration.

"Public attention has been recently attracted to the question of the mineral capabilities of the Province, by the reported discovery of considerable deposits of silver and other valuable ores in several sections of the Province. Proposals with a view to attracting capital and stimulating enterprise in this direction will be submitted for your approval.

"Complaints respecting the unsafe and unhealthy condition of the County Gaols in several Counties of the Province have been laid before me, and I have regretted to learn that in one case His Excellency the Governor General has felt it his duty to order the discharge of a prisoner, owing to the unhealthy condition of the building in which he was confined. You will be asked to adopt such measures as shall make it obligatory upon all Municipalities to provide secure and proper gaol accommodation in their respective Counties.

"It has recently become apparent that the people of New Brunswick are being outstripped by some of the sister Provinces in respect to the relative extent and quality of its dairy products. More interest and attention, it is thought, might with advantage be directed to this industry, and in the hope of promoting, in some degree, this important object, a measure will be laid before you, to which I invite your favorable consideration.

"My Government has it in contemplation to discontinue the maintenance of the Provincial Stock Farm at the expiration of the current year. I hope this proposal may commend itself to your approval.

"*Mr. Speaker, and Gentlemen of the House of Assembly.*

"It affords me much satisfaction to be able to congratulate you upon a substantial increase in the revenue for the past year, which has enabled the Department of Public Works to meet some very urgent demands for the construction of additional Bridges of a permanent character.

"I have directed the Accounts of the Income and Expenditure for the past year, as well as a Statement of the Receipts and Payments of the current year up to the opening of the present Session, to be laid before you.

"Estimates of the probable Income and Expenditure for the current year will be submitted to you, and I think you will find that the Estimates of Expenditure have been prepared with a due regard to economy and the requirements of the public service.

"Mr. President, and Honorable Gentlemen of the Legislative Council,

"Mr. Speaker, and Gentlemen of the House of Assembly,

"In your deliberations upon the various subjects which may engage your attention I have the fullest confidence that you will display the utmost loyalty and zeal in the public service, and I trust that under the Divine guidance your labors may materially advance the welfare of our people and strengthen their attachment to the institutions under which we live."

CONCLAVE OF RED CROSS KNIGHTS.—A large gathering of Red Cross Knights, Carleton council, took place at Masonic Temple last evening, when the order of the Red Cross was conferred upon a number of new members. After this ceremony a very enjoyable banquet was discussed. The tables, arranged in the form of a passion cross, and beautifully decorated, were spread in the Encampment of St. John armory and library. The hour spent around the festive board passed pleasantly and swiftly, and an adjournment was then had to the council chamber, where the balance of the evening's business was finished. Frater G. Gordon Boyne superintended the arrangement of the tables, and deserves the greatest credit for the manner in which he performed his duties.

SPIRIT OF THE TIMES.

Skating

AT PALACE RINK.

The tournament at Palace rink this evening will without a doubt be well patronized. Some of the best races of the season are booked for this evening. T. Irvine and R. W. Carson will skate three miles and those who have seen these young goers on the ice, anticipate a close and exciting contest. Carson has defeated all-comers and so has Irvine except when an accident occurred on one occasion. Both are exceptionally fine skaters, and this event is being looked forward to with interest. Hugh J. McCormick will skate three miles for a record, and his time will likely be good. Several other races are on which will lend interest to the proceedings.

The price of admission to ladies has been placed at 15 cents.

For the Fall Exhibition.

Messrs. H. J. Thorne and Geo. Robertson, who were appointed to interview the local government with regard to a grant to the fall exhibition were cordially received by the members of the government at Fredericton yesterday. Attorney General Blair when asked for a grant of $5000 stated that he would first have to confer with his supporters from other counties, but that personally he was anxious to do every thing in his power to promote the interests of the exhibition. He was willing to make a grant as large as that asked for, but would in a measure be governed by the funds under their control, and would also necessarily be limited by demands from other counties. The matter was placed before him in such a manner that he could not fail to see that other counties as well as St. John would be benefited. The exhibition is for the general good of New Brunswick and many of the members of the House recognise the fact. After conferring with the government, Messrs. Thorne and Robertson interviewed several of the members for the purpose of securing their support.

The result was very favorable and the prospects are that a very liberal grant will be allowed for the exhibition.

Sutherland-Weeks.

The examination in this case was resumed yesterday morning in the Charlottetown City Court. Nothing of any importance was elicited. The Monroe girl, a servant of Mrs. Weeks, said that Dr. Sutherland called at Mrs. Weeks' house the Sunday after she left wanting to hire her. She also saw him in Mrs. Weeks' company at the latter's house on Friday night.

Annie Gillespie, another of Mrs. Weeks' domestics, said she never saw anything improper between Mr. Sutherland and the prisoner. He stayed there on the night of January 2nd until midnight.

Mrs. Weeks was ill at 5 o'clock and Mr. McLeod asked for an adjournment until Friday. As the next witness did not obey the subpœne and a warrant had been issued for her arrest and an officer had been dispatched for her, the court adjourned until Friday at 11 o'clock.

