

## HOW DRUGS WEAKEN THE HEART

So many people are doping their stomachs with drugs and never stop to think of the harm that will come of it. Constant drugging always weakens the heart.

You hear of a great many deaths due to heart failure, but you never hear of what makes the heart fail. The heart never fails without a reason. Find a reason and you will find the actual cause of death. I say that it is nearly always exhaustion of vitality, caused by drugging. The heart stops because the power that runs it is shut off. To trace this cause correctly I would say that the consumption of food in the stomach generates carbonic heat, which is electricity. Carried into the nerves it becomes nerve force, which is the motive energy of the heart.

Naturally, if the heart does not receive a sufficient quantity of this nerve force its action will become weaker, and, like the engine whose steam is run down will stop altogether. That is heart failure.

Now, strong drugs weaken the stomach so that it cannot generate enough of this force, and a weakening of the heart's action results.

The reason any organ fails to do its work is because it lacks strength. If there was any nourishment in drugs they might bring about a healthy change, but you know there is not. Drugs are drugs, stimulants, narcotics, antidotes, poisons, not food. Food is needed to build up new strength. Electricity is nerve food—nerve life. It soaks into your nerves and vitals just like water soaks into a sponge. It warms and strengthens the parts which drugs cannot reach.

Electricity is a relief from the old system of drugging. It does by natural means what you expect drugs to do by unnatural means. It is Nature's way of curing disease, for it gives back to the nerves and organs the power they have lost, which is their life.

I believe in finding the cause of every ailment and removing it. If it is in the stomach, I restore the power there; if in the nervous system, I build up the nerve force; in the kidneys, the blood or the organs of generation, I find the cause and supply to the body the needed help, and after I have removed the cause Nature will cure the disease.

Dr. McLaughlin's Electric Belt is easily and comfortably worn next to the body during the night, and gives out a continuous stream of that strength-building, nerve-feeding force which is the basis of all health.

Dear Sir,—The trouble for which I purchased your Belt has entirely disappeared. It was only after a great deal of hesitancy and enquiry from patients that I bought one of your Belts, and I am now glad that I did. My back is perfectly well, and I never was so strong or felt as well as I do now.

Geo. A. Stark, Owen Sound, Ont.  
**FREE TO YOU.**

Get my \$4 page book describing my Electric Belt, with illustrations of fully developed men and women, showing how it is applied.

This book tells in plain language many things you want to know, and gives a lot of good, wholesome advice for men.

If you can't call, I'll send this book, prepaid free, if you will enclose this coupon.

Consultation free. Office hours 9 a.m. to 5.30 p.m.

Lefroy, G.T.R. JOHN BOYES, JR., Churchill Ont. Long distance phone

## GOSSIP.

Chairman—I'm sure we be all very sorry our secretary is not here to-night. I cannot say we miss 'is vacant chair; but I do say we miss 'is vacant face.

A remarkable breeding record of a Belgian mare, owned in Iowa, is vouched for by a correspondent of Wallace's Farmer: She is eight years old, and has given birth to eight live colts. When she was four years old she gave birth to her first colt, in the spring following (spring of 1904) she gave birth to another, in 1905 a pair of mule colts, in 1906 a pair of horse colts, and the present spring of 1907 another pair of mule colts. The twins were all well matched.

On one occasion when he was busy, President Lincoln received a delegation of men who were endeavoring to hurry the passing of some petty bill. When they entered, Lincoln looked up gravely and said:

"If you call the tail of a sheep a leg, how many legs will the sheep have?"

"Five," said the spokesman.

"No," replied Lincoln, "it would only have four. Calling the tail a leg wouldn't make it one." The delegation departed in discomfiture.

G. B. Muma, breeder of Yorkshires, ordering a change of advertisement, writes: "I have a few sows, sired by Summer Hill Chester (imp. in dam), bred to Summer Hill Edward 2nd (imp. in dam), due to farrow about first of August, also some young sows ready to breed. I also have some young boars from imported-in-dam sow and Duke Charles boar, also a couple of boars from imported sow and boar. I also have young pigs nursing that will be ready to wean in a couple of weeks, some sired by Duke Charles, from Duchess of York and Elmfield Duchess, some from Maud and Summer Hill Edward 2nd. All choicely-bred hogs, and prices will be right."

The first shipment of Western grass lambs of the season reached Chicago July 1st, being the earliest in many years past; in fact, old traders do not recall a season when the vanguard of the Westerners reached the Yards so early. This initial shipment included some 1,700 very choice lambs, averaging around 60 lbs., which sold at \$7.60, with some culls out at \$6.25. The good condition of these lambs forecasts an excellent grade of grass mutton from the West this season, and this is also borne out by the very favorable reports from practically all sections of the range country, indicating an abundance of feed and water. The first Idaho range lambs to reach Chicago last year came on July 15th, and sold at \$7.85.

H. S. McDiarmid, Fingal, Ont., writes: "Our trade in Yorkshire pigs is developing beyond our expectation. We are shipping out boars and sows of different ages right along, and the satisfaction of it all is to have our customers say they have received good stock, and are well pleased. We are trying to please everybody, because we believe a satisfied customer our best advertisement. We have added to our herd lately a young stock boar to which we are breeding our young sows. He is a fine large hog, possessing strong character and of showing merit, and is a most promising sire. We have recently imported a large sow from England, which has a show-ring record. She is raising a fine litter of imported pigs. Anyone wanting Yorkshires of high feeding qualities should write us."

W. G. Milson, Goring, Ont., advertises for sale the Shorthorn bull, Royal Prince (imp.) = 36092-, and writes: "His breeding cannot be surpassed. He is of the Kilblean Beauty family that produced Geo. Harrison's famous Royal winner, Count Beauty, and Deane Willis' Royal champion, White Heather. He was got by the Missie bull, Mystic Archer (75123); he by the great Scottish Archer, dam by William of Orange, second dam by Athabasca. The three greatest sires of their day in Scotland. He was used successfully in the herd of H. Smith, Exeter, previous to mine, and not only proved himself a successful getter, but is the sire of many prizewinners. He is still as smart as a yearling, and as useful as ever."

## Kidney Disease And Its Danger.

Kidney disease comes on quietly—may have been in the system for years, before you suspected the real cause of your trouble. There may have been backaches, neuralgia, sciatica, rheumatism, etc. Perhaps you did not know these were symptoms of kidney disease, so the trouble kept on growing worse, until disturbances of the water appeared, or there was gravel or retention of urine, or some such sign of kidney trouble.

Doan's Kidney Pills should be taken at the first sign of anything wrong; they strengthen the kidneys and help them to filter the blood properly—help them to flush off, and carry away with the surplus water, all those impurities which the blood gathers up in its circuit of the body.

Mrs. Alfred LeBlanc, Black Cape, Que., writes: "I feel it my duty to say a word about DOAN'S KIDNEY PILLS. I suffered dreadful pains across my back—so bad I could not stoop or bend. After having used two boxes I now feel most completely cured. I highly recommend DOAN'S KIDNEY PILLS."

## SUNNYMOUNT BERKSHIRES.
