Youngstown ..	67	10-20	Yes	Yes	Yes	Fair	20 to 24"	No	Expect good sale for harvesting machinery if next year's crop good

NOTE—A summing up of the gas tractors as listed in this survey will show a total greater than the actual number. This is due to the fact that the lines separating tractor territories are not in all cases clearly defined, with the result that numbers are sometimes duplicated. The figures for any particular town are correct, but two or more adjoining towns may overlap somewhat.

Don't Forget That The Canadian Thresherman and Farmer

circulates among the farm homes adjacent to every one of the towns listed in this survey. Every month it carries its tractor messages.

To the farmer who owns a tractor it comes with a message of help in time of trouble.

To the prospective tractor owner it comes with a message that will help him to a proper decision when buying.

Your message is your advertisement carried generously and continuously.
