WINNIPEG MARKET LETTER

WINNIPEG MARKET LETTER

Office of The Grain Growers' Grain Company Limited, June 5, 1915)
Wheat—Has ruled heavy during the past week and prices have had another large decline, July wheat closing today 13½ cents lower and October wheat 10½ cents off. Excellent crop prospects, not only, over the Canadian Northwest, but in the American Winter Wheat Belt as well as their Spring Wheat section, is largely responsible for selling pressure on this side of the Atlantic. Little or no support was received from Aiverpool, and altho a little business was done on the decline it was not nearly enough to hold prices steady. The demand for cash wheat has been very fair at times, particularly for 1, 2 and 3 Northern, with the result that better premiums, basis the July, are being paid now, than was a week ago. The demand continues slow for off-grades, such as toughs, seedies and smutties, but it is quite possible that owing to prices having declined somebody will be coming into the market after them.

Oats—Prices have declined about 7½ cents this week, the break being in sympathy with pressure in wheat, but during the latter part of the week were very heavy and considerable liquidation was going on by holders of July option and very little attempt was made to hold prices up. The Jemand for low grades is fairly good and offerings running light.

Barley—Prices up ½ to 1 cent on all grades. Business in this grain is very lights—Flax—The market continues erratic and prices at the close today show met losses of 7 to 9 cents, being in sympathy with the break in Duluth.

CALGARY LIVESTOCK

Calgary, June 5.—Last week's Alberta stockyards receipts of horses were 175, cattle 294, hogs 3,410 and no sheep. This week's receipts were Horses 643, cattle 356, hogs 1,886 and no sheep. The large increase in the shipments of horses was attributable to the movement of army horses from Victoria to Montreal. Cattle receipts were heavier and consisted of about an equal number of stockers and fat cattle. Fat cattle showed further weakness, 87.75 being about the top for the best kinds, altho an 8 cent top was reached. The demand, however, is good, at the reduced quotations. Receipts of hogs were light on account of the bad weather making country roads impossible for loads. Winnipeg prices have weakened, and we advise caution as uncasiness will develop if any large number of hogs seem in sight for next week's delivery. Cattle and hog shipments (not including those of P. Burns & Co.) included one car of cattle to Vernon, five to New Westminster and a mixed car of cattle and hogs to Vancouver. Fifteen cars of hogs were shipped east to Winnipeg and Montreal. An active demand for feeders developed and we sold a particularly fine lot fed and watered at \$6.70 for shipment to the Experimental Farm at Lacombe. Steers, choice export, \$7.75 to \$8.00; steers, butcher, \$7.25 to \$7.75; heifers, common to choice heavy, \$5.75 to \$7.75; heifers, common to choice heavy, \$5.75 to \$7.75; heifers, common to choice ows, common, \$4.50 to \$0.90; cows, canner, \$1.75 to \$8.00; stags, \$4.75 to \$6.00; oxen, thin to very choice, \$4.25 to \$5.50; bulls, \$4.25 to \$6.90; veal calves, \$200 to 400 lbs., \$8.50; cows, canner, \$1.75 to \$6.50; springers, choice, \$6.50; hogs, \$8.50; for selects, weighed off cars.

(These prices are quoted by the Alberta Farmers'

Co-operative Elevator Company Limited-Live-stock Department).

Winnipeg Livestock

Stockyard Receipts

During the past week there have been received at the Union stockyards: 1,044 cattle, 180 calves, 11,446 hogs and 11 sheep.

There were over three hundred more cattle received here during the past week than for a similar period a week lago. Most of the cattle on sale were common and medium grades, so that the tendency was generally towards lower prices. The few dry fed choice steers on hand sold well, one load of very nicely finished cattle making 9 cents, but outside of these the bulk of the best cattle on sale brought from \$8.50 to \$8.75. More grass cattle are being sent in and if this increase continues prices are sure to drop as soon as the local demand is cared for. Stocker and feeder markets to the South have declined and with increased receipts here, this class of stock make slow sellers even with the market from \$5 to 50 cents per hundred lower than last week. It would seem best to keep back stockers and feeders in the country for a while until the market from \$6.50 to \$6.50, and choice yearings \$8.75. No \$6.00. Heifers are worth from \$6.50 to \$5.75. Milkers and springers are as hard to sell as last week and prices are all the way from \$10.00 to \$15.00 per head lower than they were about four weeks ago. Choice milkers and springers are worth now from \$60.00 to \$75.00 per head, with

the medium kinds from \$38.00 to \$45.00. Some of the young thin cows selling for grazing purposes are about 75 cents lower and are now selling at \$4.50 to \$4.75. Veal calves are lower, best calves selling at 8 cents per pound. Common and medium kinds at from 6 to 7 cents per pound.

