MEDICAL NEWS.

A lady died on Wednesday 20th Aug., at the house of a dentist in Brighton, while under the influence of chlo-

A Parliamentary Return just issued shows that 97 deaths from privation took place in London in the year 1872. The majority were infants.

The will and codicil of the late Dr. W. Tyler Smith, of Upper Grosvenor street, was proved on the 21st ult. The personalty was sworn under 10,000 pounds.

The King of Bavaria, in consequence of the cholera epidemic in Munich, has ordered that, unless the malady abates, the meeting of the Chamber, which stands for September, shall be postponed.

The Biamingham Medical Benevolent Society is evidently prospering. It numbers 174 members, and its total receipts for 1872 were 3226 pounds. Twenty-two applications for grants had been entertained during the year, and the sum of 345 pounds distributed.

The cholera is now worse at Berlin than at Vienna. The overcrowding of the North German city has reinforced the epidemic most effectively. In the Friedrichatrasse the 2nd Grenadier Regiment of the Guards, after losing from twenty to thirty men in each company, had to be removed to the interior.

When everything is so dear it is a change to hear of something cheap. The Pall Mall Gazette reports that the St. George's, Hanover-Square, Un. n Board of Guardians have been informed by the clerk that the auditor recently disallowed a charge of 6d. in an account of la Gil for vaccination.

The returns of cholers in Italy show that there were, up to August 9th, 156 cases; of these 105 were fatal. According to an Italian newspaper, the deaths among the military from July 26th to August 8th amounted to 63, with 11 deaths. The disease has now invaded Stettin. in Munich 100 seizures and 40 deaths occurred during the past fortuight. At Altona 26 cases have been reported : of these 22 were fatal.

The Medical International Congress of Vienna will take place from the 2nd to the 10th of Sept. The most liberal arrangements have been made as regards foreign visitors. There are six principal questions to be discussed. (1) Vaccination.; (2) syphilis and prostitution; (3) Cholera and quarantines; (4) a universal pharmacopæia; (5) freedom of practice in all countries for qualified men; (6) hygiene of large towns.

At an inquest held at Acton, England, before Dr. Diplock, a verdict of "Wilful murder" was returned against a gardener who had given a quantity of poisonous mushrooms to the inmates of a public-house. Three persons after partaking of the fungi were taken violently ill, and one of them died. A post-mortem examination of the deceased showed a highly inflammatory condition of the alimentary canal.

TYPHOID FROM INFECTED MILK.

Concurrent with the outbreak of enteric fever in the parish of Marylebone, the existence of typhoid in Brighouse, Yorkshire, was demonstrated, the propagation of which was undoubtedly due to the agency of infected milk. Dr. Britton, medical officer of health for the parish, in his report to the authorities, states that on making a houseto-house visitation in the district, he ascertained that the total number of fever cases amounted to thirty. Of these twenty nine had obtained their supply of milk from the same farmhouse. The local board showed a laudable alacrity in stopping the sale of milk from the contaminated farm, and sent its inspector of nuisances round the locality to cantion the inhabitants against its use. Since the publication of Dr. Britton's report we learn that several freah cases of enteric fever have been recognized, in all of which the milk had some from the same source.- Lancel

POYAL COLLEGE OF PHYSICIANS AND SUR-GEONS, Kingston, in sfillation with Queen's University.

TWENTIETH SESSION, 1873-74.

The School of Medicine at Kingston being inco-porated with independent powers and privileges under the designation of "The Royal College of Physicians and Surgeons, Kingston," will commence its Twentieth Ses-Surgeons, Kingston," will commence its Twentieth Session in the College Building, Princess street, on the first Wednesday in October, 1873.

TEACHING STAFF.

JOHN R. DICKSON, M.D., M.R.C.P.L., M.R.C.S.E., and F.R.C.S., Edin.; PRESIDENT,, Professor of

Clinical Surgery.

FIFE FOWLER, M.D., L.R.C.S., Edin., Registrar,

Professor of Materia Medica.

HORATIO YATES, M.D., Professor of the Principles and Practice of Medicine, and Lecturer on Clinical Medicine.

MICHAEL LAVELL, M.D., Professor of Obstetrics and Diseases of Women and Children. MICHAEL SULLIVAN, M.D., Professor of Surgery

and Surgical Anatomy OCTAVIUS YATES, M.D., Professor of the Institutes of Medicine and Sanitary Science.

JA IFS NEISH, M.D., Professor of Descriptive and

Professor of Chemistry and Practical University), Professor of Chemistry and Natural History, Queen's University), Professor of Chemistry and Practical Chemistry Chem

Chemistry.

ALFRED S. OLIVER, M.D., Professor of Medical Jurisprudence.
HERBERT J. SAUNDERS, M.D., M.R.G.S.E., De-

monstrator of Anatomy.

The College is affiliated to Queen's University, where in the degree of M.D. may be obtained by its students.

Certificates of attendance at this College are recog nized by the Royal Colleges of Surgeons of London and Edinburgh; and either the degree of M.D. or the Li-cense of the College entitles the holder thereof to all the privileges in Great Britain that are conferred upon the graduates and students of any other Colonial College.

