

C. M. B. A.

Stratford, Aug. 27, 1888. DEAR SIR AND BRO.—The following resolution of condolence was passed at the regular meeting of branch 13 last evening:

Moved by Bro. Maurice J. Dillon, seconded by Bro. Thos. J. Douglas: Whereas, It has pleased Almighty God to remove from amongst us our most worthy Bro. Wm. J. McCann, in his early manhood;

Resolved, That by the death of our departed Brother we have lost a true friend in whom every confidence could be reposed and whose sterling virtues were an example to all that knew him. That this branch by his death has lost one of its most honorable and worthy members.

Resolved, That we tender our heartfelt sympathy to his mother and surviving relatives.

Resolved, That our "charter" be draped for one month, that a copy of the above resolutions be sent to our deceased brother's family and also to our official organ, the Catholic Record, for publication. Fraternally yours D. J. O'CONNOR, Rec. Sec. Branch 13.

John P. Todenbier, Wm. P. Ratigan, Andrew Kelly, J. P. Larkins, M. J. Keating, N. Hennessy, Henry Lettice and Eugene C. Van Antwerp, of the Catholic Mutual Benefit Association, on Sunday organized a branch in Jackson, Mich., with twenty-five charter members. The branch is known as No. 23.

The association is making remarkable progress in Michigan. New branches are being organized in different parts with large memberships. It is thought that in a short time the beneficiary department will be independent of the national organization, which will considerably lessen the expenses of the members in the way of assessments.

Next Sunday a meeting of delegates of the different city branches will be held at the hall of Branch No. 3 to make arrangements for a reunion of the organization in Detroit.

NEWS OF THE WEEK.

BY ATLANTIC CABLE.

Tourists in Ireland.

One result of Earl Carnarvon's peaceful progress through Ireland has been an enormous influx of British tourists. No less than 1,500 sightseers from England, Scotland, and Wales landed here yesterday. The prevalence of cholera on the continent has doubtless contributed to this result, but the discovery that the "Wild Irishman" is by no means so wild as he has been described has been the chief factor in determining tourists in favor of the romantic scenery and superb salmon fishing of the Irish lakes and streams. This rush of tourists brings many thousands of pounds into the country, and will thus tend to add to the growing popularity of the new Viceroy.

Agrarian Outrages.

The most conflicting rumors are daily received regarding the condition of Ireland in the south and west. One set of statements bristles with agrarian outrages, incendiarianism, and hamstringing of cattle; while another set pictures peace and contentment smiling on the scene, and tenants and land agents lying down in harmony like the millenium lion and lamb. The fact appears to be that while outrages occur in outlying districts there is a marked improvement of temper, and Mr. Parnell's agents are doing good work everywhere in restraining all outbreaks of discontent. This state of serenity does not suit the gang of agitators and special detectives who live on crime, and hence the rumors. Lord Carnarvon's tour is causing much satisfaction. His going almost unprotected among the people is very favorably contrasted with Earl Spencer's journeys, which were always heralded and accompanied by a host of detectives.

Repeal of the Union.

Mr. Parnell's declaration in favour of the repeal of the union is creating a great deal of interest in political circles. It is admitted on all hands that Mr. Parnell is far too cautious in his dealing with public questions to have taken this very decided step without due consideration. While there is a large party in this country quite prepared to concede to Ireland home rule, the public sentiment is unanimously against granting the separation, and then, it is asked, what is Mr. Parnell's object in running counter to this strong feeling? The object, though not on the surface, is still apparent. The Whigs and Tories have both shown symptoms of alarm at the democratic tendencies of their respective parties. The followers of Lord Harrington on the one side are not more disgusted with the Radical tendencies of Mr. Chamberlain than are Lord Idesleigh and his adherents of the old school outraged by the vagaries of the Conservative Democrats led by Lord Randolph Churchill and the young bloods of the party. Mr. Parnell's object is to bring about, if possible, an alliance between the Whigs and Tories, which will force into coalescence the Radicals and Democrats, and give to the next House pretty equally balanced parties. The closer the strength of the contending sides, the stronger for the Irish Nationalists, for with their compact body of seventy or eighty adherents, they will be virtually lords of the situation, and instead of suing for consideration they can dictate terms, offering their support to the side which will grant the more favourable terms to Ireland. For either Mr. Gladstone or the Marquis of Salisbury would be fatal to Mr. Parnell's aspirations, and hence his bold move to bring about an equalization of parties in the new Parliament.

The French Elections.

