Sussex, April 19.—On visiting the Do minion dairy school this afternoon find since my last call that ten additional names have been added to the roll of pupils, making a total of fiftytwo intelligent young farmers from different parts of the province nov being taught the art of making good Canadian cheese. Profesors Robert son, Hubbard and Zufelt, the in structors, have no easy time of it in directing the practical working and answering the almost endless number of questions being put to them by the young men present, all seeming anxious to become fully posted and more than ordinarily stupid be the one who does not leave this school fully equipped to go to work successfully after leaving the school. The following are the names and places of the new comers: Walter R. Stockton, Sussex; Seldon H. Freeze, and William J. Alward, Havelock; William L. Dawson Albert Pitre, Bathurst; John A. Northrup, Mill stream; S. Herbert Fenwick, Stud-Walter Starrett, Bass River; Henry F. Hughes, Petitcodiac; Fidel Rogersville. The young men have been addressed each even ing by one or more of the teachers in White's hall. They have formed them selves into a cheese makers' associa tion. So it will be seen the idea of the promoters of the dominion dairying system is likely to be everything that was desired of it.

THE WORLD'S DEBT TO CONGREAGATION-

This Church Gave to the World a Beecher-Hear Also what the Rev. S. Nicholls, a minent Toronto Congregational Minister Has to Savan on Impertant

Henry Ward Beecher believed man's religious faith was colored largely by the condition of his health. He had said from the pulpit that no man could hold right views on religion when his stomach was out of order. It is quite certain that no preacher can preach with effect if his head is stuffed up with cold, or if he is a sufferer from catarrh. It is not surprising, therefore, that we find the leading clergymen of Canada speaking so highly of Dr. Agnew's Catarrhal Powder, for cold in the head or catarrh. They know the necessity better than anyone else of being relieved of this trouble. Rev. S. Nicholls of Olivet Congregational Church, Toronto, is one who has used this medicine, and over his own signature has borne testimony to its beneficial character
