The Name behind

Dependable Spark Plugs

For years we have been building a reputation for the dependability of Champion Spark Plugs. To-day "Champion" on the insulator of a spark plug is the world's synonym for dependability.

Champion dependability is based on thousands of experiments and tests, resulting in our famous "3450" insulator, which, because of its indestructible quality, gives exceptionally efficient service in all types of gasoline motors and engines.

No matter what makes of motor you own, there is a "Champion" that will give efficient service under any condition the motor itself will stand.

Look for "Champion" on the insulator as well as on the box.

Sold where motor goads are sold

Champion Spark Plug Co. of Canada, Limited Windsor, Ontario

The Largest Factory in Canada making Spark Plugs exclusively

Specially recommended for use in Overland Cars
