WHEN you require a roof, the measurement will be in squares (100 square feet). A basis for analysis of the costs of Brantford Asphalt Slates is given below:

- 1—INITIAL COSTS OF MATERIALS—Brantford Asphalt Slates are sometimes higher in initial cost for the material.
- 2—NAILS REQUIRED—Brantford Asphalt Slates require ONLY 450 nails to lay a square. Brantford Asphalt Slates require ONLY 450 nails.
- 3—COST OF LAYING—Brantford Asphalt Slates are four on one strip—require only one operation in handling, one operation in spacing—individual slates are 8 x 12 1/2 inches—Cut easily, fit easily, fit on angles and bend over round surfaces. You save 30 to 50 per cent. in laying.
- 4—NO PAINT OR STAIN REQUIRED—The surface of Brantford Asphalt Slates is in nature's permanent colors, green and red, unfadeable, always attractive, requiring no stain to produce artistic effects, no liquid costs to make them fire-resistant.
- 5—SAVING OF INSURANCE—Brantford Asphalt Slates are classed as non-combustible by fire insurance companies—a direct saving of from 10 to 20 per cent. on premiums is effected. In certain localities fire regulations demand asbestos paper under some roof materials, but Brantford Asphalt Slates are fire-resistant and are immune from special regulations.
- 6—COST OF REPAIRS—From the day they are laid Brantford Asphalt Slates show almost 100 per cent. of the original roof untouched. Brantford Asphalt Slates, due to their strength and complete protection and permanent protection are built into Brantford Asphalt Slates.

Compare these roof costs with those of any other roofing material; it is your money you are spending and you want value for it—then buy

Service that Lengthens Battery Life

PREST-O-LITE Storage Battery Service is founded on know when, know why, know how. It was developed to its present standard of helpful efficiency out of the oldest service to motorists in America.

As a pioneer and leader, Prest-O-Lite Service has maintained leadership through daring innovations. Instance the Initial Test for new cars.

If you have just received your new car, drive it to any Prest-O-Lite Service Station. They will test your battery and, if necessary, replace the "pep" lost while the car was in transit or in the showroom.

Prest-O-Lite Service Stations render an advanced service which, if taken advantage of, will greatly lengthen any battery's life. Make it a habit to call twice monthly this summer for testing and distilled water—a service we render willingly. If your battery needs repairs or recharging, both our work and prices will prove satisfactory.

It Testifies for itself.—Dr. Thomas' Electric Oil needs no testimonial of its powers other than itself. Whoever tries it for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, will know that the medicine proves itself and needs no guarantee. This shows why this Oil is in general use.