The new premises of the College are commodious and convenient. Unequalled facilities are presented for the study of Practical Anatomy, and great advantages for Clinical instruction are afforded at the General Hospital and Hotel Dien.

Full information as to subjects of study, fees, &c., may be obtained on application to
Dr FOWLER, Registrar, Kingston.

H. SKINNER, M,D.

WHOLESALE DRUGGIST, Princess Street, KINGSTON.

PHYSICIANS' ORDERS for Drugs and Instruments solicited. Only Pure and Officinal Medicines sent out; and prices guaranteed satisfactory.

CHLORODYNE. The original and only genuine.
IMPORTANT CAUTION. The published statement that
Chlorodyne, having obtained such universal celebrity, can now scarcely be considered a specialty, is calculated to mislead the public.

J. T. DAVENPORT therefore begs to state that Chlorodyne has baffled all attempts at analysis, the published formulæ differing widely; hence the statement that the composition of Chlorodyne is known is contrary to fact.

The universal celebrity of Chlorodyne is the greater reason that the public should be supplied with the gen-uine, not a justification for the sale of a spurious com-

The word "Chlorodyne" is a fanciful name applied by Dr J. Collis Browne to his discovery, and the formula

confided to J. Davenport only.

confided to J. Davenport only.

The following is an extract from the decision of the Vice Chancellor in the late Chlorodyno Chancery suit, Browne and Davenport v. Freeman:—Vice Chancellor Sir W. P. Wood stated that Dr J. Collis Browne was undoubtedly the inventor of Chlorodyne, that the statements of the defendant Freeman were deliberately untrue, and he regretted to say they had been sworn to. Eminent Hospital Physicians of London stated that Dr Collis Browne was the discoverer of Chlorodyne, that they prescribe it largely, and mean no other than Dr Browne's.—See the Times, July 13, 1864. Sole Manufacturer, J. T. Davenport, 33, Great Russel

street, Bloomsbury square, London.

NOTES ON ASTHMA; its Forms and Treatment.
By John C. Thorrowcoop, M.D., Lond., Physician to the Hospital for Disease of the Chest, Victoria Park. Second Edition, revised and enlarged, crown 8vo price 4s 6d. Sent by book post by Henry Kimpton, 82 High Holborn, London.

I LEBIG COMPANY EXTRACT OF MEAT. Am-A sterdam Exhibition, 1869, the Grand Diploma of Honour, being the first prize and superior to the gold medal. Medical Press and Circular One wint of delivious best tay for 5 cents. Circular. One pint of delicious beef tea for 5 cents, which costs 25 cents if made from fresh meat. Cheap-

which costs 25 cents it made from fresh meat. Cheapest and finest flavoured stock for soups, &c.
CAUTION. Require Baron Liebic's signature upon every jar. Sold by all Druggist's and all Wholesale Houses, and of LIEBIC'S EXTRACT OF MEAT. COMPANY (Limited), 43 Mark Lane, E.C., London. Notice. Various chemical analyses have been published, purporting to show a fraction more of moisture to exist in the Company's Extract than in some imitation sorts. It is extremely easy to exports the water. tion sorts. It is extremely easy to evaporate the water almost to any extent, but it is quite as certain that the fine meaty flavour which distinguishes the Compan'ys Extract from all others would be destroyed if the concentration of the Extract were carried beyond a certain degree. Beef tea made from Liebig Company's Extract with boiling hot water, will be found to be greatly superior in flavour, strength, and clearness to any other This explains the universal preference it obtains in the market. This Extract is supplied to the British, French, Prussian, Russian, and other Governments.

The Chloralum Company, 1 and 2, Great Winches er street Buildings, London, E.C.

PHARMACEUTICAL PRODUCTS, prepared by Messra GEIMAULT and Co., Operative Chemists, 8, Rue Vivienne, Paris, and for sale by F. Newberry & Sons, 37, Newgate street, London, and by all Druggists and Wholesale Houses in the United States.

These products are prepared with the greatest care, under the direct supervision of Dr LECONTE, Professor of the Faculty of Medicine, Pharmacist of the first class to the Hospitals of Paris, and ex-Preparator of the Course of Physiology of CLAUDE BERNARD at the College of France, etc.

CRIMA JLT'S GUARANA, a vegetable product ob-tained from Brazil, infallible in cases of Hemicrania Headache, and Neuralgia. To these properties it joins that of arresting diarrhees and dysentery, however severe. Physicians are requested to ask for Guarana bearing the seal of Grimault & Co., so as to avoid prescribing crude Guarana, just as imported from Brazil, this latter kind being frequently substituted for Grimault's. Dose: one packet in a little sugared water, and another packet half an hour afterwards.

O RIMAULT'S INDIAN CIGARETTES, prepared from Resin of Cannabia Indian from Resin of Cannabis Indica. Asthma and all complaints of the respiratory organs are promptly cured or relieved by their smoke. The efficacy of this plant has been proved by extensive use in England and Ger-many, to the entire rejection of the cigarettes of belladonna, of stramonium, and of arsenious acid, and other plants hitherto employed.
