

The George White Rearmount Combination Plowing and Threshing Steam Tractor

Different sizes of Engines and Threshers to suit all conditions — we handle everything for the Thresherman.

Over half a century's experience teaches that the Western farmer knows that the fact of stating "We have the best goods on the market" would not necessarily make it so. Though not always from Missouri, the "Show me" policy could not be stronger than with the Western farmer. It is a good policy. We can SHOW YOU. Let us try.

We follow up our output to the last furrow and to the last bushel — with service. Ask the users.

Cut below does not show wheel extension, rear coal bunk and water tank and cab—all of which are supplied, if required

We are making the best quality of goods that the above said over fifty years' experience, our thoroughly equipped plant, our expert staff of mechanics, our knowledge of actual requirements in the field, and our admission of the fact that it is never too late to learn, and add improvements to our goods, can inculcate in them, and we are here to illustrate to the prospective buyer that "we have the goods."

Our plowing engine is at your service. Note the drive wheel construction. Note the balance. Note the convenience of the driving parts. Note the clearance. Note the whole engine—and write us your requirements.