Continued from First Page.

quainted with Mrs. Coffey. About six weeks ago Lucy came to Mrs. Coffey, said that she was greatly run down, and asked if she could stay there for a while. Permission was granted, and she roomed with Mrs. Coffey herself.

NOTHING OUT OF THE WAY WAS NOTICED in her physical appearance. On Feb. 27 Lucy first complained of not feeling well. The following day she grew worse, and on Sunday her condition became so serious that Mrs. Coffey advised that a physician be sent for. Her family doctor was Dr. N. A. Hall, No. 347 Main street, Charlestown district. Naturally he was summoned. Previous to his arrival, however, Lucy, who seemed to realize that her condition was most serious, asked for paper and pencil. She was dressed at the time and lying on the lounge. She wrote a note to her lover, Henry Duggan, called a boy from the street and sent him to the city with it. Her words were evidently urgent, for Duggan, or "Dug," as she called him, soon arrived. Lucy and her lover had a long and secret conference. What passed between them none but the living witness, Duggan, can tell. What sad criminations and recriminations were made only he can state. Lucy seemed to realize that she was lingering on the verge of that dark chasm which separated her from eternity. Duggan left the house hurriedly, and then Dr. Hall arrived. He made an examination, and at once became aware of her condition. Lucy would reveal nothing, however, in answer to his questions. She seemed to think that her highest duty was to protect her lover. She lingered along from day to day, growing weaker and weaker, until Saturday, March 8, when it fully dawned upon her that she had but a few hours to live. Lucy was a good Catholic. Even in her failing strength she dragged herself to the St. Francis de Sales Church, almost opposite to where she lived, and attended services. When she found that her strength had departed she sent for the clergyman, and to him she unburdened herself. Her secret now lies with the church, where it is inviolate.

Saturday afternoon she died. Dr. Hall on Monday returned a death certificate in which he stated that abortion was the primary cause, and pyæmia the secondary. This was not accepted at the office of the board of health, and the matter was further turned over to the medical examiner. He ordered Undertaker Mitchell of the firm of John J. Heating, 324 Bunker Hill street, to remove the body to the morgue, which was done. There, yesterday afternoon at 4 o'clock, an autopsy was held. It revealed that Lucy McInnis had died from malpractice. The greatest secrecy was maintained in regard to the case, and all those to whom the information regarding it came were sworn not to reveal anything connected with it. Nevertheless, a Herald man got wind of the case, and it was worked up with the result detailed above. To-day the representatives of the law will endeavor to ascertain the whereabouts of Henry Duggan and the doctor who performed the operation.

MRS. COFFEY'S BOARDING HOUSE.

as the place is called by those who know it, occupies the stories above the grocery on Bunker Hill street which is numbered 334. The house has not been run as a boarding place for some time; not since the proprietress opened a little grocery and provision store on Medford street. The interior is comfortably furnished, and shows that its occupant is an honest and industrious widow, with three children. While she knew the McInnis girl very well, she never suspected that she was other than a "proper young lady, and a girl who, went to church regularly, and who, when she died, received all the benefits of her religion." Mrs. Coffey was extremely nervous last the newspapers should learn of the affair. She was sincere in the manner in which she asserted to those who visited her in regard to this tragedy that, had she known the truth in regard to Lucy, she would not have permitted the sad finale to occur in her house. Mrs. Coffey was undoubtedly thoroughly deceived, nor did she suspect the worst until the Sunday that Lucy's illness took such a severe turn. It was then too late, and Mrs. Coffey was too good a woman, too charitable a lady and too much of a friend in need, to drive a sick girl from the protection of her sheltering roof.

Speaking of the case last night, Mrs. Coffey said. "I should have never suspected what was the trouble with Lucy. She was such a good living girl; so pretty and apparently very innocent. She had not worked for the past three months, and six months ago came to live here. She paid her board regularly, never suffered any wants and always had money." Continuing Mrs. Coffey recited the details of Lucy's sufferings and death as related above.

Inside of the white pine box that was expressed to Prince Edward Island, via St. John, N. B., last night, was a neat broadcloth casket, zinc-lined, in conformity with the law requiring that all dead transported into any of the Provinces shall be incased in zinc-lined receptacles. A silver plate, fastened to the top of the casket, read: "Lucy McInnis, aged 25 years; died March 8, 1890."

Dress Homespuns.

The Homespuns are light in weight, soft, pliable, well adapted to the scanty draperies now in vogue. For driving or traveling costumes they are superior to all other material, neither crushing or showing dust. They are made up chiefly in the plain tailor fashion without trimming, and when desired short jaunty jackets or lapped shoulder capes complete the costume.

The Homespuns come in no decided patterns or colors, but mixed in tiny speckels of Red, Green, Blue, Browns and Greys blended so as to form harmonious mixtures. Also in invisible plaids and checks.