The October elections, which are to choose a new Chamber of Deputies, promise to be very close, but the prospects of the Republicans now seem to be brighter than those of the combination forming the Opposition. In regard to one exciting question, it is now safe to forecast the result. It is almost certain that a majority of the new Chamber will favour the expulsion of all members of former reigning families, as every departmental caucus throughout the country has declared in favor of that measure.

Another German Occupation. It is reported that Germany will shortly assume a protectorate over the Marshall Islands. These islands are a portion of the Micronesia group, which includes the Caroline Islands. They comprise the Bechock and Balick chains, and are situated in the Pacific ocean in latitude 7 deg. 30 min. north, and longitude 173 deg. 30 min. The islands of this group are very small and sparsely populated. Germany claims the right to occupy these islands under the Anglo-German agreement concluded by the Pacific Commission in London, recognizing German interests in the Caroline and Marshall Islands, and the British interests in the Ellice, Gilbert, and other groups.

Mormon Missionaries Beaten. For some time past several Mormon missionaries have been laboring with great energy in the East End, London, and have succeeded in making many converts and proselytes in spite of persistent and brutal opposition. Recently there have been reports that these missionaries had been systematically kidnapping young women and shipping them to Utah. All sorts of stories have been told about the harems kept by the wealthy Mormons. These reports have greatly exasperated the East Enders, and an infuriated mob invaded and took possession of the hall in which the missionaries were speaking. The invaders stormed the platform, smashed most of the furniture of everything on the platform. The seven elders who had been conducting the services fled for their lives. The rioters chased them through the streets, pelting them with filth, and with every sort of missile that could be picked up. Several of the elders were captured and were terribly abused by the mob. Their clothing was torn to shreds, and they were beaten until they were unconscious and almost lifeless. The rioters evidently believing them dead fled, and left the Mormons lying naked and bleeding on the pavement, where they were afterwards found by the police.

Two Pic-nics. The annual picnic of the Mount Hope Orphanage, London, took place on the grounds of that institution Thursday afternoon, and proved a very successful one, and the proceeds, which will be large, will be devoted to the funds of the Orphanage. The principal attraction during the afternoon was a competition for a gold watch presented by Rev. Father Tiernan, the competitors being Miss Ella Murray and Miss Teresa Tillman, both active church workers. The voting began early, and the interest increased as the figures showed the state of the poll on the blackboard and the following: Each candidate redoubled their exertions to secure more votes. At 9 o'clock the poll was closed and the announcement made that Miss Murray had won the watch with 2,445 votes, Miss Tillman having obtained 1,659. As each vote represents 10 cents the amount realized from this source was considerable. The refreshment table was managed by a staff of young ladies, and among those who contributed to the success of the picnic were:—Mrs. O'Byrne, Misses Tillman, Markey, Murray, Collins, Wright, Gould, McCarthy, Goldsberry, Farrell, Caesar, Ryan, and the Sumner's string band provided the dance music.

A correspondent writing from Forest on the 26th inst., says:—There was quite a gathering in Forest on Tuesday, on the occasion of a Roman Catholic picnic given up by Rev. Father Corcoran, of Parkhill, of whose parish Forest forms an outlying mission. There appeared to be about 1,200 people on the picnic grounds, who all seemed to enjoy the pastimes provided for their amusement, consisting of Caledonian games, dancing, music and speeches. The prize-winners were, for putting the light and heavy stone, R. Currie, first; R. Harrison, second. Lifting heavy hammers, R. Currie, first; R. Harrison, second. Able and stirring speeches were delivered by Rev. Father Corcoran and Mr. Keon. Peter Graham, M. P. for East Lambton, also gave a short address. One of the interesting events of the occasion was the voting on a gold watch, the young lady aspirant being Miss Murray, Miss Tiernan and Miss Martin. The fortunate winner was Miss Murray, and the amount realized for the watch was \$110.17. This would realize a nice profit to the promoters of the picnic.

Canadian News. Hon. Thomas White was re-elected Aug. 27th for Cardwell by 672 majority. Since the outbreak of smallpox in Montreal, a total of 220 deaths have occurred, of which 145 have taken place since the 1st inst. It is reported that cases have made their appearance in the villages of Richelieu and Farnham.

The Dominion Government have appointed Colonel Jackson, Whitehead, and Forrest, of Winnipeg, as commissioners to enquire into and report upon unsettled claims on the Militia Department on account of the recent rebellion in the North-West.

The Post-office department at Washington has requested the Secretary of the Treasury to cause all Canadian mails coming into the United States to be thoroughly fumigated to obviate the danger of introducing smallpox into the country through the mails.

The Central Prison Enquiry Commissioners on August 27th heard arguments of counsel on the evidence. On the suggestion of Hon. A. S. Hardy, the commissioners will visit several United States prisons before rendering their report.

