Rt.Hon.Arthur Meighen,

Toronto.

Dear Mr.Meighen:

From your letter of the 26th. it appears that my letter of the 20th. could not have been very clear, because I had no thought of imposing upon your time or asking you to take on other interests.

My thought in suggesting a conference was to post you to date in your capacity as a Hydro Commissioner on new developments re hydrogen and oxygen and also because you have for so long taken an interest in this work. As I said in my letter of the 20th., Hydro engineers are now seriously studying my proposals and I feel that we can accomplish results of considerable value to the Commission. If the Commission should at any time consider retaining anyone on this work, I should like it to be known that I might be released for part time for such services.

I realize that great demands are being made upon your time and energy. However, if at any time you feel free enough to have me review these matters for you, I should indeed be glad to do so.

I greatly appreciate your good wishes to me in my work.

Wishing you the compliments of the season,

Yours sincerely,

A.T.Stuart.
