

SHE HAD CONSUMPTION.

**Dr. Wood's
Norway Pine Syrup
Cured Her.**

**Weighted 135 Pounds—
Now Weighs 172.**

Mrs. Charles McDermott, Bathurst, N.B., writes:—"I thought I would write and let you know the benefit I have received through the use of Dr. Wood's Norway Pine Syrup. Three years ago I had consumption. I had three doctors attending me and they were very much alarmed about my condition. I was so weak and miserable I could not do my housework. While looking through your B.B.B. almanac I saw that Dr. Wood's Norway Pine Syrup was good for weak lungs, so I got a bottle at the drug store, and after taking ten bottles I was completely cured. At that time I weighed 135 pounds and now weigh 172, a gain of 37 pounds in three years. I now keep it in the house all the time and would not be without it for anything, as I owe my life to it."

Dr. Wood's Norway Pine Syrup contains the lung healing virtues of the Norway pine tree, which, combined with other absorbent, expectorant and soothing medicines, makes it without a doubt the best remedy for coughs, colds, bronchitis and all throat and lung troubles.

Price 25 cents at all dealers. Beware of imitations. The genuine is manufactured only by the T. Milburn Co., Limited, Toronto, Ont.

WOOL

Let us know about how much you will have this season and the breed, that we may keep you posted on prices. You might as well sell to us, and make the most profit possible, instead of selling locally.

Please Send Us Now your name and address, so that we can keep in touch with you.

E. T. GARTER & CO.

TORONTO, CANADA.

SOUTHDOWNSHEEP

Unequaled for quality of mutton and wool, hardy constitutions and early maturity.

STRIDE & SON will sell by auction, at Chichester, Sussex, England, on August 16th and 17th next, about 10,000 REGISTERED SOUTHDOWN EWES, 1,000 SOUTHDOWN RAM AND RAM LAMBS. Commissions carefully executed.

Stride & Son, Chichester, Sussex, England. Telegrams: "Stride," Chichester, England.

Alloway Lodge Southdowns

The Southdown is the best mutton sheep in America to-day, the championships at the winter fairs prove it. Southdown wool is finer than that of any other mutton breed. I get 4 cents a pound above market price. A Southdown ram makes the greatest improvement on a flock of good ewes. Ask anyone who has used one. Write me for prices; they will please you. Phone. Railway Stn., London.

ROBT. McEWEN, BYRON, ONT.

CATTLE and SHEEP LABELS

Metal ear labels with owner's name, address and any numbers required. They are inexpensive, simple and practical. The greatest thing for stock. Do not neglect to send for free circular and sample. Send your name and address to-day.

F.G. James, Bowmanville, Ont.

Oxford Down Sheep, Shorthorn Cattle, Yorkshire Hogs—Present offering: Lambs of either sex. For prices, etc., write to John Cousins & Sons, Buena Vista Farm, Harriston, Ont.

QUESTIONS AND ANSWERS.
Miscellaneous.

ROLLED OATS FOR COWS.

Are rolled oats a good feed for new-milk cows? If not, what kind of grain do you recommend to increase the flow of milk? C. S. F.

Ans.—Rolled oats are certainly good for cows, being in themselves well-nigh a balanced ration. Of course, this does not mean that they will necessarily make a balanced ration when fed with corn silage or timothy hay. In this case, a little oil cake, cotton-seed meal, gluten meal or wheat bran should be added, to secure the best results.

"MORE OR LESS."

What is the limit of "less or more" on land deeds—does it mean one acre or two, or a fraction of an acre? A SUBSCRIBER.

Ontario. Ans.—There is no arbitrary rule. Each case is governed by its own circumstances. In the particular case, the words in question (which are usually rendered "more or less") might cover even more than two acres of difference, or it might easily be that a difference of even a small fraction of an acre would be judicially held to be too great to be adequately provided for by the phrase mentioned.

SCRATCHES.

We have a valuable mare in foal, and her hind legs are sore from hocks to next joint. Some call it scratches, and others call it cracked heels. I don't know which you call it, or whether there is any difference. They have been sore for about a year. I have put on some applications, but they seem to do no good. She is never lame. What do you advise? F. G. S.

Ans.—Scratches and cracked heels are but different names for the same trouble. When the limb is affected to a greater or less height, it is called "mud fever." Many cases of scratches are aggravated by washing with soap and water. Do not wash. If the legs get wet, rub them dry. As the mare is pregnant, purgatives should be avoided. Give 1½ ounces Fowler's Solution of Arsenic twice daily for a week. For local application, you may choose between a lotion and an ointment. Sometimes they are used alternately. In warm, dusty weather, a lotion is best, but if weather is cold, an ointment tends to soften the skin which might be hardened and made to crack open again if lotion were applied. A good lotion is made of sulphate of zinc 1 ounce, acetate of lead 1 ounce, carbolic acid ½ ounce, and a pint of water. Probably the best ointment is the oxide-of-zinc ointment, to which is added 20 drops carbolic acid to the ounce. Use either freely, three or four times a day.

WILD CHICORY—RAPE FOR COWS.

1. I have a ten-acre field which is infested in some parts with what is called by some, chicory, and others, blue weed. I find it pretty hard to get rid of, and would ask your opinion on the following method, which I intend trying. Land is fairly stiff clay all through, with black soil mixed in; what one would call good, strong soil. Was plowed last fall pretty early, good and dry, and turned up pretty lumpy. Now, I thought of sowing a mixture of peas, oats and vetches, and curing them green for fodder, plowing the land right away after harvesting, and working it up to get a fine tilth, and then sowing rape on it, to feed to the cows in the fall.

2. Would rape have any undesirable effect on the milk? We sell our milk. QUEBEC.

Ans.—1. While wild chicory is a perennial with a long, thick, deep root, and quite troublesome in pastures and on roadsides, it is not often seen in good farming districts, except as a wayside weed. "Farm Woods" says that a short rotation of crops will soon suppress it. The treatment you have outlined should be successful in exterminating it. 2. The feeding of rape to milking cows, especially the same undesirable flavor which is caused by the feeding of Swede chard, is not a problem. Please try it.

DON'T DEPEND ON WOODEN WHEELS AND ORDINARY WAGONS

If you ever see a farmer coming down the road on a wagon and whistling a tune, you can make up your mind the wagon is a T.-K. Handy Farm Wagon with Wide-Tire Steel Wheels. The reason is that his wagon was loaded in half the time usually necessary with ordinary wagons, the load is greater by far, and the wheels take the ground (rocky or muddy) smoothly and without the least resistance.

**Wide-Tire Steel
Wheels and
Handy Farm
Wagons**

This is the kind of equipment you want to haul your loads. T.-K. wagons with Indestructible Wheels will outlast two ordinary wagons. The steel wheels are best construction possible. They are made with staggered spokes, so the tires won't bend between spoke-heads, while the hubs never wear out. Letters from thousands of farmers testify to their superiority. Write for booklet and special prices.

TUDHOPE-KNOX COMPANY, Limited,