There was a larger run of hogs to the yards during the past week, but prices have held fairly steady. Choice hogs sell from \$8.65 to \$8.75. The cut is quite a lot closer and common hogs are hard to sell. Sows are worth \$6.25, stags \$4.50, good lights 6\frac{1}{2} to 6\frac{1}{2}, thin pigs from 40 to 90 pounds, 6 to 6\frac{1}{2} cents.

Sheep and Lambs

There are scarcely any sheep coming in, but the best are selling at about 6\frac{1}{2} cents per pound. No lambs on sale.

Country Produce Note Quotations are f.o.b. Winnipeg, except those or cream, which are f.o.b. point of shipment.

The amount of farm produce coming to this market has increased considerably during the past few weeks. Stocks of hutter are piling up and since comparatively little is being purchased, fancy dairy butter is worth about one cent less, namely, 17 to 19 cents, this week; No. 1 dairy is lower at 17 cents per pound and good round lots.

Eggs continue to come to market in large quantities. The price offered by dealers is just about the same this week, 15 to 16 cents per dozen.

Potatoes

Potatoes are sufficiently plentiful to supply all needs, hence prices are holding steady. Potatoes in sacks per bushel are 20 to 55 cents again this week.

Milk and Cream

In sympathy with the heavy stocks of butter with which the market is crowded just now, the price for cream has dropped two cents this week Sweet cream is quoted at 28 cents per pound of butterfat and sour cream at 22 cents per pound of butterfat. As soon as housekeepers begin to buy butter in quantity, which they are likely to do owing to reduced prices, it is probable that cream prices will rise again. Milk is the same, most of it being contracted for at \$2.00 per hundred pounds.

Live Poultry

Live Poultry

Live poultry can be handled with despatch by city produce dealers. Chickens are worth 12 to 13 cents per pound, roosters 10 cents, ducks 12 cents, gence 12 cents, and turkeys 13 to 15 cents per pound.

per pound.

Hay

There is a very good demand just now for hay of good quality. No. 1 Timothy is worth \$21 per ton; No. 2, \$20 per ton; No. 1 Red Top, \$17 per ton; No. 2, \$15 to \$16 per ton; No. 1 Upland, \$14 per ton; No. 2, \$12 to \$13.50 per ton; No. 1 Midland, \$13 per ton and No. 2 Midland, \$15 per ton and No. 2 Midland, \$15 per ton.

Hides

Hides

The quality of hides is improving now and dealers are offering the following prices: Green salted hides, unbranded, No. 1, 13 cents, No. 2, 12 cents; branded, 11 cents flat. Green salted boulls, oxen and stags, 10 cents flat. Green salted horsehides, large, \$3.00; medium, \$2.00; small. \$1.25. Green hides worth one cent less than salted. Dry flint butcher hides, \$0 cents; dry rough and fallen hides, 15 cents; dry horsehides, 50 cents to \$1.00.

WOOL

Toronto, June 2.—Hallam's report on the wool situation is as follows: The Canadian government has modified the embargo on wool, so that it is possible to secure a special permit to ship wool to the United States when it is shown that the wool is to be used only for consumption in the United States. This has widened the market for wool, and has had its effect in adjusting the prices for the present clip, so that we anticipate the usual large marketing of wool during the next few weeks. Washed combing fleece (coarse), 25 to 27 cents. Washed rejections (burry, chaffy, etc.), 25 to 24 cents. Unwashed fleece combing (coarse), 18 to 20 cents. Unwashed fleece, clothing (fine), 23 to 25 cents. Unwashed fleece, clothing (fine), 23 to 25 cents. Unwashed fleece, clothing (fine), that there is no change in the wool market this week. Prices offered are the same as last week, namely: For unwashed medium, 20 to 18 cents, unwashed, coarse, 18 to 16 cents; unwashed, fine and merino, 14 to 12 cents; black wool worth two cents less.

LIVERPOOL MARKET

LIVERPOOL MARKET

Liverpool, June 5.—Wheat easy on American weakness and continued free offers of new winters. United Kingdom arrivals expected to be liberal and on passage increasing. Spot market weak, 1d to 2d lower, with principal pressure in American grades. Cargo market weak; winters and springs 9d lower; Manitobas 74d lower, while Plates and Indias about 9d lower. There continues a very poor inquiry in the United Kingdom, and continental demand shows a waiting attitude, in the advent of the close proximity to harvest. American crop advices as to promise favorable.
