The point Father Damen desired to make was that with the Roman Church rested the ultimate determination of the canon of Scripture. A foolish list of "Roman Recruits was paraded in this city last year, a pamphlet torn to shreds by the Quarterly Review for January, 1888, which showed that it covered the first eighty four years of this century, and that it went to Russia, Germany and America for names. This article, well worth reading, shows how little has been done by the most elaborate system of most showy machinery, by Eminences, Graces, Lordships and Reverences without end, by assertion and assump-tion, and unheard-of impudence, by pointing out and exaggerating our difficulties; by concealing and falsifying their own. The facts in relation to this pam-

phlet are simply these. It was first published in the year 1878 by the editor of the Whitehall Review, a secular newspaper, as a bit of what is called newspaper enterprize, just as one of our newspapers published, the other day, a list of Ottawa's visitors to him. the World's Fair. through several editions, each an enlargement and improvement on the preceding. The last edition was published in 1892, and so far as my personal knowledge goes, is what it professes to be, a list of prominent English converts to Rome during the nineteenth century. Our critic refers us to the Quarterly Review of 1888. where he says this pamphlet is torn to shreds. The writer in the Quarterly had reference to the edition of 1884, but I do not find that he was nearly stronger language than the preceding so destructive as one would gather from the reverend gentleman's words.

Now it would seem that it would be impossible for any candid man to mis-take the real meaning of that lan-guage. The Church of Rome was guage. The Church of Rome was established by Saint Peter and Saint Paul. The faith of that Church is truly Apostolic, and with that Church, and of course with the faith taught by that Church, it is necessary that all ther Churches should agree. Whyl "On account of its more powerful principality." But why was the Church of Rome a more powerful principality? Evidently because it was the See of Peter, the Prince of the Apostles. It is a favorite theory of our opponents that it was on account of the more powerful civil principality of Rome which was the centre of a mighty temporal empire. But evidently the point at which Irenaus is aiming is purely spiritual—it has nothing what-ever to do with civil power and dominion. He is aiming to confound the heretics, and he does so by an appeal to Apostolic tradition, and especially the tradition of the Church of Rome, which occupied a position of preeminent authority by virtue of its more power-ful spiritual principality. It was that same principality which was recognized by the other fathers of the Church — The Reverend Mr. Thompson, a by Saint Ignatius the martyr, for ing to the disingenuous criticisms of his brother Protestants on that passage

instance, when more than once he spoke of the Church of Rome as the Spoke of the Church of Rome as the Church which "presides in the place of the Roman legion being worthy of God most comely, deservedly blessed, most celebrated, and properly organ ized, most chaste-according to the charity of Jesus Christ."

By Tertullian acknowledging that the Bishop of Rome was Apostolic, that the Roman Church was the Church of Peter and that Peter was the Rock on which the Church was built. By Origin declaring that "Peter was by Fathers, especially as applied to the supremacy of the Chair of Peter. That the Lord called a Rock upon whom is built Christ's Church against which testimony is so full and complete that the gates of hell shall not prevail." "The chief authority as regards the feeding of the sheep was delivered to Peter, and on him as on the earth the Church was founded." Above all, by Saint Cyprian, who may well be called the great champion of the prerogatives of the Chair of Peter-repeating over Among the early Fathers of the and over again in his letters, and especially in his treatise on the Unity of the Church, the great fact of the headship of Peter "There is one baptism, and one Holy Ghost, and one Church founded by Our Lord upon Peter for an original and principle of Unity," and he insists with the greatest plainness that to be in the Cath olic Church one must be in com-munion with the Chair of Peter.

We mention these, and there are upon and helping us to interpret the language of Saint Irenæus. They are all of the second and third centu-ries and they all speak the same language so that there cannot be a reasonable doubt that St. Irenæus, who conversed familiarly with Saint Polycarp who was a disciple of Saint John and therefore held the true Apostolic tradition, when he spoke of the Church of Rome as having a more powerful principality with which all other churches should agree, he meant precisely what all the other fathers neant when they declared that that Church was founded by our Lord upon Peter, as upon a Rock against which the gates of hell should never prevail.
