PRODUCTION OF PLAYS IN CANADA

AMERICAN MANAGERS MAY ABANDON FIELD

Laxity of Copyright Law Results in Piracies—Deeds of Association.

New York, June 10.—The authority acquired by the National Association of theatre producing managers, which now includes practically all the prominent managers in all branches of the business, is exemplified by the passage of a series of resolutions which will mean the abandonment of the entire Dominion of Canada as a field for American theatrical enterprises, unless certain concessions are made before May 1909.

The resolutions recite a long list of drawbacks to the profitable exploitation of American theatrical enterprises in Canada, though that country is mainly dependent for theatrical entertainment on the managers and producers of the United States. The chief drawback is that a play copyrighted here and in Great Britain remains public property in Canada, unless also specifically copyrighted there. Moreover the copyright law of Canada covers all other sorts of work specifically without mentioning dramatic productions. The laxity of the law results in numerous piracies. The resolutions provide for the complete abandonment of all Canadian towns unless the copyright laws are amended by May 1st, 1909.

RUSSIA TIGHTENING REIN ON FINLAND

Latest Imperial Order Regarding "Coup d'Etat."

St. Petersburg, June 10.—An imperial order is published in the official Messenger, which closely parallels the famous "coup d'etat" of Count Bobrikoff, governor-general of Finland, in 1899. The order introduces a new factor into the Finnish constitution by endowing cabinet ministers with the right to control reports and representations made to the Emperor on behalf of the government and the diet of the Grand Duchy by the governor-general or the secretary of state. The Finnish secretary of state hereafter must in all cases submit drafts of reports to the Russian premier in order to determine whether the questions involved are of general and imperial interest. In case of disagreements between the Finnish and the Russian side representatives of Finland cannot approach the Emperor without the simultaneous presence of the premier or a minister delegated by the premier. Competent constitutional authorities here, including Prof. Paul Mulkoff, consider that the recent order, which is drafted with consummate skill, closely approaches a "coup d'etat" without actually transgressing.

JAPAN FIGHTING KOREA'S BATTLES

REBELS LOSE HEAVILY IN MANY STRUGGLES

Treachery Among Ministers Leads to Shuffle in Appointments.

Seul, June 10.—The Japanese army, in headquarters here, reports that from June 8th to 6th, the government troops had 26 engagements with the insurgents. In these engagements 113 insurgents were killed and 26 taken prisoner.

The receipt transfer of Korean ministers was due to the fact that during a conference of provincial governors, a number of cases of negligence of the governors to report the actual facts concerning the attitude of the Korean government towards the insurgents were overlooked, also neglect in failing to correct false and malicious reports concerning the Japanese policy, thus tacitly encouraging the insurgents.
