Mr, McKenzie King  
 Rochester, N.Y. - U.S.A.

Dear Sir ;-----

As I see by Our-Papers you are a representative of Mr, John. D. Rockefeller Jr, I thought you would be able to interest Mr, Rockefeller in some large Tracts of Timber in Oregon, and California-on the Pacific Coast.

These Tracts of Timber are "Crown-Granted". and contain from 10,000 up to 200,000 acres of Land. near Tide-water. Timber consists of Fir, Hemlock and Cedar in Oregon, and Redwood and Fir in California.

Party who is in with us is now at Portland, Ore. So we could give you Cruisers reports, Blue-Prints &c. and show you over-properties at anytime.

I expect when this War is over you will see a great advance in Timber Tracts. and especially in this Heavy-Timber on the Pacific-Coast. Infact Lumber now has advanced 25% this last three months in Western-Canada. and I expect it will advance rapidly very shortly in the United-States. As the building line has been quiet for three years or more, both here and in U.S.

If you are open for Good-Investments in Timber we would be pleased to furnish you with full Reports at once. Awaiting your early reply.

I am  
 Yours truly  
 D.A. Smith & Co.  
 Per. *J. Lewis Smith*