Nearly one hundred agricultural laborers have arrived from Great Britain during the past few days and were immediately provided with engagements by the Government agents with farmers in the Eastern townships. There is still a demand in the same district for practical men who understand the business.

Dr. Myers, who obtained a grant of 640 acres in the district of Assiniboia for the purpose of forming a Swiss colony for the manufacture of butter and cheese on the co-operative principle, has issued the rules under which the experiment is to be conducted. He has secured two hundred heads of Swiss families who have agreed to join in the venture, and work will be commenced next spring.

Mr. L. O. David, of Montreal, has received a letter from Mr. Fitzroy, one of Riel's counsel, informing him that an order for the hearing of Riel's case before a Manitoba Court of Appeals has just been received, and that he was at once to take the necessary proceedings to have everything in readiness for the next term of that court.

Rev. Father Traud, the resident missionary of the Montagnais Indians at Betsiamits, writes recommending the roots of the Sarracenia purpurea, commonly known as the pitcher plant, as an antidote against smallpox, and attesting its curative effects within his own experience during a terrible outbreak of the disease among the Montagnais Indians at Mr. Holiday's establishment on the River Moisie some years ago.

The commission for adjusting the half-breeds' claims commenced and concluded its sitting at Regina, settling fifteen. Nineteen hundred and fifty claims have been settled up to date. The sitting at Winnipeg, which will last two days, will conclude their labors for the present. The Lac la Biche district is only unsettled not yet visited, the presence of hostile Indians rendering it unsafe just now. The scrip is sold as soon as granted for 50 per cent. of its face value.

Mr. F. M. Caldwell, a merchant of Philadelphia, Pa., who has commercial relations in Montreal, was some time ago exercising a horse on a riding park on Mount Royal, which had been constructed by the Corporation. The animal the visitor was mounted on put one of his feet in a hole on the track and threw his rider, falling upon him and fracturing one of his limbs, which laid him up here in the Windsor hotel for some time. His sufferer has entered an action for \$3,000 damages against the city on the ground of negligence on the part of the civic officials.

Mr. John P. Sutton having been deputed by the executive of the Irish National League of America to organize branches of the league in Canada and solicit subscriptions for the Irish Parliamentary Fund, arrived in Toronto, Aug. 28th, called on his Grace Archbishop Lynch, and explained the object of his visit. His Grace expressed his sympathy with all legitimate efforts for the redress of Irish grievances and gave Mr. Sutton the following letter as an endorsement of the object of his mission:—St. Michael's Palace, Toronto, 27th Aug.—Dear Mr. Sutton,—I am sorry that I cannot subscribe more than \$25 to the Irish Parliamentary Fund, which, according to his Grace the Archbishop of Cashel, is absolutely necessary in the present crisis of Irish affairs. The dawn of a better day for Ireland is fast approaching and it behooves every true Irishman to hasten the event. Yours, faithfully, + JOHN JOSEPH LYNCH, Archbishop of Toronto.

The set was purchased from Mr. Bass, jeweller, and is valued at \$70. As early as seven o'clock on Wednesday large numbers of ladies were observed going to St. Mary's Cathedral to witness the marriage that was to take place there the building was well filled. While the organ was peeling forth a wedding march Mr. F. Cicciari and Miss Lillie Walsh, the groom and bride, proceeded up the aisle, accompanied by those who were to assist them in the ceremony, viz., Messrs. Ed. Dwyre and Wm. Byrnes, and the Misses Aggie and Stella Walsh, sisters of the bride. The officiating clergyman was the Rev. Father Trowhey, and at the conclusion of the ceremony solos were sung by Mrs. O'Reilly and Miss Lyons, to Prof. DesRochers' accompaniment on the organ. The wedding party proceeded to the residence of Mrs. Walsh, where breakfast was partaken of, and this afternoon the happy couple left for Caledonia Springs. They will visit Ottawa, Montreal and Quebec before returning. The bride received many costly and handsome presents. Numerous friends tendered their best wishes to Mr. and Mrs. Cicciari.—Kingston News, Aug. 27.

London Business University Still to the Front. Mr. A. J. Cadman, a thoroughly qualified and practical educator and a gentleman highly esteemed by all who knew him, has been admitted by Mr. Wm. N. Yerex as partner in the London Business University. The reputation of this institution, under the sole management of Mr. Yerex, has been unsurpassed by that of any similar Business College and, now that he has associated with him a man of Mr. Cadman's experience and ability, we predict for it a degree of prosperity and success eminently satisfactory in every respect.
