THE SEMI-WEEK: Y TELEGRAPH- ST. JOHN, N. B., JULY 12, 1899.

BRADSTREET AND DUN.

CANADIAN TRADE QUIET NOW BUT HOLDS GOOD PROMISE.

Canadian Failures, However, Are Year-Business Conditions In the

New York, July 7—Bradstreets tomorrow will say:—
Holiday observances and semi-annual
stock takings have worked toward quiet
in general trade and industry, but trade
advices point to rather more than the
average business being done. Additional results of the season's work
brought to light are fally as favorable as
those indicated in Bradstreets report
last week. Bank clearings returns fully
bear out estimates given last week,
pointing to unprecedented totals and
enormous gains, while Bradstreet's report as to prices point to a steady
strengthening of quotations of staples,
and exceptionally few decreases in prices
registered in June. All indications favor
a total of export trade little below that
of last year's phenomenal total.

Rather less than seasonable quiet is
reported in dominion trade circly.
Toronto reports June trade the
largest for 10 years past, and re
tail trade and collections good.
Efforts to sell Canadian wool in
England have not been successful. The
good demand for lumber from domestic
sources renders the lack of demand from
the United States less keenly felt. Montreal reports the dry goods trade as fairly
good and cell-ections satisfactory. The
hay crop tall be light, but other crops
will be good. British Columbia trade is
quiet. Bank clearings for the week aggregate \$29,251,559, a gain of 6 per cent.
over last year. Business failares for the
week number 25 compared with 16 in
this week a year ago.

LETTERS FROM THE PEOPLE.

LETTERS FROM THE PEOPLE.

Indiantown Fire and Relief.

TO THE EDITOR OF THE TELEGRAPH. The expected has happened. No adequate relief has been forthcoming. The more than \$30,000 constituting the Fire Ral of Fund of '77 has blocked the way. People at a distance have not been convinced that technical difficulties in the way of obtaining from the relief fund what is needed for present purposes are unsurmountable. And people at home have no patience with allowing rigid adherence to red-tap-ism preventing relief

being given to the Indiantown fire suffer-ers. The Woman's Council, by the judi-cious distribution of clothes and material, ers. The Woman's Council, by the judicious distribution of clothes and material, and his worship the mayor, with the limitation imposed upon him; by together with what passed through the hands of local lergy met a pressing, immediate necessity. But nothing more. Now, if any are waiting until the North End sufferers come round cap in hand pleading poverty they will be greatly mistaken. No more sturdy self-reliant people could have been scourged by fire. Some of them were given what would purchase provision for a few days or were supplied with necessary articles of clothing. It is also true that many of them can obtain on credit furniture and even building materials. But if compelled to go in debt for these things then it means under the mest favorable circumstances that they will be handicapped for years to come, and some will never be at 1; to free themselves from this additional burden. Soon after the disastrous fire, public opinion compelled some efforts to be made in the direction of securing necessary legislation which would make part of the relief to the securing necessary legislation which would make part of the relief

What love can compare with the tender self-sacrificing spirit of the weary, watch-worn mother by the side of her suffering little one? Such mothers take little or no account of their own weariness and weakness, but keep on until they drop. They seldom realize how completely their baby's health depends upon their own.

Every mother, and every woman who expects to be a mother, ought to obtain the health-bringing, strength-creating assistance of Dr. Pierce's Favorite Prescription. It gives elastic endurance to the organs concerned in motherhood, and nourishing vitality to the special nerve-centers.

Taken early during gestation, it makes motherhood perfectly safe and almost painless. Its beneficial effect is transmitted to the child in increased constitutional vigor. It protects the mother against relapse and improves the quantity and quality of nourishment during the nursing period.

It reinforces tired over-wrought women at every critical stage, and heals the special diseases to which they are subject. It was designed for this express purpose by an educated physician and skilled specialist. Dr. Pierce has devoted thirty years to this particular field of practice. His thousand-page book, the "People's Medical Adviser," will be sent free, for 31 one-cent stamps to pay the cost of customs and mailing only. Or, cloth-bound for 55 stamps. Address, R. V. Pierce, M. D., Buffalo, N. Y.

TROUBLE OYER A FLAG.

HENELY-ON-THAMES, July 7-The Henley royal regatta came to an end under the most favorable conditions. The weather today was perfect but the attendance was not so large as usual. The racing contained no surprises and no close finishes. There was a feeling of relief however, when in the Steward's cup, Magdalen disposed so easily of the German crew that many had predicted would win. The cheers which greeted the winners were much heartier than those given to any other victors and emphasized the general joy that the

trophy was not to be taken abroad. There was also much enthusiasm when the young Etonians fairly rowed down their strong opponents, Pembroke College, in the Ladles' Challenge Plate,

there is no place where we would rather see it go than Canada."

When Gold came up to receive the prizes for the grand and for the stewards he was greatly cheered in recognition of the skill with which he had piloted the two crews to victory. Gold stroked the Leanders when they defeated Yele.

In the final heat for the grand challenge cup th Leander club beat the London Rowing Club.

In the first heat for the visitors' challenge cup, for four-oared crews, Balliol lenge cup, for four-oared crews, Balliol beat Helbrook. The second heat was won by New College over the Magdalen

they were here two years ago. They are good sportsmen and rowed their races out to the end in bulldog spirit. We like to see that they made a bold bid for the grand and although we should be extremely sorry to part with the cup, there is no place where we would rather see it go than Canada."

ET. ETEPHEN, July 5.—An incendiary fire at Milltown, N. B., this morning, destroyed a saw mill and Andrews' axe factory at the lower dam. The saw mill was owned by H. F. Eaton & Sons and the other building by John Andrews. Neither property was in use at present, although it is understood considerable machinery was in the axe factory. Firebugs appear to have had their own way for some time on the St. Croix, but apparently no effort is being made to discover the guilty ones.

ently no effort is being made to discover the guilty ones.
David Marrs, the man who was injured at Collis yesterday morning while firing the sunvise salute, died at the Maine General Hospital in Portland this forencop. Mr. Marr was a hard-working, honest man about 50 years of age and leaves a wife and two or three children to mourn the loss of a kind husband and father.

There is one little maxim
That now I will name,
Which may bring what is better
Than riches or fame.
All those who will beed it
Good appetite find,
Strong nerves, rosy cheeks,
And vigor of mind.
It will banish dyspensis.

A SPLENDID YEAR.

miles from here.

Plattsaurg, N. Y., July 9—During a terrific thunderstorm this afternoon three persons were more or less seriously injured by a bolt of lightning at the Hotel Pocahontas at Fern Lake, in the Adirondacks.

Mrs. Hathaway, wife of the hotel proprietor, and her nine year cli daughter, were standing near the door while the storm was passing. A thunderbolt entered the hotel by the telephone and passed out through the door, rendering Mrs. Hathaway unconscious and hurling the child from the veranda to the yard about ten feet below. Mrs. John D. Fillmore of New York, who was sitting near the child at the time, was so blinded by the bolt that she did not regain her eyesight until a couple of hours afterwards. Seveneral houses in this section were struck by lightning and destroyed.
